

Evening NEWSREVIEW.

14TH YEAR. NO. 262.

EAST LIVERPOOL, O., SATURDAY, APRIL 15, 1899.

TWO CENTS

KEY TO BANK BOOKS.

Expert So Testified as to the Red Book.

QUAY'S ATTORNEYS FOUGHT HARD

Nevertheless District Attorney Rothermel succeeded in getting in the testimony. Witness said accounts in regular books were incomplete.

PHILADELPHIA, April 15.—Persistent, keen and brilliant argument between District Attorney Rothermel on the one side, Messrs. Watson, Shapley and Shields on the other upon the admission of testimony which may go a long way to establish the alleged guilt of ex-United States Senator Quay was the feature of the trial of that distinguished defendant, and it culminated in a decided victory for the prosecution. The red book found in Cashier Hopkins' desk after his suicide, and upon the admission of which the commonwealth so largely rests its case, was the shaft the district attorney aimed at the defense. To pave the way for the final effort to introduce the book itself he succeeded, after frequent clashes with opposing counsel, sometimes bitter and personal, in presenting expert testimony to prove that the book was necessarily a book of the bank, as accounts in the books admitted under the court's ruling would be made intelligible by the red book.

Before starting his examination, Mr. Rothermel read to the court a statement of what he intended to serve. The expert, he said, had made a thorough examination of all the books in the case. He found that previous to April 30, 1891, the People's bank paid interest on the state deposits to the state treasurer, and that records of such payments were kept in a regular way on the books of the bank. After April 30, 1891, when Mr. Hopkins appeared on the scene, a new system was adopted. This entailed the addition of another book—now known as the red book—to the books theretofore kept by the bank.

Meyer Goldsmith, an expert accountant, was the witness upon which the commonwealth depended to accomplish its contention. During the whole course of the expert's examination, objection after objection was made by the defense and as frequently overruled by Judge Biddle, while the district attorney in logical sequence drew from the witness his conclusions as to the book, based upon a comparison of what was written on its pages with what appeared in the other books.

After it was all over, four hours of examination and cross-examination interspersed with argument, this much was sworn to by the witness. The accounts out of upwards of 1,000 in the regular books were incomplete and inaccurate unless explained by entries in the red book. One was an item for \$1,519 entered in the individual ledger to the credit of the person who received it. The witness was not permitted to designate the person by name. He found this item on the stub of the cashier's check book, but what it represented he could not say until he had examined the calculations in the red book. Here he found the amounts entered and the indications that it had been paid by the cashier's check on Nov. 4, 1897. Another item of \$5,352.10 he found in the regular book dated Oct. 30, 1894, and found the same item in the red book dated Oct. 30, 1894. He stated there were other entries in the red book which explained transactions in the regular book, but the two instances specified were the only ones in which he could reach accurate conclusions as to their nature and purpose.

Mr. Goldsmith said that when he first opened red book he did not consider it a book of the bank, but when he compared the calculations entered on its pages with transactions in the other books he was forced to consider it a book of the bank. He explained this by saying that prior to 1891 calculations such as appeared in the red book were regularly entered in the ledger, but since then the red book had been substituted and fulfilled and fixed the same results.

During the cross-examination of this witness, which was conducted by Mr. Shields, he testified to a page which was missing. The defense repeatedly endeavored to get from him the statement that there might have been figures and words on that page which would clearly explain the entries on the other pages, and that the book as it now stands is unreliable. This was ruled out, following an objection by the district attorney.

This would seem to indicate that when the final effort to present the book in evidence comes today, the defense will make another determined opposition to it on that ground, even if the court should decide that with relation to the transactions testified to it is a book of the bank.

During all the examination touching on the book, with the exception of the two items mentioned, no intimation of the amounts or names was allowed to reach the jury. The prosecution all along, however, has alleged that this book will show that Cashier Hopkins computed interest on state funds and deposited the money to Senator Quay's credit.

Chinese Reformer Reached Vancouver

VANCOUVER, B. C., April 15.—Kang

Wu Won the fugitive Chinese states-

man, has arrived here from Victoria, accompanied by a retinue of Chinese and Japanese sympathizers. From here Kang will proceed to London, which place he expects to make his home until at least a part of the reforms advocated by himself have been brought to pass in China.

ENEMY FLEE FROM LAWTON

sharpshooters ran into a nest of rebels. Five Americans were killed and two wounded.

MANILA, April 15.—(8:30 a. m.)—Starting in an eastern direction along the road to Pansanganan, a party of 60 sharpshooters, under Lieutenant Southern of the Washington regiment, came up to a trench across the road a mile out of Santa Cruz. Lieutenant Southern was wounded.

The Americans then advanced, with the mounted guns and the Fourteenth Infantry battalions in the center, Jiménez's battalion of the First Idaho infantry on the right and Fraine's battalion of the First North Dakota infantry on the left, both flanking. The trench was carried without loss to the Americans.

Pansanganan was found deserted.

MANILA, April 15.—General Lawton was marching north, along the road between the hills and the lake, with the river Napidán and Laguna de Bay to the east of his troops. The enemy was retreating northward.

On Wednesday the troops crossed the Pansanganan and concentrated at Lamau, at the mouth of the river. After leaving two companies of the Fourteenth regiment to guard the entrance of the river the troops marched to Longas and found it deserted. Furniture which had been dropped in the night of the natives was scattered along the trails leading into the hills.

Major Weisenberger's sharpshooters were sent toward Pactos Anconitana in the afternoon. They ran upon a nest of rebels in some thick bushes which afforded a splendid cover. Five men of the North Dakota regiment were killed and two were wounded, two of the former dying after having been brought to Longas church, where Father McKinnon administered the sacrament to them.

The main body of the American troops while at dinner in Longas heard the firing and advanced to the support of the sharpshooters. A scout, from a hill, saw the little fight and many white coats running into the hills. The Laguna de Bay, at the beginning of the fight shelled the hills, making them too hot for the enemy.

The Americans entered San Antonio at sunset without meeting with any resistance. Twenty unarmed prisoners, bearing copies of the proclamation of the United States Philippine commission, which they had somehow secured, were afterward released and sent outside our lines with bundles of proclamations to distribute.

The Fourth cavalry was guarding Santa Cruz.

The United States transport Sherman arrived here after a smooth passage.

On the night of April 11 Lieutenant Meyer disappeared from the ship. The weather was intensely hot and the lieutenant was sleeping on deck, and it is supposed that he fell overboard.

Three privates and six children of privates died from pneumonia.

Dead Lieutenant From Cleveland.

CLEVELAND, April 15.—Lieutenant Ralph Meyer was the son of General E. S. Meyer, who served with distinction in the Civil war and is a prominent attorney of this city. Young Meyer was 21 years old. When the excitement over the war with Spain was at its height young Meyer enlisted with the company organized by the Cleveland Grays. Before he could join the command, however, he received his appointment as a lieutenant in the regular army. Lieutenant Meyer had a brother who was wounded at Santiago and for a time his life was despaired of.

About the Beef Inquiry.

The Taking of Testimony Practically to Close This Week.

WASHINGTON, April 15.—The Wade court of inquiry decided to examine no more witnesses after the close of this week unless in exceptional cases where men expected were unavoidably delayed. General Miles will not be heard, it at all, until next week, but he will not be called except upon his own request. There are several witnesses still to be examined, but the court will expedite the close.

In accordance with this decision the court will not hear all the additional witnesses whose names have been suggested by General Miles. Some of them will, however, be called, and these will include Inspector General Breckenridge.

The witness Friday developed nothing specially new.

A Barge Was Sunk.

LOUISVILLE, April 15.—The barge Vandalia of Pittsburgh, while attempting to go over the falls, struck against a pier near the Indiana side of the Louisville bridge. The boat turned completely over, emptying her entire cargo, consisting of fine Russian iron, valued at about \$100,000, into 15 feet of water. The boat was valued at \$7,000. No one was injured.

EVIDENCE KEPT OUT.

Points Against the Prosecution In the Mrs. George Case.

SCRAPED CUTICLE NOT ADMITTED.

The Judge Decided It Was Not Legal to Take It Without Her Consent—Testimony as to a Threatening Letter Was Also Decided Against by the Court.

CANTON, April 15.—During the trial of Mrs. Anna George numerous threats by Mrs. George against the life of George D. Saxton were testified to by witnesses. Many of the statements were coupled with Mrs. George's story of the alleged wrongs to her at Saxton's hands, which she told the witnesses in connection with her threats.

An attempt of the prosecution to introduce a chemical analysis of the cuticle taken from Mrs. George's hand to show discoloration by powder smoke failed because the cuticle was scraped from her hands while she was under arrest, without her consent.

Another disappointment to the prosecution was the failure of a witness to satisfy the court that he was qualified to judge of Mrs. George's writing and thus identify a letter which it was sought to prove she had written.

Mrs. Mary Nauman related conversations of Mrs. George. In one the latter told of having kept Saxton from entering the Althouse home by pointing a pistol and making him come away with her. Mrs. George asked Saxton if he was ready to die then and said she could have killed him then, but wanted her husband, Mr. George, to get some of his money first. Witness also detailed other threats made by Mrs. George.

In cross-examining Mrs. Nauman the defense sought to have her relate Mrs. George's alleged grievances against Saxton. Witness insisted, however, that Mrs. George had never told her of the wrongs which she claimed Saxton inflicted upon her.

Mrs. Lettie McAllister detailed conversation with Mrs. George about a threat to kill Saxton, about the pistol incident at the Althouse home and the threatening letters. She related what Mrs. George said of her grievances against Saxton.

John L. Jackson, a colored janitor, testified that Mrs. George often came to him at the block where he worked and said to him she would kill Saxton if he did not settle with her and quit going with Mrs. Althouse.

Charles C. Lloyd and Perry Van Horn, reporters, testified to conversations with Mrs. George, in which she threatened the life of Saxton. They also had heard part of her grievance against Saxton.

Mrs. Mary Grable, with whom Mrs. George roomed, testified to two or three threats and the defense sought to prove by her own answers that she is addicted to the opium habit.

Miss Mattie Grimes testified to passing Mrs. George about an hour after the shooting, and finding her face flushed and her manner agitated.

Mrs. Althouse Again Located.

ELIZABETH, Pa., April 15.—Mrs. Eva Althouse, the Canton (O.) woman wanted in the George case, is reported at the home of Samuel Warren, in Fayette township, three miles from here. A reporter who called at the Warren home and asked if he could see Mrs. Althouse received the reply: "I don't know, but I will see. No; I mean she is not here."

MONNETT PREPARED INFORMATION

About Ready to File His Story of Attempted Standard Oil Bribery.

COLUMBUS, April 15.—Attorney General Monnett is preparing the information in reference to the attempted bribery by the Standard Oil representative, which he is to file in the supreme court. The information will probably be filed tomorrow, and will show all the details leading up to his having been offered \$400,000 to sidetrack the suits to oust the Standard company.

It will contain the name of the man who made the offer and such other information as the attorney general thinks necessary for the court to make a thorough investigation.

War Demonstration Proposed.

CINCINNATI, April 15.—The railroads presented Mayor Taft and the citizens of Cincinnati a proposition for a war demonstration. One of the big guns from the Oquendo has been secured from the government for Cincinnati, and one from Morro castle for Hillsboro, O., the native city of Senator Foraker. It is proposed to bring these guns by special train from Norfolk, with delegations on the train from Cincinnati and Hillsboro, and have exhibitions or demonstrations along the route.

Memorial Exercises For Morrill.

COLUMBUS, April 15.—Memorial exercises in honor of the late Senator Justin S. Morrill of Vermont were held in the Ohio university chapel. Representative D. K. Watson of Columbus delivered the eulogy on the life, character and public services of the deceased senator. The Ohio State university is itself

a tribute to his memory, having been made possible by Senator Morrill's land grant act in congress.

Prominent Men Accused.

TOLEDO, April 14.—A. K. Basore, Charles H. Hays and Edwin Mercer were charged by Inspector Holmes with using the mails for immoral purposes. They are all prominent in this city.

Antiach College Man Won.

COLUMBUS, April 15.—In the Ohio state oratorical contest held at Yellow Springs, S. L. Day of Antioch college was given first place.

BUSINESS IS GROWING.

Legitimate Trade Increasing, as Does the Productive Power of Great Industries, Said Dun's Review.

NEW YORK, April 15.—R. G. Dun & Co.'s weekly review of trade issued today said in part:

"There is still increase in all legitimate business, and the productive power of great industries increases, even though some of their stocks decline. The sharp reaction in speculation a week ago in no way affected the producing capacity of furnaces or mills, and has been in part recovered, while the disturbance of business caused by the formation of great combinations has in large measure ceased. The money market is in safer and more wholesome condition, and in spite of four heavy payments by large syndicates, amounting to about \$50,000,000, has grown easier. The only stringency has been in call loans.

"It is not owing to speculation alone that payments through the chief clearinghouses have been 80 per cent larger than in the same week of 1892 and 103.2 per cent larger than last year. New York transactions far exceed those of any previous week, \$1,468,502,709 in amount, but outside New York the clearings were 41.5 per cent larger than in 1892 and 44.6 per cent larger than in 1892. The truth is that no such expansion in the general business of the country has ever been seen before, and if such records only were considered there would be ground for fear that a wild passion of trading had again lifted the whole business community off its feet. But instead there is found surprising increase in the chief industries.

"The output of pig iron April 1 was 245,746 tons weekly, against 228,195 tons March 1, with 115,118 tons decrease in stocks unsold and 16,600 tons in warrant stocks, indicating a consumption in manufacture of 1,056,043 tons in March. The haste of 40 other furnaces to get into operation, with their possible output of 30,000 tons more weekly has helped to keep prices of pig quite steady, although strong, but the demand for finished products is far from satisfied. The Maryland Steel company has orders for 75,000 tons steel rails for the Chinese Eastern. Plates have sold at 2.10 for sheared at Pittsburgh, but the leading mills there and mills elsewhere are crowded for months and many will not quote at all.

"The Connellsburg coke product, 179,163 tons for the week, surpasses all records, and prices are steady as before quoted.

"Woolen mills have begun to buy wool more largely, though at prices much of their own making, but there is improving demand for goods, with light weight purchases continuing surprisingly for the season. Sales of wool at the three markets have been 16,792,000 pounds in two weeks, against 3,385,000 pounds last year.

"Wheat advanced about half a cent, accounts of injury discovered since April 1 supplanting the government report. Were the worst of the stories true, there is yet spring wheat seeding to make up for deficiencies, though the season is getting rather late. Exports have been reduced.

"Corn is a shade stronger, and in two weeks exports have been 6,184,693 bushels, against 8,146,681 bushels last year.

"Failures for the week have been 188 in the United States, against 254 last year, and 22 in Canada, against 18 last year.

ALGER NOT TO RESIGN.

The Secretary Again Denied He Would Quit the Cabinet.

WASHINGTON, April 15.—Secretary Alger put an effective quietus on the persistent reports that he contemplated retirement from the cabinet by a positive and unequivocal statement that the reports were absolutely without foundation, and that unless some unforeseen and unlooked for contingency arises he proposes to remain secretary of war throughout this administration.

Alger announced himself as well pleased at the wonderful development already in Cuba and Porto Rico. He praised the American troops in Cuba.

Escaped Prisoner Caught.

DUBOIS, Pa., April 15.—W. J. Nichols, who is wanted in Jefferson and Armstrong counties for burglary, was captured here. The prisoner was taken to a hotel to await the departure of a train. He jumped from a second story window and escaped, but was again captured at Sabula, on a train going east. He is charged with robbing stores.

Weather Forecast For Today.

Western Pennsylvania, Ohio and West Virginia—Fair today; fresh northwest winds, becoming variable; probably fair Sunday.

CROKER NOT ASHAMED

Defended His Right to Benefit From Bossism.

A JUDGE REFUSED DICTATION.

Daly Testified That For This Reason Croker Notified Him He Would Not Be Renominated—Sensational Insinuations at Croker's Chief Lieutenant.

NEW YORK, April 15.—The examination of Richard Croker before the Mazet legislative investigating committee was a remarkable one.

Mr. Croker gave events a somewhat dramatic turn when, after refusing to answer several questions concerning his private affairs, he held up his right hand and said impressively,

"If you show me where I have cut a single dollar from this city you can eat that arm off."

When the Tammany chief went on the stand Mr. Moss conducted a line of questioning which Mr. Croker evidently believed was a loss of time, for he suddenly leaned forward and said:

"It is not necessary to bring up what everybody knows. There is no use playing to the gallery; there is no use making speeches. I am the leader of the party and I acknowledge it. All these people are my friends and I am going to stick to them all the time. Just give me straight talk. I am going to give you straight talk. That is all."

EVENING NEWS REVIEW.

14TH YEAR. NO. 262.

EAST LIVERPOOL, O., SATURDAY, APRIL 15, 1899.

TWO CENTS

KEY TO BANK BOOKS.

Expert So Testified as to the Red Book.

QUAY'S ATTORNEYS FOUGHT HARD

Nevertheless District Attorney Rothermel Succeeded in Getting In the Testimony. Witness Said Accounts in Regular Books Were Incomplete.

PHILADELPHIA, April 15.—Persistent, keen and brilliant argument between District Attorney Rothermel on the one side, Messrs. Watson, Shapley and Shields on the other upon the admission of testimony which may go a long way to establish the alleged guilt of ex-United States Senator Quay was the feature of the trial of that distinguished defendant, and it culminated in a decided victory for the prosecution. The red book found in Cashier Hopkins' desk after his suicide, and upon the admission of which the commonwealth so largely rests its case, was the shaft the district attorney aimed at the defense. To pave the way for the final effort to introduce the book itself he succeeded, after frequent clashes with opposing counsel, sometimes bitter and personal, in presenting expert testimony to prove that the book was necessarily a book of the bank, as accounts in the books admitted under the court's ruling would be made intelligible by the red book.

Before starting his examination, Mr. Rothermel read to the court a statement of what he intended to serve. The expert, he said, had made a thorough examination of all the books in the case. He found that previous to April 30, 1891, the People's bank paid interest on the state deposits to the state treasurer, and that records of such payments were kept in a regular way on the books of the bank. After April 30, 1891, when Mr. Hopkins appeared on the scene, a new system was adopted. This entailed the addition of another book—now known as the red book—to the books theretofore kept by the bank.

Meyer Goldsmith, an expert accountant, was the witness upon which the commonwealth depended to accomplish its contention. During the whole course of the expert's examination, objection after objection was made by the defense and as frequently overruled by Judge Biddle, while the district attorney in logical sequence drew from the witness his conclusions as to the book, based upon a comparison of what was written on its pages with what appeared in the other books.

After it was all over, four hours of examination and cross-examination interspersed with argument, this much was sworn to by the witness. The accounts out of upwards of 1,000 in the regular books were incomplete and inaccurate unless explained by entries in the red book. One was an item for \$1,519 entered in the individual ledger to the credit of the person who received it. The witness was not permitted to designate the person by name. He found this item on the stub of the cashier's check book, but what it represented he could not say until he had examined the calculations in the red book. Here he found the amounts entered and the indications that it had been paid by the cashier's check on Nov. 4, 1897. Another item of \$5,352.10 he found in the regular book dated Oct. 30, 1894, and found the same item in the red book dated Oct. 30, 1894. He stated there were other entries in the red book which explained transactions in the regular book, but the two instances specified were the only ones in which he could reach accurate conclusions as to their nature and purpose.

Mr. Goldsmith said that when he first opened red book he did not consider it a book of the bank, but when he compared the calculations entered on its pages with transactions in the other books he was forced to consider it a book of the bank. He explained this by saying that prior to 1891 calculations such as appeared in the red book were regularly entered in the ledger, but since then the red book had been substituted and fulfilled and fixed the same results.

During the cross-examination of this witness, which was conducted by Mr. Shields, he testified to a page which was missing. The defense repeatedly endeavored to get from him the statement that there might have been figures and words on that page which would clearly explain the entries on the other pages, and that the book as it now stands is unreliable. This was ruled out, following an objection by the district attorney.

This would seem to indicate that when the final effort to present the book in evidence comes today, the defense will make another determined opposition to it on that ground, even if the court should decide that with relation to the transactions testified to it is a book of the bank.

During all the examination touching on the book, with the exception of the two items mentioned, no intimation of the amounts or names was allowed to reach the jury. The prosecution all along, however, has alleged that this book will show that Cashier Hopkins computed interest on state funds and deposited the money to Senator Quay's credit.

Chinese Reformer Reached Vancouver

VANCOUVER, B. C., April 15.—Kang Yen Won the fugitive Chinese states-

man, has arrived here from Victoria, accompanied by a retinue of Chinese and Japanese sympathizers. From here Kang will proceed to London, which place he expects to make his home until at least a part of the reforms advocated by himself have been brought to pass in China.

ENEMY FLEE FROM LAWTON

Sharpshooters Ran Into a Nest of Rebels. Five Americans Were Killed and Two Wounded.

MANILA, April 15.—(8:30 a. m.)—Starting in an eastern direction along the road to Pansanganan, a party of 60 sharpshooters, under Lieutenant Southern of the Washington regiment, came upon a trench across the road a mile out of Santa Cruz. Lieutenant Southern was wounded.

The Americans then advanced, with the mounted guns and the Fourteenth infantry battalions in the center, Jack's battalion of the First Idaho infantry on the right and Fraine's battalion of the First North Dakota infantry on the left, both flanking. The trench was carried without loss to the Americans.

Pansanganan was found deserted.

MANILA, April 15.—General Lawton was marching north, along the road between the hills and the lake, with the gunboats Napitan and Laguna de Bay abreast of his troops. The enemy was retreating northward.

On Wednesday the troops crossed the Pansanganan and concentrated at Lamau, at the mouth of the river. After leaving two companies of the Fourteenth regiment to guard the entrance of the river the troops marched to Longas and found it deserted. Furniture which had been dropped in the night of the natives was scattered along the trails leading into the hills.

Major Weisenberger's sharpshooters were sent toward Pactos Ancontonia in the afternoon. They ran upon a nest of rebels in some thick bushes which afforded a splendid cover. Five men of the North Dakota regiment were killed and two were wounded, two of the former dying after having been brought to Longas church, where Father McKinnon administered the sacrament to them.

The main body of the American troops while at dinner in Longas heard the firing and advanced to the support of the sharpshooters. A scout, from a hill, saw the little fight and many white coats running into the hills. The Laguna de Bay, at the beginning of the fight shelled the hills, making them too hot for the enemy.

The Americans entered San Antonio at sunset without meeting with any resistance. Twenty unarmed prisoners, bearing copies of the proclamation of the United States Philippine commission, which they had somehow secured, were afterward released and sent outside our lines with bundles of proclamations to distribute.

The Fourth cavalry was guarding Santa Cruz.

The United States transport Sherman arrived here after a smooth passage.

On the night of April 11 Lieutenant Meyer disappeared from the ship. The weather was intensely hot and the lieutenant was sleeping on deck, and it is supposed that he fell overboard.

Three privates and six children of privates died from pneumonia.

Dead Lieutenant From Cleveland.

CLEVELAND, April 15.—Lieutenant Ralph Meyer was the son of General E. S. Meyer, who served with distinction in the Civil war and is a prominent attorney of this city. Young Meyer was 21 years old. When the excitement over the war with Spain was at its height young Meyer enlisted with the company organized by the Cleveland Grays. Before he could join the command, however, he received his appointment as a lieutenant in the regular army. Lieutenant Meyer had a brother who was wounded at Santiago and for a time his life was despaired of.

ABOUT THE BEEF INQUIRY.

The Taking of Testimony Practically to Close This Week.

WASHINGTON, April 15.—The Wade court of inquiry decided to examine no more witnesses after the close of this week unless in exceptional cases where men expected were unavoidably delayed. General Miles will not be heard, it at all, until next week, but he will not be called except upon his own request. There are several witnesses still to be examined, but the court will expedite the close.

In accordance with this decision the court will not hear all the additional witnesses whose names have been suggested by General Miles. Some of them will, however, be called, and these will include Inspector General Breckinridge.

The witness Friday developed nothing specially new.

A Barge Was Sunk.

LOUISVILLE, April 15.—The barge Lydia of Pittsburgh, while attempting to go over the falls, struck against a pier near the Indiana side of the Louisville bridge. The boat turned completely over, emptying her entire cargo, consisting of fine Russian iron, valued at about \$100,000, into 15 feet of water. The boat was valued at \$7,000. No one was injured.

EVIDENCE KEPT OUT.

Points Against the Prosecution in the Mrs. George Case.

SCRAPED CUTICLE NOT ADMITTED.

The Judge Decided It Was Not Legal to Take It Without Her Consent—Testimony as to a Threatening Letter Was Also Decided Against by the Court.

CANTON, April 15.—During the trial of Mrs. Anna George numerous threats by Mrs. George against the life of George D. Saxton were testified to by witnesses. Many of the statements were coupled with Mrs. George's story of the alleged wrongs to her at Saxton's hands, which she told the witnesses in connection with her threats.

An attempt of the prosecution to introduce a chemical analysis of the cuticle taken from Mrs. George's hand to show discoloration by powder smoke failed because the cuticle was scraped from her hands while she was under arrest, without her consent.

Another disappointment to the prosecution was the failure of a witness to satisfy the court that he was qualified to judge of Mrs. George's writing and thus identify a letter which it was sought to prove she had written.

Mrs. Mary Nauman related conversations of Mrs. George. In one the latter told of having kept Saxton from entering the Althouse home by pointing a pistol and making him come away with her. Mrs. George asked Saxton if he was ready to die then and said she could have killed him then, but wanted her husband, Mr. George, to get some of his money first. Witness also detailed other threats made by Mrs. George.

In cross-examining Mrs. Nauman the defense sought to have her relate Mrs. George's alleged grievances against Saxton. Witness insisted, however, that Mrs. George had never told her of the wrongs which she claimed Saxton inflicted upon her.

Mrs. Lettie McAllister detailed conversation with Mrs. George about a threat to kill Saxton, about the pistol incident at the Althouse home and the threatening letters. She related what Mrs. George said of her grievances against Saxton.

John L. Jackson, a colored janitor, testified that Mrs. George often came to him at the block where he worked and said to him she would kill Saxton if he did not settle with her and quit going with Mrs. Althouse.

Charles C. Lloyd and Perry Van Horn, reporters, testified to conversations with Mrs. George, in which she threatened the life of Saxton. They also had heard part of her grievance against Saxton.

Mrs. Mary Grable, with whom Mrs. George roomed, testified to two or three threats and the defense sought to prove by her own answers that she is addicted to the opium habit.

Miss Mattie Grimes testified to passing Mrs. George about an hour after the shooting, and finding her face flushed and her manner agitated.

Mrs. Althouse Again Located.

ELIZABETH, Pa., April 15.—Mrs. Eva Althouse, the Canton (O.) woman wanted in the George case, is reported at the home of Samuel Warren, in Fayette township, three miles from here. A reporter who called at the Warren home and asked if he could see Mrs. Althouse received the reply: "I don't know, but I will see. No; I mean she is not here."

MONNETT PREPARED INFORMATION

About Ready to File His Story of Attempted Standard Oil Bribery.

COLUMBUS, April 15.—Attorney General Monnett is preparing the information in reference to the attempted bribery by the Standard Oil representative, which he is to file in the supreme court. The information will probably be filed tomorrow, and will show all the details leading up to his having been offered \$400,000 to sidetrack the suits to oust the Standard company.

It will contain the name of the man who made the offer and such other information as the attorney general thinks necessary for the court to make a thorough investigation.

War Demonstration Proposed.

CINCINNATI, April 15.—The railways presented Mayor Tafel and the citizens of Cincinnati a proposition for a war demonstration. One of the big guns from the Oquendo has been secured from the government for Cincinnati, and one from Morro castle for Hillsboro, O., the native city of Senator Foraker. It is proposed to bring these guns by special train from Norfolk, with delegations on the train from Cincinnati and Hillsboro, and have exhibitions or demonstrations along the route.

Memorial Exercises For Morrill.

COLUMBUS, April 15.—Memorial exercises in honor of the late Senator Justin S. Morrill of Vermont were held in the Ohio university chapel. Representative D. K. Watson of Columbus delivered the eulogy on the life, character and public services of the deceased senator. The Ohio State university is itself

a tribute to his memory, having been made possible by Senator Morrill's land grant act in congress.

Prominent Men Accused.

TOLEDO, April 14.—A. K. Basore, Charles H. Hays and Edwin Mercer were charged by Inspector Holmes with using the mails for immoral purposes. They are all prominent in this city.

Antioch College Man Won.

COLUMBUS, April 15.—In the Ohio state oratorical contest held at Yellow Springs, S. L. Day of Antioch college was given first place.

BUSINESS IS GROWING.

Legitimate Trade Increasing, as Does the Productive Power of Great Industries, Said Dun's Review.

NEW YORK, April 15.—R. G. Dun & Co.'s weekly review of trade issued today said in part:

"There is still increase in all legitimate business, and the productive power of great industries increases, even though some of their stocks decline. The sharp reaction in speculation a week ago in no way affected the producing capacity of furnaces or mills, and has been in part recovered, while the disturbance of business caused by the formation of great combinations has in large measure ceased. The money market is in safer and more wholesome condition, and in spite of four heavy payments by large syndicates, amounting to about \$50,000,000, has grown easier. The only stringency has been in call loans.

"It is not owing to speculation alone that payments through the chief clearinghouses have been 80 per cent larger than in the same week of 1892 and 103.2 per cent larger than last year. New York transactions far exceed those of any previous week, \$1,468,503,709 in amount, but outside New York the clearings were 41.5 per cent larger than in 1892 and 44.6 per cent larger than in 1892. The truth is that no such expansion in the general business of the country has ever been seen before, and if such records only were considered there would be ground for fear that a wild passion of trading had again lifted the whole business community off its feet. But instead there is found surprising increase in the chief industries.

"The output of pig iron April 1 was 245,746 tons weekly, against 228,195 tons March 1, with 115,118 tons decrease in stocks unsold and 16,600 tons in warrant stocks, indicating a consumption in manufacture of 1,056,043 tons in March. The haste of 40 other furnaces to get into operation, with their possible output of 30,000 tons more weekly has helped to keep prices of pig quite steady, although strong, but the demand for finished products is far from satisfied. The Maryland Steel company has orders for 75,000 tons steel rails for the Chinese Eastern. Plates have sold at 2.10 for sheared at Pittsburgh, but the leading mills there and mills elsewhere are crowded for months and many will not quote at all.

"The Connellsburg coke product, 179,163 tons for the week, surpasses all records, and prices are steady as before quoted.

"Woolen mills have begun to buy wool more largely, though at prices much of their own making, but there is improving demand for goods, with light weight purchases continuing surprisingly for the season. Sales of wool at the three markets have been 16,792,000 pounds in two weeks, against 3,385,000 pounds last year.

"Wheat advanced about half a cent, accounts of injury discovered since April 1 supplanting the government report. Were the worst of the stories true, there is yet spring wheat seedling to make up for deficiencies, though the season is getting rather late. Exports have been reduced.

"Corn is a shade stronger, and in two weeks exports have been 6,184,693 bushels, against 8,146,081 bushels last year.

"Failures for the week have been 188 in the United States, against 254 last year, and 22 in Canada, against 18 last year.

ALGER NOT TO RESIGN.

The Secretary Again Denied He Would Quit the Cabinet.

WASHINGTON, April 15.—Secretary

Alger put an effective quietus on the persistent reports that he contemplated retirement from the cabinet by a positive and unequivocal statement that the reports were absolutely without foundation and unlooked for contingency arises he proposes to remain secretary of war throughout this administration.

Alger announced himself as well pleased at the wonderful development already in Cuba and Porto Rico. He praised the American troops in Cuba.

Escaped Prisoner Caught.

DUBOIS, Pa., April 15.—W. J. Nichols, who is wanted in Jefferson and Armstrong counties for burglary, was captured here. The prisoner was taken to a hotel to await the departure of a train. He jumped from a second story window and escaped, but was again captured at Sabula, on a train going east. He is charged with robbing stores.

Weather Forecast For Today.

Western Pennsylvania, Ohio and West Virginia—Fair today; fresh northwest winds, becoming variable; probably fair Sunday.

CROKER NOT ASHAMED

Defended His Right to Benefit From Bossism.

A JUDGE REFUSED DICTATION.

Daily Testified That For This Reason Croker Notified Him He Would Not Be Renominated—Sensational Insinuations at Croker's Chief Lieutenant.

NEW YORK, April 15.—The examination of Richard Croker before the Mazet legislative investigating committee was a remarkable one.

Mr. Croker gave events a somewhat dramatic turn when, after refusing to answer several questions concerning his private affairs, he held up his right hand and said impressively.

"If you show me where I have taken a single dollar from this city you can cut that arm off."

When the Tammany chief went on the stand Mr. Moss conducted a line of questioning which Mr. Croker evidently believed was a loss of time, for he suddenly leaned forward and said:

"It is not necessary to bring up what everybody knows. There is no use playing to the gallery; there is no use making speeches. I am the leader of the party and I acknowledge it. All these people are my friends and I am going to stick to them all the time. Just give me straight talk. That is all."

EVENING NEWS REVIEW.

14TH YEAR. NO. 262.

EAST LIVERPOOL, O., SATURDAY, APRIL 15, 1899.

TWO CENTS

KEY TO BANK BOOKS.

Expert So Testified as to the Red Book.

QUAY'S ATTORNEYS FOUGHT HARD

Nevertheless District Attorney Rothermel succeeded in getting in the testimony. Witness said accounts in regular books were incomplete.

PHILADELPHIA, April 15.—Persistent, keen and brilliant argument between District Attorney Rothermel on the one side, Messrs. Watson, Shapley and Shields on the other upon the admission of testimony which may go a long way to establish the alleged guilt of ex-United States Senator Quay was the feature of the trial of that distinguished defendant, and it culminated in a decided victory for the prosecution. The red book found in Cashier Hopkins' desk after his suicide, and upon the admission of which the commonwealth so largely rests its case, was the shaft the district attorney aimed at the defense. To pave the way for the final effort to introduce the book itself he succeeded, after frequent clashes with opposing counsel, sometimes bitter and personal, in presenting expert testimony to prove that the book was necessarily a book of the bank, as accounts in the books admitted under the court's ruling would be made intelligible by the red book.

Before starting his examination, Mr. Rothermel read to the court a statement of what he intended to serve. The expert, he said, had made a thorough examination of all the books in the case. He found that previous to April 30, 1891, the People's bank paid interest on the state deposits to the state treasurer, and that records of such payments were kept in a regular way on the books of the bank. After April 30, 1891, when Mr. Hopkins appeared on the scene, a new system was adopted. This entailed the addition of another book—now known as the red book—to the books theretofore kept by the bank.

Meyer Goldsmith, an expert accountant, was the witness upon which the commonwealth depended to accomplish its contention. During the whole course of the expert's examination, objection after objection was made by the defense and as frequently overruled by Judge Bidle, while the district attorney in logical sequence drew from the witness his conclusions as to the book, based upon a comparison of what was written on its pages with what appeared in the other books.

After it was all over, four hours of examination and cross-examination interspersed with argument, this much was sworn to by the witness. The accounts out of upwards of 1,000 in the regular books were incomplete and inaccurate unless explained by entries in the red book. One was an item for \$1,519 entered in the individual ledger to the credit of the person who received it. The witness was not permitted to designate the person by name. He found this item on the stub of the cashier's check book, but what it represented he could not say until he had examined the calculations in the red book. Here he found the amounts entered and the indications that it had been paid by the cashier's check on Nov. 4, 1897. Another item of \$5,352.10 he found in the regular book dated Oct. 30, 1894, and found the same item in the red book dated Oct. 30, 1894. He stated there were other entries in the red book which explained transactions in the regular book, but the two instances specified were the only ones in which he could reach accurate conclusions as to their nature and purpose.

Mr. Goldsmith said that when he first opened red book he did not consider it a book of the bank, but when he compared the calculations entered on its pages with transactions in the other books he was forced to consider it a book of the bank. He explained this by saying that prior to 1891 calculations such as appeared in the red book were regularly entered in the ledger, but since then the red book had been substituted and filled and fixed the same results.

During the cross-examination of this witness, which was conducted by Mr. Shields, he testified to a page which was missing. The defense repeatedly endeavored to get from him the statement that there might have been figures and words on that page which would clearly explain the entries on the other pages, and that the book as it now stands is unreliable. This was ruled out, following an objection by the district attorney.

This would seem to indicate that when the final effort to present the book in evidence comes today, the defense will make another determined opposition to it on that ground, even if the court should decide that with relation to the transactions testified to it is a book of the bank.

During all the examination touching on the book, with the exception of the two items mentioned, no intimation of the amounts or names was allowed to reach the jury. The prosecution all along, however, has alleged that this book will show that Cashier Hopkins computed interest on state funds and deposited the money to Senator Quay's credit.

man, has arrived here from Victoria, accompanied by a retinue of Chinese and Japanese sympathizers. From here Kang will proceed to London, which place he expects to make his home until at least a part of the reforms advocated by himself have been brought to pass in China.

ENEMY FLEE FROM LAWTON

sharpshooters ran into a nest of rebels. Five Americans were killed and two wounded.

MANILA, April 15.—(8:30 a. m.)—Starting in an eastern direction along the road to Pansangahan, a party of 60 sharpshooters, under Lieutenant Southern of the Washington regiment, came upon a trench across the road a mile out of Santa Cruz. Lieutenant Southern was wounded.

The Americans then advanced, with mounted guns and the Fourteenth infantry battalions in the center, anek's battalion of the First Idaho infantry on the right and Fraine's battalion of the First North Dakota infantry on the left, both flanking. The trench was carried without loss to the Americans.

Pansangahan was found deserted.

MANILA, April 15.—General Lawton was marching north, along the road between the hills and the lake, with the gunboats Napitan and Laguna de Bay abreast of his troops. The enemy was retreating northward.

On Wednesday the troops crossed the Panangahan and concentrated at Lamau, at the mouth of the river. After leaving two companies of the Fourteenth regiment to guard the entrance of the river the troops marched to Longas and found it deserted. Furniture which had been dropped in the night of the natives was scattered along the trails leading into the hills.

Major Weisenberger's sharpshooters were sent toward Pactos Anconia in the afternoon. They ran upon a nest of rebels in some thick bushes which afforded a splendid cover. Five men of the North Dakota regiment were killed and two were wounded, two of the former dying after having been brought to Longas church, where Father McKinnon administered the sacrament to them.

The main body of the American troops while at dinner in Longas heard the firing and advanced to the support of the sharpshooters. A scout, from a hill, saw the little fight and many white coats running into the hills. The Laguna de Bay, at the beginning of the fight shelled the hills, making them too hot for the enemy.

The Americans entered San Antonio at sunset without meeting with any resistance. Twenty unarmed prisoners, bearing copies of the proclamation of the United States Philippine commission, which they had somehow secured, were afterward released and sent outside our lines with bundles of proclamations to distribute.

The Fourth cavalry was guarding Santa Cruz.

The United States transport Sherman arrived here after a smooth passage.

On the night of April 11 Lieutenant Meyer disappeared from the ship. The weather was intensely hot and the lieutenant was sleeping on deck, and it is supposed that he fell overboard.

Three privates and six children of privates died from pneumonia.

Dead Lieutenant From Cleveland.

CLEVELAND, April 15.—Lieutenant Ralph Meyer was the son of General E. S. Meyer, who served with distinction in the Civil war and is a prominent attorney of this city. Young Meyer was 21 years old. When the excitement over the war with Spain was at its height young Meyer enlisted with the company organized by the Cleveland Grays. Before he could join the command, however, he received his appointment as a lieutenant in the regular army. Lieutenant Meyer had a brother who was wounded at Santiago and for a time his life was despaired of.

ABOUT THE BEEF INQUIRY.

The Taking of Testimony Practically to Close This Week.

WASHINGTON, April 15.—The Wade court of inquiry decided to examine no more witnesses after the close of this week unless in exceptional cases where men expected were unavoidably delayed. General Miles will not be heard, it at all, until next week, but he will not be called except upon his own request. There are several witnesses still to be examined, but the court will expedite the close.

In accordance with this decision the court will not hear all the additional witnesses whose names have been suggested by General Miles. Some of them will, however, be called, and these will include Inspector General Breckinridge.

The witnesses Friday developed nothing specially new.

A Barge Was Sunk.

LOUISVILLE, April 15.—The barge Vandalia of Pittsburgh, while attempting to go over the falls, struck against a pier near the Indiana side of the Louisville bridge. The boat turned completely over, emptying her entire cargo, consisting of fine Russian iron, valued at about \$100,000, into 15 feet of water. The boat was valued at \$7,000. No one was injured.

Chinese Reformer Reached Vancouver

VANCOUVER, B. C., April 15.—Kang Yen Won the fugitive Chinese states-

EVIDENCE KEPT OUT.

Points Against the Prosecution In the Mrs. George Case.

SCRAPED CUTICLE NOT ADMITTED.

The Judge Decided It Was Not Legal to Take It Without Her Consent—Testimony as to a Threatening Letter Was Also Decided Against by the Court.

CANTON, April 15.—During the trial of Mrs. Anna George numerous threats by Mrs. George against the life of George D. Saxton were testified to by witnesses. Many of the statements were coupled with Mrs. George's story of the alleged wrongs to her at Saxton's hands, which she told the witnesses in connection with her threats.

An attempt of the prosecution to introduce a chemical analysis of the cuticle taken from Mrs. George's hand to show discoloration by powder smoke failed because the cuticle was scraped from her hands while she was under arrest, without her consent.

Another disappointment to the prosecution was the failure of a witness to satisfy the court that he was qualified to judge of Mrs. George's writing and thus identify a letter which it was sought to prove she had written.

Mrs. Mary Nauman related conversations of Mrs. George. In one the latter told of having kept Saxton from entering the Althouse home by pointing a pistol and making him come away with her. Mrs. George asked Saxton if he was ready to die then and said she could have killed him then, but wanted her husband, Mr. George, to get some of his money first. Witness also detailed other threats made by Mrs. George.

In cross-examining Mrs. Nauman the defense sought to have her relate Mrs. George's alleged grievances against Saxton. Witness insisted, however, that Mrs. George had never told her of the wrongs which she claimed Saxton inflicted upon her.

Mrs. Lettie McAllister detailed conversation with Mrs. George about a threat to kill Saxton, about the pistol incident at the Althouse home and the threatening letters. She related what Mrs. George said of her grievances against Saxton.

John L. Jackson, a colored janitor, testified that Mrs. George often came to him at the block where he worked and said to him she would kill Saxton if he did not settle with her and quit going with Mrs. Althouse.

Charles C. Lloyd and Perry Van Horn, reporters, testified to conversations with Mrs. George, in which she threatened the life of Saxton. They also had heard part of her grievance against Saxton.

Mrs. Mary Grable, with whom Mrs. George roomed, testified to two or three threats and the defense sought to prove by her own answers that she is addicted to the opium habit.

Miss Mattie Grimes testified to passing Mrs. George about an hour after the shooting, and finding her face flushed and her manner agitated.

Mrs. Althouse Again Located.

ELIZABETH, Pa., April 15.—Mrs. Eva Althouse, the Canton (O.) woman wanted in the George case, is reported at the home of Samuel Warren, in Fayette township, three miles from here. A reporter who called at the Warren home and asked if he could see Mrs. Althouse received the reply: "I don't know, but I will see. No; I mean she is not here."

MONNETT PREPARED INFORMATION

About Ready to File His Story of Attempted Standard Oil Bribery.

COLUMBUS, April 15.—Attorney General Monnett is preparing the information in reference to the attempted bribery by the Standard Oil representative, which he is to file in the supreme court. The information will probably be filed tomorrow, and will show all the details leading up to his having been offered \$400,000 to sidetrack the suits to oust the Standard company.

It will contain the name of the man who made the offer and such other information as the attorney general thinks necessary for the court to make a thorough investigation.

War Demonstration Proposed.

CINCINNATI, April 15.—The railroads presented Mayor Tafel and the citizens of Cincinnati a proposition for a war demonstration. One of the big guns from the Oquendo has been secured from the government for Cincinnati, and one from Morro castle for Hillsboro, O., the native city of Senator Foraker. It is proposed to bring these guns by special train from Norfolk, with delegations on the train from Cincinnati and Hillsboro, and have exhibitions or demonstrations along the

line.

Memorial Exercises For Morrill.

COLUMBUS, April 15.—Memorial exercises in honor of the late Senator Justin S. Morrill of Vermont were held in the Ohio university chapel. Representative D. K. Watson of Columbus delivered the eulogy on the life, character and public services of the deceased senator. The Ohio State university is itself

a tribute to his memory, having been made possible by Senator Morrill's land grant act in congress.

Prominent Men Accused.

TOLEDO, April 14.—A. K. Basore, Charles H. Hays and Edwin Mercer were charged by Inspector Holmes with using the mails for immoral purposes. They are all prominent in this city.

Antioch College Man Won.

COLUMBUS, April 15.—In the Ohio state oratorical contest held at Yellow Springs, S. L. Day of Antioch college was given first place.

BUSINESS IS GROWING.

Legitimate Trade Increasing, as Does the Productive Power of Great Industries, Said Dun's Review.

NEW YORK, April 15.—R. G. Dun & Co.'s weekly review of trade issued today said in part:

"There is still increase in all legitimate business, and the productive power of great industries increases, even though some of their stocks decline. The sharp reaction in speculation a week ago in no way affected the producing capacity of furnaces or mills, and has been in part recovered, while the disturbance of business caused by the formation of great combinations has in large measure ceased. The money market is in safer and more wholesome condition, and in spite of four heavy payments by large syndicates, amounting to about \$50,000,000, has grown easier. The only stringency has been in call loans.

"It is not owing to speculation alone that payments through the chief clearinghouses have been 80 per cent larger than in the same week of 1892 and 103.2 per cent larger than last year. New York transactions far exceed those of any previous week, \$1,468,502,709 in amount, but outside New York the clearings were 41.5 per cent larger than in 1898 and 44.6 per cent larger than in 1892. The truth is that no such expansion in the general business of the country has ever been seen before, and if such records only were considered there would be ground for fear that a wild passion of trading had again lifted the whole business community off its feet. But instead there is found surprising increase in the chief industries.

"The output of pig iron April 1 was 245,746 tons weekly, against 228,135 tons March 1, with 115,118 tons decrease in stocks unsold and 16,600 tons in warrant stocks, indicating a consumption in manufacture of 1,056,043 tons in March. The haste of 40 other furnaces to get into operation, with their possible output of 30,000 tons more weekly has helped to keep prices of pig quite steady, although strong, but the demand for finished products is far from satisfied. The Maryland Steel company has orders for 75,000 tons steel rails for the Chinese Eastern. Plates have sold at 2.10 for sheared at Pittsburgh, but the leading mills there and mills elsewhere are crowded for months and many will not quote at all.

"The Connellsburg coke product, 179,163 tons for the week, surpasses all records, and prices are steady as before quoted.

"Woolen mills have begun to buy wool more largely, though at prices much of their own making, but there is improving demand for goods, with light weight purchases continuing surprisingly for the season. Sales of wool at the three markets have been 16,792,000 pounds in two weeks, against 3,385,000 pounds last year.

"Wheat advanced about half a cent, accounts of injury discovered since April 1 supplanting the government report. Were the worst of the stories true, there is yet spring wheat seeding to make up for deficiencies, though the season is getting rather late. Exports have been reduced.

"Corn is a shade stronger, and in two weeks exports have been 6,184,693 bushels, against 8,146,681 bushels last year.

"Failures for the week have been 188 in the United States, against 254 last year, and 22 in Canada, against 18 last year.

ALGER NOT TO RESIGN.

The Secretary Again Denied He Would Quit the Cabinet.

WASHINGTON, April 15.—Secretary Alger put an effective quietus on the persistent reports that he contemplated retirement from the cabinet by a positive and unequivocal statement that the reports were absolutely without foundation, and that unless some unforeseen and unlooked for contingency arises he proposes to remain secretary of war throughout this administration.

Alger announced himself as well pleased at the wonderful development already in Cuba and Porto Rico. He praised the American troops in Cuba.

Escaped Prisoner Caught.

DUBOIS, Pa., April 15.—W. J. Nichols, who is wanted in Jefferson and Armstrong counties for burglary, was captured here. The prisoner was taken to a hotel to await the departure of a train. He jumped from a second story window and escaped, but was again captured at Sabula, on a train going east. He is charged with robbing stores.

Weather Forecast For Today.

Western Pennsylvania, Ohio and West Virginia—Fair today; fresh northwest winds, becoming variable; probably fair Sunday.

CROKER NOT ASHAMED

Defended His Right to Benefit From Bossism.

A JUDGE REFUSED DICTATION.

Daily Testified That For This Reason Croker Notified Him He Would Not Be Renominated—Sensational Insinuations at Croker's Chief Lieutenant.

NEW YORK, April 15.—The examination of Richard Croker before the Mazet legislative investigating committee was a remarkable one.

Mr. Croker gave events a somewhat dramatic turn when, after refusing to answer several questions concerning his private affairs, he held up his right hand and said impressively.

"If you can show me where I have taken a single dollar from this city you can cut that arm off."

When the Tammany chief went on the stand Mr. Moss conducted a line of questioning which Mr. Croker evidently believed was a loss of time, for he suddenly leaned forward and said:

"It is not necessary to bring up what everybody knows. There is no use playing to the gallery; there is no use making speeches. I am the leader of the party and I acknowledge it. All these people are my friends and I am going to stick to them all the time. Just give me straight talk. That is all."

Moss drew from Mr. Croker the fact that the

THE EAST END.

THE OLD UPPER ROAD

Is Causing Some People No Little Uneasiness

BECAUSE THEY WANT IT FINISHED

Rev. Dr. Lee Occupied the Pulpit at the Second Presbyterian Church—To Begin Work on a Kiln Next Monday—Put Out a Small Fire—Instructing Delegates.

Many residents of East End are wondering when work will be resumed upon the improvement of Pennsylvania avenue or the upper road. The work was done last year by Mr. Welsh but when asked about the work he cannot give any information as to when it will be resumed. The road is now traveled rather extensively, especially by the teams employed in hauling stone from the quarries along the road. During the week a number of carriages have been seen going along the road, although it is not in the best of condition.

It is probable the road will soon be finished, but those who are in a position to talk will say nothing of the matter.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

Extinguished the Flames.
What might have proved a serious fire occurred at the residence of W. T. Hayes in High street opposite the school house Friday morning. One of the family struck a match, the head of which flew off and set fire to some lace curtains and some combustible articles on a dresser. The flames were extinguished with several buckets of water. The department was not called out.

Vote for Elijah W. Hill.

Instructed Delegates.

The motormen of the street car line will hold their regular meeting in their hall in Mulberry street next Saturday night. Aside from the routine business the delegate to the national convention of the Amalgamated Association of Street Railway Employes will be instructed. The convention will be held in Louisville next month.

He will make a good official. Vote for him. Who? J. E. McDonald, of course.

Those Who Are Ill.

There is no change in the condition of Mrs. William Irwin, and she continues very weak.

P. J. Reynolds, who has been suffering for a month with rheumatism, will be able to be out within a few days.

French F. Chaffin, who has been ill for several days with catarrhal fever, is improving rapidly.

Vote for Elijah W. Hill.

Doctor Lee Preached.

Dr. John Lloyd Lee, of the First Presbyterian church, addressed a large congregation in the Second Presbyterian church last evening. This was the last service of the week, and it was very interesting. There will be no more meetings of like character held in the church until next fall.

No man can truly say anything against J. E. McDonald. He is a good citizen and a bright business man.

Placing the Floor.

The work of placing a floor in the Pennsylvania avenue culvert will probably be completed Monday. The work was commenced Thursday, but as there was some grading to be done, the progress has necessarily been slow. The road over the culvert will be constructed at once.

Vote for Elijah W. Hill.

Will Begin Monday.

Monday work will be commenced constructing a new kiln at the East End pottery. Manager Owens stated yesterday afternoon the addition of a new kiln was needed badly, and it could not be finished any too soon as far as he was concerned.

Home pride says: "Vote for J. E. McDonald for Sheriff."

Come to Stay.

L. D. Mercer has moved his family and effects from Grant, W. Va., to the East End. During the week more families have moved to this part of the city than for a month.

Another House.

J. P. Rayl will next week commence the erection of a six room frame dwell-

ing in Pennsylvania avenue, Helana. The house is to be completed within two months.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

Work Resumed.

No work was done on the streets yesterday by the street force on account of the weather. This morning work was resumed as usual and much good was accomplished.

Vote for Elijah W. Hill.

Repaired Tracks.

Section Foreman Hickey yesterday afternoon repaired the tracks near the Mulberry street crossing. The improvement was badly needed.

East Liverpool should stand by her home candidate for Sheriff, J. E. McDonald, a friend of the masses, a worker for our city.

Children III.

Hazel and Gladys, children of Fireman Robert Finley, are ill at the home in St. George street.

Vote for Elijah W. Hill.

Real Estate Transfer.

Frank Hanley has sold his residence to a Mr. McGeery. Consideration \$1,800.

J. E. M'DONALD.

He has started big wheels of prosperity for the city of East Liverpool, and for this entire section, and he deserves the warm thanks of the workingmen of East Liverpool and vicinity, and the toilers ought to show their appreciation of this fact by casting their ballots for J. E. McDonald for Sheriff on Saturday, April 15.

BREAK UP THE GANG.

They Infest the Vicinity of Sixth and West Market.

Some enterprising policeman with a view to bringing himself into prominence, and at the same time doing his duty, should break up the gang that infests the vicinity of Sixth and West Market streets.

The gang is made up of half a dozen or more men who seldom if ever work. They spend the greater part of their time asking the people they know for enough money to buy a drink, and when they are refused their knowledge of profanity is very well displayed for they swear like pirates. Perhaps it would be a good plan to send the whole outfit to the works for a few weeks.

Vote for Elijah W. Hill.

NO ONE ANXIOUS

To Join the Pottery Trust All by Himself.

China, Glass and Lamps editorially refers to the dead pottery trust in this way:

"The regime of the individualist in the pottery business is to continue. Trade outlook has improved since last fall. There is money in staples, specialties and novelties. And, summing the whole thing up, nobody was particularly anxious to go into the trust anyhow, only no one wanted to play solo—all by himself, see?"

J. E. McDonald has been a resident of East Liverpool for 17 years. He has been working in the interest of East Liverpool and her citizens, and, backed by willing helpers, has brought great industries into our midst. Cast your ballot for him Saturday for Sheriff.

STATE OF OHIO, CITY OF TOLEDO, ss
LUCAS COUNTY.

Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, county and state aforesaid, and that said firm will pay the sum of one hundred dollars for each and every case of catarrh that cannot be cured by the use of Hall's Catarrh cure.

WARNER'S.

GEORGE K. NASH.

REASONS BOILED DOWN

Why Judge Nash Should Be Nominated For Governor.

BACKED BY HIS OWN COUNTY

Franklin's Delegates Ask Ohio Republicans to Join Them.

HIS BRILLIANT PARTY RECORD.

Throughout His Public Career George K. Nash Has Been Faithful and Upright and His Eminent Ability For Chief Executive Conceded by All.

Columbus, O., April 11, 1899.

To the Republicans of Ohio:

At a meeting of the delegates and their alternates, from Franklin county to the Republican state convention, it was unanimously resolved to issue an address to the Republicans of Ohio.

The object of this address is to set forth why we, who are the friends and neighbors of Judge George K. Nash, are earnestly and unitedly in favor of his nomination for governor, and to ask the Republicans of the state to unite with us in bringing about that very desirable result.

While Judge Nash, by reason of his active work for the party, on the stump and in the committee rooms, for more than 25 years, is well and favorably known personally, or by reputation, to all the Republicans of Ohio, it is fitting that we, who have known him intimately during these years, should call attention at this time, not only to these services, but also to his qualifications for the office, of which, by reason of our acquaintance with him, we may have fuller knowledge than others who have not been so favorably situated.

George K. Nash has been a resident of Columbus since 1865, and has always since that time been a prominent leader in the Republican party in Franklin county. His election to the office of prosecuting attorney of Franklin county in 1870, and his re-election in 1872, both due to his ability and popularity, were the beginning of the downfall of the Democratic party in this county.

From January, 1880, to April, 1883, he filled with signal ability the office of attorney general, and resigned that office upon being appointed by Governor Foster a member of the supreme court commission. This office he filled with great credit to himself and the state, until the expiration of the commission, in 1885. He has always been active in political work in municipal, county, state and national affairs. He was chairman of the state executive committee in the presidential campaign of 1880, and again in 1881, 1882 and 1897. When not acting as chairman, he has always been in close touch with the committees, his experience and ability rendering his services invaluable. Such have been his political services: always ready, always able to serve the Republican party; prepared to conduct a campaign or to assist in its prosecution, with ability to command, and loyalty to serve.

In all these campaigns he has ever shown himself a vigorous antagonist and a brilliant fighter. The blows he gave were given fairly, squarely and with great effect, and his opponents have ever found it impossible to swerve him from what he believed to be right.

He has been honest, faithful and upright in all his dealings, commanding and receiving the affection of his friends and the respect of his enemies. His executive ability has been tested and proved.

His experience as the law officer of the state has made him familiar, not only with all its various departments, but with their needs and methods, and peculiarly fits him to administer them so that their purposes shall be faithfully carried out.

His acquaintance with public men in Ohio and elsewhere is very large, and his association with them has so familiarized him with public affairs as eminently to qualify him for the office of governor.

We know he will fill the office with honor and dignity, with credit to himself and to the state, and we present him to the Republican voters of Ohio, for their deliberate judgment and favorable consideration.

Respectfully submitted,

Delegates.

TWO MEN WERE KILLED.

A Fatal Accident Near Willock Station, on the Baltimore and Ohio.

PITTSBURG, April 15.—Two men were instantly killed and a third was injured in an accident near Willock station, on the Wheeling division of the Baltimore and Ohio railroad, caused by the parting of a freight train. Thirteen cars broke loose and ran over two miles down a steep grade. The killed and injured are:

Barney Eckert, 23 years old, a coal trimmer; killed.

William Cramer, 24 years old, a coal trimmer; killed.

George Murphy, supposed to have been stealing a ride; right arm broken; was taken to the Mercy hospital.

Joe Gans Whipped.

NEW YORK, April 15.—Joe Gans, the veteran Baltimore lightweight went down before George McFadden in the twenty-third round of their fight at the New Broadway Athletic club. Gans was not completely knocked out, but fell from exhaustion and was unable to gain his feet after he dropped.

Negro Surrounded In a Swamp.

PALMETTO, Ga., April 15.—Armed men patrolled the streets of this little town. The men, who early in the day closed their places of business and joined the posse pursuing the negro, Sam Hose, who brutally murdered Farmer Alfred Cranford and assaulted his wife, took this precautionary measure for the protection of their families. The negro is surrounded in a swamp and cannot escape.

NATIONAL LEAGUE GAMES.

At Philadelphia—Philadelphia 6 runs, 9 hits and 4 errors. Washington 5 runs, 8 hits and 1 error. Batteries—Piatt and Cross; Killen and McGuire. Umpires—Hunt and Connolly. Attendance, 10,578.

At Louisville—Louisville 1 run, 8 hits and 7 errors. Batteries—Cunningham and Kittredge; Griffin and Donahue. Umpires—Burns and Warner. Attendance, 9,000.

Games Scheduled For Today.

Pittsburg at Cincinnati, Chicago at Louisville, Cleveland at St. Louis, New York at Baltimore, Boston at Brooklyn and Washington at Philadelphia.

Pleasant Dreams.

It does not lie in the painter's fancy to imagine a prettier picture than that of a young girl, with lips luscious with the promise of love, half parted in the smiles of happy dreamland. The mind of happy maidenhood is a clear and polished mirror, which, when the wits go wandering into the ghostland of dreams, reflects the impressions of waking hours. If those impressions are pleasant and painless and happy, she will smile in her sleep. If the impressions are those of a suffering woman, tortured with the special ailments to which the feminine organism is liable, the picture is spoiled by the lines of suffering and despondency. Maladies of this nature unfit a woman for joyous maidenhood and for capable motherhood. They incapacitate her to bear the burdens of life in any sphere of action. Household, marital and social duties alike are a burden to the woman who is constantly suffering from headaches, backaches, dragging sensations and weakening drains. Dr. Pierce's Favorite Prescription positively, completely, unfailingly cures troubles of this nature. It imparts health, strength, vigor to the distantly womanly organs. It fits for care-free, healthy maidenhood, happy wifehood and capable motherhood.

"I have a little step-daughter who had St. Vitus' Dance, which your medicine cured," writes Mrs. T. F. Boze, of Ford, Dinwiddie Co., Va. "I spent about twenty dollars for doctor's bills and medicine, and it did not do the child one cent's worth of good. We commenced giving Dr. Pierce's Favorite Prescription and used three bottles of each, which cost only six dollars. Now the child is running around everywhere and is just as healthy as ever."

YES OR NO.

East Liverpool People Are Respectfully Asked to Answer These Questions.

Is there anything in the evidence of one's senses?

Can the reader dispute and then disprove local evidence?

Can reliance be placed upon statements from people we know?

Are the opinions of residents of East Liverpool of any greater moment than opinions held by residents of Maine or Michigan?

Would you sooner believe people living in those states than those in your own city?

Answer these questions honestly after you have quietly read the following:

Mr. R. C. Hawkins, an employee of Sebring's pottery, who lives at 234 Second street, says: "I had been taking medicine for my kidneys right along, and if I had found a cure I would have had no occasion to use Doan's Kidney Pills. I was troubled two years or more with distress

THE EAST END.

THE OLD UPPER ROAD

Is Causing Some People No Little Uneasiness

BECAUSE THEY WANT IT FINISHED

Rev. Dr. Lee Occupied the Pulpit at the Second Presbyterian Church—To Begin Work on a Kiln Next Monday—Put Out a Small Fire—Instructing Delegates.

Many residents of East End are wondering when work will be resumed upon the improvement of Pennsylvania avenue or the upper road. The work was done last year by Mr. Welsh but when asked about the work he cannot give any information as to when it will be resumed. The road is now traveled rather extensively, especially by the teams employed in hauling stone from the quarries along the road. During the week a number of carriages have been seen going along the road, although it is not in the best of condition.

It is probable the road will soon be finished, but those who are in a position to talk will say nothing of the matter.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

Extinguished the Flames.

What might have proved a serious fire occurred at the residence of W. T. Hayes in High street opposite the school house Friday morning. One of the family struck a match, the head of which flew off and set fire to some lace curtains and some combustible articles on a dresser. The flames were extinguished with several buckets of water. The department was not called out.

Vote for Elijah W. Hill.

Instructed Delegates.

The motormen of the street car line will hold their regular meeting in their hall in Mulberry street next Saturday night. Aside from the routine business the delegate to the national convention of the Amalgamated Association of Street Railway Employees will be instructed. The convention will be held in Louisville next month.

He will make a good official. Vote for him. Who? J. E. McDonald, of course.

Those Who Are Ill.

There is no change in the condition of Mrs. William Irwin, and she continues very weak.

P. J. Raynolds, who has been suffering for a month with rheumatism, will be able to be out within a few days.

French F. Chaffin, who has been ill for several days with catarrhal fever, is improving rapidly.

Vote for Elijah W. Hill.

Doctor Lee Preached.

Dr. John Lloyd Lee, of the First Presbyterian church, addressed a large congregation in the Second Presbyterian church last evening. This was the last service of the week, and it was very interesting. There will be no more meetings of like character held in the church until next fall.

No man can truly say anything against J. E. McDonald. He is a good citizen and a bright business man.

Placing the Floor.

The work of placing a floor in the Pennsylvania avenue culvert will probably be completed Monday. The work was commenced Thursday, but as there was some grading to be done, the progress has necessarily been slow. The road over the culvert will be constructed at once.

Vote for Elijah W. Hill.

Will Begin Monday.

Monday work will be commenced constructing a new kiln at the East End pottery. Manager Owens stated yesterday afternoon the addition of a new kiln was needed badly, and it could not be finished any too soon as far as he was concerned.

Home pride says: "Vote for J. E. McDonald for Sheriff."

Come to Stay.

L. D. Mercer has moved his family and effects from Grant, W. Va., to the East End. During the week more families have moved to this part of the city than for a month.

Another House.

J. P. Rayl will next week commence the erection of a six room frame dwell-

ing in Pennsylvania avenue, Helana. The house is to be completed within two months.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

Work Resumed.

No work was done on the streets yesterday by the street force on account of the weather. This morning work was resumed as usual and much good was accomplished.

Vote for Elijah W. Hill.

Repaired Tracks.

Section Foreman Hickey yesterday afternoon repaired the tracks near the Mulberry street crossing. The improvement was badly needed.

East Liverpool should stand by her home candidate for Sheriff, J. E. McDonald, a friend of the masses, a worker for our city.

Children Ill.

Hazel and Gladys, children of Fireman Robert Finley, are ill at the home in St. George street.

Vote for Elijah W. Hill.

Real Estate Transfer.

Frank Hanley has sold his residence to a Mr. McGahey. Consideration \$1,800.

J. E. M'DONALD.

He has started big wheels of prosperity for the city of East Liverpool, and for this entire section, and he deserves the warm thanks of the workingmen of East Liverpool and vicinity, and the toilers ought to show their appreciation of this fact by casting their ballots for J. E. McDonald for Sheriff on Saturday, April 15.

BREAK UP THE GANG.

They Infest the Vicinity of Sixth and West Market.

Some enterprising policeman with a view to bringing himself into prominence, and at the same time doing his duty, should break up the gang that infests the vicinity of Sixth and West Market streets.

The gang is made up of half a dozen or more men who seldom if ever work. They spend the greater part of their time asking the people they know for enough money to buy a drink, and when they are refused their knowledge of profanity is very well displayed for they swear like pirates. Perhaps it would be a good plan to send the whole outfit to the works for a few weeks.

Vote for Elijah W. Hill.

NO ONE ANXIOUS

To Join the Pottery Trust All by Himself.

China, Glass and Lamps editorially refers to the dead pottery trust in this way:

"The regime of the individualist in the pottery business is to continue. Trade outlook has improved since last fall. There is money in staples, specialties and novelties. And, summing the whole thing up, nobody was particularly anxious to go into the trust anyhow, only no one wanted to play solo—all by himself, see?"

J. E. McDonald has been a resident of East Liverpool for 17 years. He has been working in the interest of East Liverpool and her citizens, and, backed by willing helpers, has brought great industries into our midst. Cast your ballot for him Saturday for Sheriff.

WARNER'S.

REASONS BOILED DOWN

Why Judge Nash Should Be Nominated For Governor.

BACKED BY HIS OWN COUNTY

Franklin's Delegates Ask Ohio Republicans to Join Them.

HIS BRILLIANT PARTY RECORD.

Throughout His Public Career George K. Nash Has Been Faithful and Upright and His Eminent Ability For Chief Executive Conceded by All.

Columbus, O., April 11, 1899.

To the Republicans of Ohio:

At a meeting of the delegates and their alternates, from Franklin county to the Republican state convention, it was unanimously resolved to issue an address to the Republicans of Ohio.

The object of this address is to set forth why we, who are the friends and neighbors of Judge George K. Nash, are earnestly and unitedly in favor of his nomination for governor, and to ask the Republicans of the state to unite with us in bringing about that very desirable result.

While Judge Nash, by reason of his active work for the party, on the stump and in the committee rooms, for more than 25 years, is well and favorably known personally, or by reputation, to all the Republicans of Ohio, it is fitting that we, who have known him intimately during these years, should call attention at this time, not only to these services, but also to his qualifications for the office, of which, by reason of our acquaintance with him, we may have fuller knowledge than others who have not been so favorably situated.

George K. Nash has been a resident of Columbus since 1865, and has always since that time been a prominent leader in the Republican party in Franklin county. His election to the office of prosecuting attorney of Franklin county in 1870, and his re-election in 1872, both due to his ability and popularity, were the beginning of the downfall of the Democratic party in this county.

From January, 1880, to April, 1883, he filled with signal ability the office of attorney general, and resigned that office upon being appointed by Governor Foster a member of the supreme court commission. This office he filled with great credit to himself and the state, until the expiration of the commission, in 1885. He has always been active in political work in municipal, county, state and national affairs. He was chairman of the state executive committee in the presidential campaign of 1880, and again in 1881, 1882 and 1897. When not acting as chairman, he has always been in close touch with the committees, his experience and ability rendering his services invaluable. Such have been his political services: always ready, always able to serve the Republican party; prepared to conduct a campaign or to assist in its prosecution, with ability to command, and loyalty to serve.

He has been honest, faithful and upright in all his dealings, commanding and receiving the affection of his friends and the respect of his enemies. His executive ability has been tested and proved.

His experience as the law officer of the state has made him familiar, not only with all its various departments, but with their needs and methods, and peculiarly fits him to administer them so that their purposes shall be faithfully carried out.

His acquaintance with public men in Ohio and elsewhere is very large, and his association with them has so familiarized him with public affairs as eminently to qualify him for the office of governor.

We know he will fill the office with honor and dignity, with credit to himself and to the state, and we present him to the Republican voters of Ohio, for their deliberate judgment and favorable consideration.

Respectfully submitted,

Delegates.

Jacob Sherman, F. McCafferty, Harry R. Jones, E. N. Higgins, Isaiah Smith, S. O. Griffin, John J. Pugh, Willis G. Bowland, Albert Rickenbacher, William Trautman, George Monnett, J. U. Barnhill, Henry A. Williams, George W. Sinks, F. F. D. Albery, Gilbert H. Stewart, James T. Augenbaugh, Karl T. Webber, Frank M. Squires, J. T. Lindsay, M. A. Bridge, W. T. TWO MEN WERE KILLED.

A Fatal Accident Near Willock Station, on the Baltimore and Ohio.

PITTSBURG, April 15.—Two men were instantly killed and a third was injured in an accident near Willock station, on the Wheeling division of the Baltimore and Ohio railroad, caused by the parting of a freight train. Thirteen cars broke loose and ran over two miles down a steep grade. The killed and injured are:

Barney Eckert, 23 years old, a coal trumper; killed.

William Cramer, 24 years old, a coal trumper; killed.

George Murphy, supposed to have been stealing a ride; right arm broken; was taken to the Mercy hospital.

Joe Gans Whipped.

NEW YORK, April 15.—Joe Gans, the veteran Baltimore lightweight went down before George McFadden in the twenty-third round of their fight at the New Broadway Athletic club. Gans was not completely knocked out, but fell from exhaustion and was unable to gain his feet after he dropped.

Negro Surrounded In a Swamp.

PALMETTO, Ga., April 15.—Armed men patrolled the streets of this little town. The men, who early in the day closed their places of business and joined the posse pursuing the negro, Sam Hose, who brutally murdered Farmer Alfred Crawford and assaulted his wife, took this precautionary measure for the protection of their families. The negro is surrounded in a swamp and cannot escape.

NATIONAL LEAGUE GAMES.

At Philadelphia—Philadelphia 6 runs, 9 hits and 4 errors. Washington 5 runs, 8 hits and 1 error. Batteries—Piatt and Cross; Killen and McGuire. Umpires—Hunt and Connolly. Attendance, 10,768.

At Louisville—Louisville 1 run, 8 hits and 7 errors; Chicago 15 runs, 16 hits and 0 errors. Batteries—Cunningham and Kittridge; Griffen and Donahue. Umpires—Burns and Warner. Attendance, 9,000.

Games Scheduled For Today.

Pittsburg at Cincinnati, Chicago at Louisville, Cleveland at St. Louis, New York at Baltimore, Boston at Brooklyn and Washington at Philadelphia.

Pleasant Dreams.

It does not lie in the painter's fancy to imagine a prettier picture than that of a young girl, with lips luscious with the promise of love, half parted in the smile of happy dreamland. The mind of happy maidenhood is a clear and polished mirror, which, when the wits go wandering into the ghostland of dreams, reflects the impressions of waking hours. If those impressions are pleasant and painless and happy, she will smile in her sleep. If the impressions are those of a suffering woman, tortured with the special ailments to which the feminine organism is liable, the picture is spoiled by the lines of suffering and despondency. Maladies of this nature unfit a woman for joyous maidenhood and for capable motherhood. They incapacitate her to bear the burdens of life in any sphere of action. Household, marital and social duties alike are a burden to the woman who is constantly suffering from headaches, backaches, dragging sensations and weakening drains. Dr. Pierce's Favorite Prescription positively, completely, unfailingly cures troubles of this nature. It imparts health, strength, vigor to the distinctly womanly organs. It fits for care-free, healthy maidenhood, happy wifehood and capable motherhood.

"I have a little step-daughter who had St. Vitus's Dance, which your medicine cured," writes Mrs. T. F. Boze, of Ford, Dinwiddie Co., Va. "I spent about twenty dollars for doctor's bills and medicine, and it did not do the child one cent's worth of good. We commenced giving Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' and used three bottles of each, which cost only six dollars. Now the child is running around every where and is just as healthy as ever."

YES OR NO.

East Liverpool People Are Respectfully Asked to Answer These Questions.

Is there anything in the evidence of one's senses?

Can the reader dispute and then disprove local evidence?

Can reliance be placed upon statements from people we know?

Are the opinions of residents of East Liverpool of any greater moment than opinions held by residents of Maine or Michigan?

Would you sooner believe people living in those states than those in your own city?

Answer these questions honestly after you have quietly read the following:

FOUND A BAD KNIFE

It is thought Ira Marlatt made it.

ONE PART USED AS A SAW

By which One Man Cut His Way to Freedom From the Ohio Penitentiary--What the Prison Demon Was Doing While Being Well Treated.

A murderous looking knife has been found well hidden away in the cellar at the penitentiary at Columbus, and it is thought to have been made and concealed by Ira Marlatt. But it is only a surmise. Ira was allowed the freedom of the cellar for quite a while, but he recently became threatening and was locked in his steel cage.

It seems the man who made the knife had raised a board of some framework surrounding some water pipes and placed it inside and out of view, but where it could be easily procured if any necessity for it should arise. The knife is a caseknife of the kind Marlatt used when at his meals before being locked in solitary. It has been sharpened to a razor keenness, and the end ground to a fine point. The blade for a part of the way was wrapped in cloth, so as to make a handle. The blade was broken, the handle being found in the cell occupied by Hurley, the part of the blade remaining being notched so as to make a saw, and it was with this saw that Hurley cut his way out of the cell in which he was in solitary. It is claimed that Marlatt broke the blade in two and gave part to Hurley for the purpose for which it was used.

J. E. McDonald is the true friend of the workingman and mechanic. Don't you believe anything to the contrary, no matter who makes the assertion. McDonald's record will stand the test of close investigation in this particular. Vote for him for Sheriff. He will do his duty, but will not persecute or needlessly oppress any man.

HOUSECLEANING

Will begin at Central Fire Station Next Week.

Arrangements are being made at Central station for the annual house-cleaning.

It will begin next week, and will be vigorously pushed until the place is as clean as the force can make it. All the woodwork will be gone over, and it is probable the walls of the sleeping apartment will be papered. The outside needs a coat of paint, but may not get it this year.

Vote for Elijah W. Hill.

THE DATE

Has been fixed for dedicating the Free Methodist Church.

The new chapel being erected on the Virginia side of the river by the Free Methodist church of this city, will probably be dedicated on Thursday, May 18. It is thought the building will be completed by that time. A special program is now being arranged for the occasion and a number of prominent church workers of that denomination have been asked to attend.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

Vote for Elijah W. Hill.

Court News.

LISBON, April 15.—[Special]—Thomas Dugan, administrator of the estate of Ellen Dugan, is authorized to sell a note and mortgage belonging to the estate at not less than its par value.

Joseph H. Keyser has sold to Newton Keyser a quit claim deed to one-fourth interest in 180 acres of land in Madison for \$747.45.

Vote for Elijah W. Hill.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

Silver Medal Contest.

It will be a charming entertainment, and you should be there. The musical part of the program will be a gem. At Young Men's Christian association hall on Tuesday, April 18, at 8 p.m. Admission, adults 25c, children 15c. Proceeds for a truly charitable purpose. Help a good cause.

Light color suits, late checks and stripes, are the stylish goods worn this season, made in the proper style. Joseph Bros' spring line now in.

EPWORTH LEAGUE.

Topic for the Week Beginning April 16, "The Eternal Morning and Modern Missions"—Text, Isa. ix. 1-12.

"Arise, shine; for thy light is come and the glory of the Lord is risen upon thee!"

Other ages have seen marvelous religious revivals and reformations, but no age has seen such vast changes wrought by a single religious system in such widely separated parts of the world and over such multitudes as has been effected by Christianity during this present century. Not to speak of the Old Testament revivals, which were national, the most strikingly aggressive religions have been Buddhism and Mohammedanism. The first may be called the Protestantism of the orient, as it was a reformation of Brahmanism and the previous heathen systems of the east, which had grown corrupt. Mohammedanism was a reform movement of vast importance and a wondrous advance upon the old material religions which it supplanted. At one time it threatened to overrun all Europe and divide the world with Buddhism. But neither of these systems has lifted any nation into advanced civilization and neither fulfills the requirement of a universal religion for all men.

The advance of Christianity for the first 300 years was marvelous. From obscurity and contempt it came to the seat of power in the Roman empire. Its conquest of the barbarians who overthrew the empire is one of the marvels of history. Most fascinating is the story of the conversion of the northern nations of Europe and the subsequent development of the Greek, the Roman and the Protestant churches.

The deepest interest, however, centers around the work of the church during the present century. This is the era of missionary societies, Bible and tract societies. Since this century began more Bibles have been made and distributed than in all previous ages.

To see clearly the advance of the gospel one should take the map as it was in 1800 and compare it with the world now. All the Pacific islands, Japan, Korea, China, India, Africa, South America, Mexico and the Indians of America have been reached with the Bible and pure religion, and whole nations lifted from vilest barbarism and heathenism into peaceful, progressive civilization and religious purity.

Surely the light has come. Earth sees her Redeemer as never before.

Arousing Interest.

Some years since a pastor of a New England city church announced a missionary meeting for Sunday evening on a new plan. He selected two laymen to speak on some phase of missions. One of those selected for this work was a young man who had never made an address before so large a company. His timidity and objections were overcome, and he selected "The Evangelization of the Sandwich Islands" as his theme.

The public library furnished several volumes which were read and noted and a short speech prepared covering the prominent points in the story of its missions. It was a simple incident and probably passed from the mind of the pastor soon after. Its effect on the young man was permanent. His interest was aroused. He was led from business into the ministry, and the mission fields of the church became matter of special study. Personal acquaintance with leading missionaries in each mission field has led to the collection of photographs, which in the form of slides for the stereopticon are widely in use among the Leagues to illustrate the work of our church among the heathen. Set the young people at work searching and talking, and they will acquire an interest which will last life long.

Power of the Word.

Some fifteen hundred years since at Milan, Italy, there was a noted teacher of rhetoric who had never become a Christian, but held to the belief of the Manicheans. His mother, a devout Christian, had never ceased to pray for his conversion. Ambrose, the eloquent bishop, was interested in the young man. But all arguments had failed to convince him and all persuasion failed to move him. One day a copy of the epistle of Paul to the Romans came under his notice and the passage "Put ye on the Lord Jesus Christ and make not provision for the flesh to fulfill the lusts thereof" caught his eye and arrested his attention. He could not get away from it. It fastened conviction until he saw the truth and decided to become a follower of Jesus the Christ. He became known as Augustine and was made bishop of Hippo in Africa. Few men have been more influential in shaping the course of thought in the Christian church than he. Still the word proves itself powerful to convince and to convert, and demonstrates that it is the word of God.

The class meeting is not dead or dying. Spiritual culture will ever need expression and will seek companionship. The confessional is not adapted to an advanced condition of piety. Social communion and friendly interchange of thought are a necessity. In some form the class meeting must live wherever vital piety is not extinct. The devotional meetings of the League can do much to perpetuate this helpful means of grace. Personal testimony is a great help to a live Christian.

STARR BACK FROM MEXICO.

University Professor Brings Home Data of Strange Tribes.

Professor Frederick Starr, anthropologist of the University of Chicago, returned recently from a three months' sojourn in Mexico, where he has been studying the Indian tribes about which hitherto little had been known. Professor Starr spends each winter among the Indians of Mexico, living with them in their villages and making studies of them, their languages and mode of living.

His research this trip was confined to the state of Oaxaca, in the extreme south of the republic. Oaxaca is made up of nine tribes of Indians, each of which speaks a separate language and which differ in manners and customs. The tribes visited are the Mixteco, Triqui, Mixes, Zapotecos, Chontales, Juaves, Tehuantepecanos, Cuicatecos and the Chinantecos. In each of the tribes Professor Starr took measurements of 125 women. Plaster busts were made of five members of each tribe, and a number of photographs were also taken. Professor Starr said the other day:

"Since leaving Chicago last December I have traveled about 1,000 miles on horseback among the Indian tribes of Oaxaca. They are an interesting people, and comparatively little has been known of them. All of the nine tribes are agriculturists, with the exception of the Juaves, who devote all their attention to fishing. The most interesting of the tribes I found to be the Triqui, Juaves and the Mixes. The latter have been cannibals for centuries back, until about 35 or 40 years ago. In the low altitudes the people live mostly in cane houses, but higher up, where it is colder, they build quite respectable log houses. The Indians have their towns, each of which is practically a separate republic. Each town pays taxes to the Mexican republic, but that is about as far as its obligation goes. The most highly civilized of the tribes is the Zapotecos and the least probably the Mixes."—Chicago Record.

TO SEA IN A COCKLESHELL.

Miss Shane to Cross the Atlantic in a Small Boat.

Miss Belle Shane, a young woman of about 22, a resident of Morristown, Pa., and now a visitor in Atlantic City, declared her intention of accompanying Captain Andrews on his next voyage across the Atlantic to the Paris exposition.

Miss Shane read in the papers a few days ago that Captain Andrews was to make his seventh and last voyage in a

FILIPINO SHARPSHOOTER AT WORK.
From a photograph.

17 foot aluminium, canvas covered cockleshell. She sought out the captain and proposed that if he would enlarge his boat to such a size as to give her suitable accommodations she would bear the expense of building the boat. Miss Shane declared recently that she had arranged with Captain Andrews to sail with him on June 17 from Atlantic City. She said it was her ambition to be the first woman to cross the Atlantic in a small boat.

Captain Andrews, who first contemplated the building of a boat 17 feet long, has resolved to lengthen it to 20 feet and give it more beam and depth of hold. The captain says he is willing that Miss Shane shall be a passenger and that she has agreed to pay the expenses of the trip. Miss Shane came to Atlantic City about the 1st of March to spend the Lenten season. She will go to her home in Pennsylvania soon and will return about the middle of May.—New York Journal.

ONE PART USED AS A SAW

By which One Man Cut His Way to Freedom From the Ohio Penitentiary--What the Prison Demon Was Doing While Being Well Treated.

A murderous looking knife has been found well hidden away in the cellar at the penitentiary at Columbus, and it is thought to have been made and concealed by Ira Marlatt. But it is only a surmise. Ira was allowed the freedom of the cellar for quite a while, but he recently became threatening and was locked in his steel cage.

It seems the man who made the knife had raised a board of some framework surrounding some water pipes and placed it inside and out of view, but where it could be easily procured if any necessity for it should arise. The knife is a caseknife of the kind Marlatt used when at his meals before being locked in solitary. It has been sharpened to a razor keenness, and the end ground to a fine point. The blade for a part of the way was wrapped in cloth, so as to make a handle. The blade was broken, the handle being found in the cell occupied by Hurley, the part of the blade remaining being notched so as to make a saw, and it was with this saw that Hurley cut his way out of the cell in which he was in solitary. It is claimed that Marlatt broke the blade in two and gave part to Hurley for the purpose for which it was used.

J. E. McDonald is the true friend of the workingman and mechanic. Don't you believe anything to the contrary, no matter who makes the assertion. McDonald's record will stand the test of close investigation in this particular. Vote for him for Sheriff. He will do his duty, but will not persecute or needlessly oppress any man.

HOUSECLEANING

Will Begin at Central Fire Station Next Week.

Arrangements are being made at Central station for the annual house-cleaning.

It will begin next week, and will be vigorously pushed until the place is as clean as the force can make it. All the woodwork will be gone over, and it is probable the walls of the sleeping apartment will be papered. The outside needs a coat of paint, but may not get it this year.

Vote for Elijah W. Hill.

THE DATE

Has Been Fixed For Dedicating the Free Methodist Church.

The new chapel being erected on the Virginia side of the river by the Free Methodist church of this city, will probably be dedicated on Thursday, May 18. It is thought the building will be completed by that time. A special program is now being arranged for the occasion and a number of prominent church workers of that denomination have been asked to attend.

EPWORTH LEAGUE.

Topic For the Week Beginning April 16, "The Eternal Morning and Modern Missions"—Text, Isa. ix. 1-12.

"Arise, shine; for thy light is come and the glory of the Lord is risen upon thee!"

Other ages have seen marvelous religious revivals and reformations, but no age has seen such vast changes wrought by a single religious system in such widely separated parts of the world and over such multitudes as has been effected by Christianity during this present century. Not to speak of the Old Testament revivals, which were national, the most strikingly aggressive religions have been Buddhism and Mohammedanism. The first may be called the Protestantism of the orient, as it was a reformation of Brahmanism and the previous heathen systems of the east, which had grown corrupt. Mohammedanism was a reform movement of vast importance and a wondrous advance upon the old material religions which it supplanted. At one time it threatened to overrun all Europe and divide the world with Buddhism. But neither of these systems has lifted any nation into advanced civilization and neither fulfills the requirement of a universal religion for all men.

The advance of Christianity for the first 300 years was marvelous. From obscurity and contempt it came to the seat of power in the Roman empire. Its conquest of the barbarians who overthrew the empire is one of the marvels of history. Most fascinating is the story of the conversion of the northern nations of Europe and the subsequent development of the Greek, the Roman and the Protestant churches.

The deepest interest, however, centers around the work of the church during the present century. This is the era of missionary societies, Bible and tract societies. Since this century began more Bibles have been made and distributed than in all previous ages.

To see clearly the advance of the gospel one should take the map as it was in 1800 and compare it with the world now. All the Pacific islands, Japan, Korea, China, India, Africa, South America, Mexico and the Indians of America have been reached with the Bible and pure religion, and whole nations lifted from vilest barbarism and heathenism into peaceful, progressive civilization and religious purity.

Surely the light has come. Earth sees her Redeemer as never before.

Arousing Interest.

Some years since a pastor of a New England city church announced a missionary meeting for Sunday evening on a new plan. He selected two laymen to speak on some phase of missions. One of those selected for this work was a young man who had never made an address before so large a company. His timidity and objections were overcome, and he selected "The Evangelization of the Sandwich Islands" as his theme. The public library furnished several volumes which were read and noted and a short speech prepared covering the prominent points in the story of its missions. It was a simple incident and probably passed from the mind of the pastor soon after. Its effect on the young man was permanent. His interest was aroused. He was led from business into the ministry, and the mission fields of the church became matter of special study. Personal acquaintance with leading missionaries in each mission field has led to the collection of photographs, which in the form of slides for the stereopticon are widely in use among the Leagues to illustrate the work of our church among the heathen. Set the young people at work searching and talking, and they will acquire an interest which will last life long.

Power of the Word.

Some fifteen hundred years since at Milan, Italy, there was a noted teacher of rhetoric who had never become a Christian, but held to the belief of the Manicheans. His mother, a devout Christian, had never ceased to pray for his conversion. Ambrose, the eloquent bishop, was interested in the young man. But all arguments had failed to convince him and all persuasion failed to move him. One day a copy of the epistle of Paul to the Romans came under his notice and the passage "Put ye on the Lord Jesus Christ and make not provision for the flesh to fulfill the lusts thereof" caught his eye and arrested his attention. He could not get away from it. It fastened conviction until he saw the truth and decided to become a follower of Jesus the Christ. He became known as Augustine and was made bishop of Hippo in Africa. Few men have been more influential in shaping the course of thought in the Christian church than he. Still the word proves itself powerful to convince and to convert, and demonstrates that it is the word of God.

The class meeting is not dead or dying. Spiritual culture will ever need expression and will seek companionship. The confessional is not adapted to an advanced condition of piety. Social communion and friendly interchange of thought are a necessity. In some form the class meeting must live wherever vital piety is not extinct. The devotional meetings of the League can do much to perpetuate this helpful means of grace. Personal testimony is a great help to a live Christian.

Miss Belle Shane, a young woman of about 22, a resident of Morristown, Pa., and now a visitor in Atlantic City, declared her intention of accompanying Captain Andrews on his next voyage across the Atlantic to the Paris exposition.

Miss Shane read in the papers a few days ago that Captain Andrews was to make his seventh and last voyage in a

STARR BACK FROM MEXICO.

University Professor Brings Home Data of Strange Tribes.

Professor Frederick Starr, anthropologist of the University of Chicago, returned recently from a three months' sojourn in Mexico, where he has been studying the Indian tribes about which hitherto little had been known. Professor Starr spends each winter among the Indians of Mexico, living with them in their villages and making studies of them, their languages and mode of living.

His research this trip was confined to the state of Oaxaca, in the extreme south of the republic. Oaxaca is made up of nine tribes of Indians, each of which speaks a separate language and which differ in manners and customs. The tribes visited are the Mixteco, Triqui, Mixes, Zapotecos, Chontales, Juaves, Tehuantepecanos, Cuicatecos and the Chinantecos. In each of the tribes Professor Starr took measurements of 125 women. Plaster busts were made of five members of each tribe, and a number of photographs were also taken. Professor Starr said the other day:

"Since leaving Chicago last December I have traveled about 1,000 miles on horseback among the Indian tribes of Oaxaca. They are an interesting people, and comparatively little has been known of them. All of the nine tribes are agriculturists, with the exception of the Juaves, who devote all their attention to fishing. The most interesting of the tribes I found to be the Triqui, Juaves and the Mixes. The latter have been cannibals for centuries back, until about 35 or 40 years ago. In the low altitudes the people live mostly in cane houses, but higher up, where it is colder, they build quite respectable log houses. The Indians have their towns, each of which is practically a separate republic. Each town pays taxes to the Mexican republic, but that is about as far as its obligation goes. The most highly civilized of the tribes is the Zapotecos and the least probably the Mixes."—Chicago Record.

TO SEA IN A COCKLESHELL.

Miss Shane to Cross the Atlantic in a Small Boat.

Miss Belle Shane, a young woman of about 22, a resident of Morristown, Pa., and now a visitor in Atlantic City, declared her intention of accompanying Captain Andrews on his next voyage across the Atlantic to the Paris exposition.

Miss Shane read in the papers a few days ago that Captain Andrews was to

[From a photograph.]

17 foot aluminium, canvas covered cockleshell. She sought out the captain and proposed that if he would enlarge his boat to such a size as to give her suitable accommodations she would bear the expense of building the boat. Miss Shane declared recently that she had arranged with Captain Andrews to sail with him on June 17 from Atlantic City. She said it was her ambition to be the first woman to cross the Atlantic in a small boat.

Captain Andrews, who first contemplated the building of a boat 17 feet long, has resolved to lengthen it to 20 feet and give it more beam and depth of hold. The captain says he is willing Miss Shane shall be a passenger and that she has agreed to pay the expenses of the trip. Miss Shane came to Atlantic City about the 1st of March to spend the Lenten season. She will go to her home in Pennsylvania soon and will return about the middle of May.—New York Journal.

See the election returns at the News Review tonight.

AND now comes one Congressman Norton to say that he knows nothing about Jim Campbell being nominated by the Democrats for governor, but then Norton has made mistakes before.

ENCOURAGING.

Doctor Schurmann, president of the commission now at Manila, has sent the cheering news to President McKinley that many natives are tiring of the iron rule of Aguinaldo and are anxious to come under the protection of the United States. This condition was to be expected. There are a great many people in the Philippines, more than seven millions, and less than 50,000 are enrolled in the insurgent army. The remainder may for a time sympathize with the cause of Aguinaldo, but when they see the steady advance of American soldiery and the changed conditions following American occupation they will do as other nations have done in similar circumstances. It is rather soon to expect a change of sentiment in the Philippines, but Doctor Schurmann is certainly in position to know the truth. His statement is important because it breaks down the repeated theories of anti-expansionists. Then he is in Manila while they are many thousands of miles away.

BE PROUD OF YOUR CITY.

You have a right to be proud of East Liverpool. She is pushing to the front. Her citizens are hustlers, hailing from Hustleville. "Push, progress and power" are our watchwords in this Ceramic City. We want the best goods in the box or on the counter. We want good, faithful, intelligent and reliable officials. What's more, we intend to secure them. The dead wood and knotty excrescences are to be removed. The handwriting is on the wall, and the rascals are trembling in their No 9's. "Turn them out," is the order. The fiat has gone forth. We have HOME CANDIDATES ON THE LIST FOR COUNTY POSITIONS. All things being equal, OUR HOME CANDIDATES should have the preference. No loyal citizen will dispute this. If our citizens desire to push the city to the front, let it be known that we are loyal and true to true men. Mark the men who work and vote against clean home candidates and in favor of strangers who are not the equal, from any standpoint, of our own local candidates. Be merciful to the stranger; but be loyal to your own household. Remember that the polls open at 2 and close at 8 o'clock, city time.

WARNER'S.

THE SEBRING PLAN

Six Kiln Pottery and a Town to Be Built.

NINE HUNDRED ACRES OF LAND

Have Been Purchased Forming a Beautiful Tract, Level as a Floor, and One Mile Wide by One and One-half Miles Long. It Will Be Transformed Into a Model City Where No Man Can Build a House Except Under Certain Conditions, and Where Factories Will Be Far Removed From Residences--A Magnificent Project.

Out along the Fort Wayne railway, five miles from Alliance, seven miles from Salem and near the little village of Beloit, just over the line in Mahoning county, there lies one of the most beautiful sections of farming land in Ohio. It is high above the level of the sea, and dips only enough to permit of excellent natural drainage, while the country is such that gently rolling meadows stretch as far as the eye can see. It is here the Sebring Pottery company, of this city, will erect a pottery and build a city that will in time become known the land over as a model place of residence. When the plans already formed are carried out it will be a busy town and beautiful.

When the News REVIEW announced last Thursday that Liverpool parties were negotiating for an immense tract of land near Beloit it was generally understood that the Sebring company had a mammoth project on hand, but the details of the matter were not given out until this morning when F. A. Sebring, president of the company, talked to a representative of the News REVIEW.

"This matter has been under consideration for some time," said Mr. Sebring, but it was not until last night that some things having a bearing upon the successful consummation of the project were closed. Now the preliminaries are complete, and it is only a question of time until the real work is accomplished.

"We have purchased 900 acres of land five miles from Alliance and seven from Salem. The tract is 1½ miles long by a mile wide, and through the center of it passes the Fort Wayne railroad. The land forms one of the highest points in Ohio, and is level, there being just sufficient slope to give it good drainage. Mt. Union college is in sight from any part of it, and the view on every side is practically unobstructed. Abstracts of the titles of the various farms are now being made, and as they are turned in the purchase price is paid. In a short time all this will be closed.

"We are not making this project a great land scheme or anything on that line, but we expect to have a splendid town there within a reasonable time. Our company will erect a six kiln pottery at once, and it will, in all probability, be in operation next September. White and decorated ware will be manufactured, but that is not all of the project. Our employees must have places to live, and since 120 houses will be required we will have them put up as soon as possible.

"The town will be a model one in every respect. On each side of the railroad, and gently sloping to it will be a park 80 feet wide the entire length of the town. One side will be reserved for factories, of which a number will be built soon, while the other side will be for residence purposes.

Each lot will be 50x150 feet, and the deed for each will specify that the purchasers must not erect on it a building to cost less than \$800; it must be no nearer the street than 20 feet, and only one house can be built on a lot. The streets will be wide, and no time will be lost in paving that which is sure to be the business section. A complete water works system and electric light plant are among the plans for the immediate future. We do not want to own the town, but we want to make it a model every way, and will dictate the provisions under which land can be purchased.

The tract will not be platted into lots and sold with a great hurrah, but at present only such lots as will be needed for the dwellings for our employees will be laid out.

"Officials of the Pennsylvania company are aware of our plans, and arrangements have been made for the erection of a handsome passenger station. It will be 27x70 feet, and contain all modern improvements. The company will also provide ample switches for factories.

"The consummation of all the plans that have been prepared will not be delayed. It is our purpose to push the

THE OLD BOYCE ORCHARD

On the Boyce farm, just between East End and the river, is a beautiful old orchard that has become familiar to almost every resident of the town.

For years it has been regarded as the future residence portion of East Liverpool by reason of its excellent and convenient location.

It has now been platted, and on

TUESDAY, APRIL 18TH,

the lots will be for sale. The advantage of first choice is to the first buyers. A real estate man will be at your service to show you the lots and quote prices if you will telephone number 8.

THE PURITAN LAND COMPANY.

matter, and have our part of it done as soon as possible. The next year will show a wonderful change in that section of country, and in years to come we hope it will be a model city in every detail."

The project is certainly one of magnificent proportions and there is no reason to believe that any part of it will not be carried out to the letter. The land owned by the Sebring company can support a large population, and when the people are gathered there by potteries, iron mills and other industries they will reside in a community that will have few if any equals in America. The only regret is found in the fact that the new town will not be in Columbian county.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

Vote for Elijah W. Hill.

THE NEW BOARD

Will Hold Its First Session Next Monday Evening.

The old board of education will pass out of existence next Monday evening, and Rev. Dr. Taggart, Walter B. Hill and J. H. Smith, the members chosen at the last election, will take their seats. The most important business of the old board will be the payment of bills amounting to about \$500.

There has been no caucus for the purpose of arranging the offices, and a leading member said today that he did not know one would be held. The opinion is expressed that President Vodrey will be chosen for another year and Clerk Norris will fill his position again as no opposition has developed against either.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

Vote for Elijah W. Hill.

HEAVY ICE

Caused a Big Crack in the Upper Reservoir.

During the extreme cold weather last winter the heavy ice in the upper reservoir caused a crack in the reservoir about three feet from the top, and since that time the reservoir has never been filled.

The work of repairing the reservoir has now been commenced, and when it is completed the reservoir will be filled once more.

Vote for Elijah W. Hill.

Another Accident.

Last evening as a young lady was riding a bicycle around the corner of the Diamond and Sixth street she collided with a buggy. The front wheel of the bicycle struck a rear wheel of the buggy, throwing the rider to the ground. The bicycle was damaged slightly, but the rider escaped injury.

JOSEPH BROS.'

Lost Their Dog.

Fanny, the small dog at the Central fire station, strayed from the place yesterday morning. It was returned to the station late in the evening by a young boy who found it in the lower part of the city.

Vote for Elijah W. Hill.

POTTERS DO NOT AGREE

They Have Different Ideas Regarding Prices.

COMMITTEE MAY NOT REPORT

No Meeting of the Exchange Has Been Called and None Is In Sight--No One Knows Whether That Local Combination Will Ever be Effectuated.

The plan to form a combination of western potters for the purpose of maintaining prices seems to have struck a snag at the start, and even the most faithful friends of the project are now saying it may never amount to anything more than the discussions that have marked what little progress it has made to this time.

"The committee appointed at a meeting held several weeks ago has never reported," said a prominent manufacturer today. "At the next meeting the committee made the statement that some progress had been made, but that was all. It did not go farther into the matter, and may never make a report. There are a great many opinions on the matter of prices, and I doubt very much whether they can be cut down and built up so that all can be on the same level. These opinions will likely be the death of the proposition very soon, and nothing more will be heard of it, at least for the present. There may be some other plane upon which the western potters can meet, but if there is I don't know of it."

Vote for Elijah W. Hill.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

TWO WRECKS

Caused the Cleveland and Pittsburgh Much Trouble.

Two wrecks occurred yesterday on the Cleveland and Pittsburgh road between Salineville and Alliance which caused the company considerable loss. The first wreck occurred in the morning one mile east of Salineville when a derailed car caused several others to be wrecked. It required several hours to clear the main track.

The second wreck occurred shortly after midnight near Moultrie, a small station 10 miles east of Alliance. Three cars were wrecked. The train due in this city at 5:01 went over the Ft. Wayne road, while the train due at 1:30 this morning did not reach Cleveland until noon today.

Vote for Elijah W. Hill.

Returned Home.

Hon. David Boyce and Bernard Rand returned this morning from California, where they have spent several months. The many friends of the gentlemen in the city will be pleased to learn that they were both greatly benefited in health by the trip.

FOR SALE--A lot 30x130 and a five-roomed house, in Fifth street. Price \$2,300. Apply to T. P. Hanlon, 315 Lincoln avenue.

FOR SALE--A \$45 baby carriage, almost as good as new; plate glass mirrors in sides. Apply to Charles Craft at T. B. Murphy & Sons, Fifth street.

UNITED PRESBYTERIAN MUTUAL BENEFIT ASSOCIATION

Has had only 10 deaths and nine assessments in 23 months past. Membership now near 2,000.

Important to United Presbyterians Only!

In order to increase our membership in Local Branch No. 29 to one hundred by June 6, the date of our regular semi-annual meeting, I will make the following liberal proposition to new members who insure with us before that date, viz.: For the sum of \$10, I will pay total cost of securing membership, covering membership fee, medical examination, per capita tax to July 1 and all assessments for deaths for sixty days from date of application. This covers cost of one or two thousand dollars insurance for two months. The cost for \$1,000 insurance for 1898 was \$9.50, for \$2,000 \$15.50, including \$5 per year per capita expense tax. The balance was for mortuary assessments, all of which we return to the beneficiary at death, added to the face of the policy. Males and females from 18 to 51st birthday are eligible. Those from 46th to 51st birthday can only take \$1,000 insurance. Members who lose a limb or eyes can draw from one-fourth to one-half their insurance in cash for their own use. When a member reaches 70 they can draw their insurance to live on if they so elect. We want 40 new members on this offer. It is to the interest of every member to try to get others. Let us all work for the 100 mark. Drop me a card, and I will call and explain more fully and answer to your satisfaction, which is rapidly forcing us to the front. Yours, J. C. McCALM, Organizer, 126 Greasley street, East Liverpool, Ohio.

THE SEBRING PLAN

Six Kiln Pottery and a Town to Be Built.

NINE HUNDRED ACRES OF LAND

Have Been Purchased Forming a Beautiful Tract, Level as a Floor, and One Mile Wide by One and One-half Miles Long. It Will Be Transformed Into a Model City Where No Man Can Build a House Except Under Certain Conditions, and Where Factories Will Be Far Removed From Residences--A Magnificent Project.

Out along the Fort Wayne railway, five miles from Alliance, seven miles from Salem and near the little village of Beloit, just over the line in Mahoning county, there lies one of the most beautiful sections of farming land in Ohio. It is high above the level of the sea, and dips only enough to permit of excellent natural drainage, while the country is such that gently rolling meadows stretch as far as the eye can see. It is here the Sebring Pottery company, of this city, will erect a pottery and build a city that will in time become known the land over as a model place of residence. When the plans already formed are carried out it will be a busy town and beautiful.

When the News REVIEW announced last Thursday that Liverpool parties were negotiating for an immense tract of land near Beloit it was generally understood that the Sebring company had a mammoth project on hand, but the details of the matter were not given out until this morning when F. A. Sebring, president of the company, talked to a representative of the News REVIEW.

"This matter has been under consideration for some time," said Mr. Sebring, but it was not until last night that some things having a bearing upon the successful consummation of the project were closed. Now the preliminaries are complete, and it is only a question of time until the real work is accomplished.

"We have purchased 900 acres of land five miles from Alliance and seven from Salem. The tract is 1½ miles long by a mile wide, and through the center of it passes the Fort Wayne railroad. The land forms one of the highest points in Ohio, and is level, there being just sufficient slope to give it good drainage. Mt. Union college is in sight from any part of it, and the view on every side is practically unobstructed. Abstracts of the titles of the various farms are now being made, and as they are turned in the purchase price is paid. In a short time all this will be closed.

"We are not making this project a great land scheme or anything on that line, but we expect to have a splendid town there within a reasonable time. Our company will erect a six kiln pottery at once, and it will, in all probability, be in operation next September. White and decorated ware will be manufactured, but that is not all of the project. Our employees must have places to live, and since 120 houses will be required we will have them put up as soon as possible.

"The town will be a model one in every respect. On each side of the railroad, and gently sloping to it will be a park 80 feet wide the entire length of the town. One side will be reserved for factories, of which a number will be built soon, while the other side will be for residence purposes. Each lot will be 50x150 feet, and the deed for each will specify that the purchasers must not erect on it a building to cost less than \$800; it must be no nearer the street than 20 feet, and only one house can be built on a lot. The streets will be wide, and no time will be lost in paving that which is sure to be the business section. A complete water works system and electric light plant are among the plans for the immediate future. We do not want to own the town, but we want to make it a model every way, and will dictate the provisions under which land can be purchased. The tract will not be platted into lots and sold with a great hurrah, but at present only such lots as will be needed for the dwellings for our employees will be laid out.

"Officials of the Pennsylvania company are aware of our plans, and arrangements have been made for the erection of a handsome passenger station. It will be 27x70 feet, and contain all modern improvements. The company will also provide ample switches for factories.

"The consummation of all the plans that have been prepared will not be delayed. It is our purpose to push the

THE OLD BOYCE ORCHARD

On the Boyce farm, just between East End and the river, is a beautiful old orchard that has become familiar to almost every resident of the town.

For years it has been regarded as the future residence portion of East Liverpool by reason of its excellent and convenient location.

It has now been platted, and on

TUESDAY, APRIL 18TH,

the lots will be for sale. The advantage of first choice is to the first buyers. A real estate man will be at your service to show you the lots and quote prices if you will telephone number 8.

THE PURITAN LAND COMPANY.

POTTERS DO NOT AGREE

They Have Different Ideas Regarding Prices.

COMMITTEE MAY NOT REPORT

No Meeting of the Exchange Has Been Called and None Is In Sight--No One Knows Whether That Local Combination Will Ever be Effectuated.

The plan to form a combination of western potteries for the purpose of maintaining prices seems to have struck a snag at the start, and even the most faithful friends of the project are now saying it may never amount to anything more than the discussions that have marked what little progress it has made to this time.

"The committee appointed at a meeting held several weeks ago has never reported," said a prominent manufacturer today. "At the next meeting the committee made the statement that some progress had been made, but that was all. It did not go farther into the matter, and may never make a report. There are a great many opinions on the matter of prices, and I doubt very much whether they can be cut down and built up so that all can be on the same level. These opinions will likely be the death of the proposition very soon, and nothing more will be heard of it, at least for the present. There may be some other plane upon which the western potters can meet, but if there is I don't know of it."

Vote for Elijah W. Hill.

THE NEW BOARD

Will Hold Its First Session Next Monday Evening.

The old board of education will pass out of existence next Monday evening, and Rev. Dr. Taggart, Walter B. Hill and J. H. Smith, the members chosen at the last election, will take their seats. The most important business of the old board will be the payment of bills amounting to about \$500.

There has been no caucus for the purpose of arranging the offices, and a leading member said today that he did not know one would be held. The opinion is expressed that President Vodrey will be chosen for another year and Clerk Norris will fill his position again as no opposition has developed against either.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

Vote for Elijah W. Hill.

HEAVY ICE

Caused a Big Crack in the Upper Reservoir.

During the extreme cold weather last winter the heavy ice in the upper reservoir caused a crack in the reservoir about three feet from the top, and since that time the reservoir has never been filled.

The work of repairing the reservoir has now been commenced, and when it is completed the reservoir will be filled once more.

Vote for Elijah W. Hill.

ANOTHER ACCIDENT.

Last evening as a young lady was riding a bicycle around the corner of the Diamond and Sixth street she collided with a buggy. The front wheel of the bicycle struck a rear wheel of the buggy, throwing the rider to the ground. The bicycle was damaged slightly, but the rider escaped injury.

Sweet, Orr & Co. tug of war trousers, price \$1.50, for sale at

JOSEPH BROS.'

LOST THEIR DOG.

Fanny, the small dog at the Central fire station, strayed from the place yesterday morning. It was returned to the station late in the evening by a young boy who found it in the lower part of the city.

Vote for Elijah W. Hill.

J. E. McDonald will not indulge in dirty flings against his opponent, nor will he allow his friends to do so. Jim McDonald is a manly man. He's the kind of a man who gets my vote, and he ought to get the vote of every Republican of East Liverpool on next Saturday. He'll make a good Sheriff.

A DEAD HOG.

Early this morning a dead hog was found lodged against the coal float owned by Frank Pilgrim at the Broadway wharf. It was an unusually large one, and looked as if it had not been in the water very long.

Boys' suits, 2 years to 16. Joseph Bros. are showing the correct thing for the boy's wearing apparel for the coming spring.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

FOR RENT.

FOR RENT--Two six-roomed houses in the East End. Apply to R. B. Watson, Sixth street.

FOR RENT--Furnished room, without board; gentleman preferred. Inquire 290 Fourth street.

FOR SALE.

FOR SALE--A lot 30x130 and a five-roomed house, in Fifth street. Price \$2,500. Apply to T. P. Hanlon, 315 Lincoln avenue.

FOR SALE--A \$45 baby carriage, almost as good as new; plate glass mirrors in sides. Apply to Charles Craft at T. B. Murphy & Sons, Fifth street.

UNITED PRESBYTERIAN MUTUAL BENEFIT ASSOCIATION

Has had only 10 deaths and nine assessments in 23 months past. Membership now near 2,000.

Important to United Presbyterians Only!

In order to increase our membership in Local Branch No. 29 to one hundred by June 6, the date of our regular semi-annual meeting, I will make the following liberal proposition to new members who insure with us before that date, viz.: For the sum of \$6, I will pay total cost of securing membership, covering membership fee, medical examination, per capita tax to July 1 and all assessments for deaths for sixty days from date of application. This covers cost of one or two thousand dollars insurance for two months. The cost for \$1,000 insurance for 1896 was \$5.50, or \$2,000 \$15.50, including \$1 per year per capita expense tax. The balance was for mortuary assessments, all of which we return to the beneficiary at death, added to the face of the policy. Males and females from 18 to their 51st birthday are eligible. Those from 46th to 51st birthday can only take \$1,000 insurance. Members who lose a limb or eyes can draw from one-fourth to one-half their insurance in cash for their own use. When a member reaches 70 they can draw their insurance to live off if they so elect. We want 40 new members on this offer. It is to the interest of every member to try to get others. Let us all work for the 100 mark. Drop me a card, and I will call and explain more fully and answer to your satisfaction, any questions regarding our association, which is rapidly forging to the front. Yours,

J. C. McCALIN, Organizer.

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns

See the election returns at the News Review tonight.

AND now comes one Congressman Norton to say that he knows nothing about Jim Campbell being nominated by the Democrats for governor, but then Norton has made mistakes before.

ENCOURAGING.

Doctor Schurmann, president of the commission now at Manila, has sent the cheering news to President McKinley that many natives are tiring of the iron rule of Aguinaldo and are anxious to come under the protection of the United States. This condition was to be expected. There are a great many people in the Philippines, more than seven millions, and less than 50,000 are enrolled in the insurgent army. The remainder may for a time sympathize with the cause of Aguinaldo, but when they see the steady advance of American soldiery and the changed conditions following American occupation they will do as other nations have done in similar circumstances. It is rather soon to expect a change of sentiment in the Philippines, but Doctor Schurmann is certainly in position to know the truth. His statement is important because it breaks down the repeated theories of anti-expansionists. Then he is in Manila while they are many thousands of miles away.

BE PROUD OF YOUR CITY.

You have a right to be proud of East Liverpool. She is pushing to the front. Her citizens are hustlers, hailing from Hustleville. "Push, progress and power" are our watchwords in this Ceramic City. We want the best goods in the box or on the counter. We want good, faithful, intelligent and reliable officials. What's more, we intend to secure them. The dead wood and knotty excrescences are to be removed. The handwriting is on the wall, and the rascals are trembling in their No 9's. "Turn them out," is the order. The fiat has gone forth. WE HAVE HOME CANDIDATES ON THE LIST FOR COUNTY POSITIONS. All things being equal, OUR HOME CANDIDATES should have the preference. No loyal citizen will dispute this. If our citizens desire to push the city to the front, let it be known that we are loyal and true to true men. Mark the men who work and vote against clean home candidates and in favor of strangers who are not the equal, from any standpoint, of our own local candidates. Be merciful to the stranger; but be loyal to your own household. Remember that the polls open at 2 and close at 8 o'clock, city time.

CAN BUILD A RESERVOIR

If the City Will Take Care of Interest on Bonds
FOR A PERIOD OF TWO YEARS

The Finances of the Water Department Are in Such Condition as to Enable the Officials to Improve the Service if Council Will Lend a Little Aid.

The water works department will use every available means in their power this year to secure additional water facilities for the city.

In the last report a statement was made that if the city council would pay the interest on the water works bonds the trustees would build and pay for a new reservoir out of the funds at their command. The interest amounts to about \$7,000, and would give them sufficient money to make the needed improvements.

Should the plan meet with the favor of council the trustees will build a six million gallon reservoir, giving them a capacity of eight and a half million gallons a day on the low pressure service. This would permit of a reserve reservoir, and the water would be permitted to settle before going into the mains, and the citizens could have clear water for use at all times. It would do away with the necessity of working the pumps day and night, and during the high water or when the wickets at the dams were opened the pumps could be shut down for two days if necessary.

The trustees are very anxious that council assist them in the way asked, and the effort for a better water-supply has the hearty endorsement of all citizens.

It is thought they will take favorable action upon it, but the result will not be known for several weeks. Attorney John M. Elliott, of Lisbon, who presented the petition, returned home today.

John McPherson Dead.

John McPherson died last night at his home in the Scotch Settlement. Deceased was over 90 years of age and was well and favorably known here. The funeral will take place Monday afternoon at 1 o'clock, Reverend Calhoun, officiating. Interment at Brick church.

Arrested For Fighting.

Harry Lyons last evening was arrested by Officer Madden for fighting. He was given a hearing this morning and was fined \$5.60. He did not have the ready money and is still in jail.

Cut Her Head.

Sylvia, the 6-year-old daughter of Mr. and Mrs. Charles Mardis, fell from a swing yesterday afternoon and severely bruised and cut her head. When picked up she was unconscious.

News of Wellsville.

The five-year-old son of Daniel Fitzgerald who was so severely scalded a few days ago is again able to be out.

John Wagner is convalescent after several weeks illness with typhoid fever.

Homer Dever's little three-year-old daughter was severely scalded yesterday afternoon.

Mrs. Hugh Andrews is suffering with grip fever at her home in Main street.

Miss Nan Stevenson is a Pittsburgh visitor today.

Mrs. Jackman, of Tunnel Mill, is the guest of Mrs. Paull, Main street.

Mrs. Leel, who has been the guest of her daughter, Mrs. Harvey Whitacker, returned to her home in Erie, Pa., today.

Misses Hannah and Lizzie Aughinbaugh are Pittsburg visitor today.

Ed Whitacre returned home today after a short business trip in Pennsylvania.

Miss Louie Hill very pleasantly entertained the Peanut club at her home on Broadway last evening.

The pie social given at the home of Mrs. Ben Cuppy, in Broadway, last evening was largely attended.

Mr. James Uselton will open up a grocery store Monday at the corner of Eleventh and Commerce streets.

Vote for Elijah W. Hill.

On the River.

The river has again reached a barge stage, but very little coal will be sent south, as the last rise caused an immense amount to be shipped. The river will hardly reach the 12-foot mark, although this morning the marks registered 10 5 feet and rising.

The Queen City and Lorena will be down tonight for Cincinnati and Zanesville. The Greenwood went south last night with a large cargo.

The Sunday boats, Kanawha, Keystone State and Ben Hur, will be up tomorrow as usual.

UNION MEN!

Read What Secretary P. J. McKeone Says of J. E. McDonald.

The statement having been made that the Brotherhood of Operative potters had endorsed a candidate, P. J. McKeone, secretary of the Brotherhood, was interviewed today. He said:

"The Brotherhood has not endorsed any candidate and there is no truth in the statement. Mr. J. E. McDonald has always been recognized as a friend by the workingmen and he should get their support. It is the aim of unions to stay out of politics and no union has endorsed a candidate. Mr. McDonald is known by us to be a friend of union men and they will stand by their home candidate. I think a song I heard once very aptly applies in this case. It is 'Charity Begins at Home,' and the workingmen will remain at home tomorrow."

BIG VOTE

Is Promised For the Primaries This Afternoon.

The primary election being held today is exciting a great deal of interest in the city, but the fight has centered on the race for sheriff, and last night and today much money was bet that McDonald would prove a winner. The city was deluged with campaign literature this afternoon and all candidates are using every effort in their power to land themselves winners. The indications are that an unusually large vote will be polled.

CAN BUILD A RESERVOIR

If the City Will Take Care of Interest on Bonds
FOR A PERIOD OF TWO YEARS

The Finances of the Water Department Are In Such Condition as to Enable the Officials to Improve the Service if Council Will Lend a Little Aid.

The water works department will use every available means in their power this year to secure additional water facilities for the city.

In the last report a statement was made that if the city council would pay the interest on the water works bonds the trustees would build and pay for a new reservoir out of the funds at their command. The interest amounts to about \$7,000, and would give them sufficient money to make the needed improvements.

Should the plan meet with the favor of council the trustees will build a six million gallon reservoir, giving them a capacity of eight and a half million gallons a day on the low pressure service. This would permit of a reserve reservoir, and the water would be permitted to settle before going into the mains, and the citizens could have clear water for use at all times. It would do away with the necessity of working the pumps day and night, and during the high water or when the wickets at the dams were opened the pumps could be shut down for two days if necessary.

The trustees are very anxious that council assist them in the way asked, and the effort for a better water-supply has the hearty endorsement of all citizens.

PATRIARCHS TO DRILL

At the Centennial Celebration In July.

WILL GREET THE HIGH OFFICER

At a Meeting of the Order Last Night Officers Were Elected and Arrangements Made For Two Important Events—Candidates Were Also Initiated.

A regular meeting of Canton Rhodes, No. 73, Patriarchs Militant was held last evening, and Patriarchs J. C. B. Beatty, John Cock and Charles Howe were mustered into the service. The following officers were elected: Commandant, H. A. Weeks; lieutenant, Capt. M. F. Albright; ensign, Charles Howe; clerk, J. C. B. Beatty; accountant, Capt. T. B. Murphy; guard, Capt. J. A. Calhoun; standard bearer, John Cock; sentinel, Lieutenant W. J. McKinney; picket, Capt. G. W. Croxall.

There are about 15 or 20 prospective candidates awaiting admission, and will be mustered in prior to July 1, in order to participate in the centennial celebration, at which time the canton expects to demonstrate that it is the crack semi-military organization of the city. Arrangements were made to attend services at the Christian church the morning of April 23 as an escort to the subordinate, this being the regular anniversary service of the Odd Fellows.

Ralph P. Miller, grand master of Ohio, will be here April 26 to help the local order celebrate the seventy-ninth anniversary of the institution of Odd Fellows in America. The canton will turn out in full uniform and escort the grand master from the train to the hotel, and also the hall, where the anniversary services are to be held.

After the canton closed the members were taken to an uptown restaurant, where they were treated to ice cream and cake at the expense of Chevalier Beatty.

WELLSVILLE.

PARDON FOR M'GREGOR

His Friends Are Encouraged at the Outlook.

ATTORNEY ELLIOTT FILED CLAIM

With the Board at Columbus—Little Girl Badly Injured by a Fall—Aged Resident of the Scotch Settlement Is Dead—Arrested For Fighting—All the News.

An application for the pardon of Jess McGregor was presented Thursday to the board of pardons at Columbus. It is thought they will take favorable action upon it, but the result will not be known for several weeks. Attorney John M. Elliott, of Lisbon, who presented the petition, returned home today.

John McPherson Dead.

John McPherson died last night at his home in the Scotch Settlement. Deceased was over 90 years of age and was well and favorably known here. The funeral will take place Monday afternoon at 1 o'clock, Reverend Calhoun officiating. Interment at Brick church.

Arrested For Fighting.

Harry Lyons last evening was arrested by Officer Madden for fighting. He was given a hearing this morning and was fined \$5.60. He did not have the ready money and is still in jail.

Cut Her Head.

Sylvia, the 6-year-old daughter of Mr. and Mrs. Charles Mardis, fell from a swing yesterday afternoon and severely bruised and cut her head. When picked up she was unconscious.

News of Wellsville.

The five-year-old son of Daniel Fitzgerald who was so severely scalded a few days ago is again able to be out.

John Wagner is convalescent after several weeks illness with typhoid fever.

Homer Dever's little three-year-old daughter was severely scalded yesterday afternoon.

Mrs. Hugh Andrews is suffering with grip fever at her home in Main street.

Miss Nan Stevenson is a Pittsburgh visitor today.

Mrs. Jackman, of Tunnel Mill, is the guest of Mrs. Pauli, Main street.

Mrs. Leel, who has been the guest of her daughter, Mrs. Harvey Whitacker, returned to her home in Erie, Pa., today.

Misses Hannah and Lizzie Aughinbaugh are Pittsburgh visitors today.

Ed Whitacre returned home today after a short business trip in Pennsylvania.

Miss Louie Hill very pleasantly entertained the Peanut club at her home on Broadway last evening.

The pie social given at the home of Mrs. Ben Cappy, in Broadway, last evening was largely attended.

Mr. James Uselton will open up a grocery store Monday at the corner of Eleventh and Commerce streets.

Vote for Elijah W. Hill.

On the River.

The river has again reached a barge stage, but very little coal will be sent south, as the last rise caused an immense amount to be shipped. The river will hardly reach the 12 foot mark, although this morning the marks registered 10.5 feet and rising.

The Queen City and Lorena will be down tonight for Cincinnati and Zanesville. The Greenwood went south last night with a large cargo.

The Sunday boats, Kanawha, Keystone State and Ben Hur, will be up tomorrow as usual.

OUR FARMERS IN PARIS.

How Our Agriculture Will Be Shown at the Exposition.

THERE WILL BE FIVE SECTIONS.

An Exhibit of Agricultural Machines Will Be Kept in Motion by Electricity—Corn Kitchen Will Be in a Special Annex—Exhibit of Plant Diseases.

The American farmer is going to be well represented at the exposition of 1900 in Paris. Much interest is being taken by the government in this matter, and an elaborate display is being prepared under the superintendence of Charles Richards Dodge of the department of agriculture. This will be in effect a comprehensive presentation of the agricultural industries of the United States and will serve to a certain extent the purpose of educating Europeans in Yankee methods.

For example, there is to be a superb exhibit of agricultural machines, which will be kept in motion all the time by means of electricity. Many kinds of incubators will be shown, by the aid of which ingenious man has enabled the industrious hen to reproduce her own species at a dozen times the normal rate, and fresh meats and dairy products will be displayed in an immense revolving refrigerator of plate glass, divided suitably into compartments. Condensed military foods will furnish a little show by themselves, more than usually interesting in these piping times of powder and shot, and free grid-decades and samples of various maize products will be distributed to all comers at the corn kitchen.

This corn kitchen will be located in a special annex. It is considered of the greatest importance to teach the effects of Europe to like corn, which hitherto they have regarded as a more proper food for horses than for men. If a foreign demand could be created large enough to absorb all of our surplus corn, that cereal would bring at least 40 cents a bushel in the market. What this would signify can hardly be realized without figuring on it bit. Even 1 cent a bushel added to the price of an average corn crop in the United States means \$20,000,000 added to the annual income of American corn growers. On the basis of recent production, it would signify \$1,300,000 added to the income of the farmers of Indiana, \$2,000,000 added to the income of the farmers of Illinois, \$2,750,000 added to the income of the farmers of Iowa, \$1,500,000 added to the income of the farmers of Missouri, \$1,750,000 added to the income of the farmers of Kansas and \$1,600,000 added to the income of the farmers of Nebraska. This trifle of 1 cent means \$10,900,000 added to the yearly income of the farmers of six states.

The palace of agriculture at the exposition of 1900 will be the same building as that used as the palace of machinery at the exposition of 1889, but its interior is being entirely remodeled. In this building the United States will have the use of 17,000 square feet, and the display will be divided up into sections.

Section 1 will comprise an exhibit of fresh meats, lard, smoked meats, canned meats and soups, meat delicacies and extracts, animal fats and oils. Section 2 will comprise fish products—salt fish in packages, dried fish, canned fish and preserved shellfish. Section 3 will comprise dairy products of every imaginable description. Section 4 will comprise insect products—honey, cochineal, lac and silk. Cochineal and lac are both produced in a small way in this country the former for dyes and the latter for varnish. There will be a special exhibit of silkworm culture and silk production, which are rapidly gaining ground in the United States.

Section 5 will comprise all sorts of cereals and bakery products; also, vegetables and every sort of flour. There will be bean flour, potato flour, pea flour and banana flour. This last seems destined to come into common use, being very nutritious. The bananas are cut into slices, which are dried and then ground to powder. The display will comprise also liquors and beverages, including artificial mineral waters; commercial fibers of many kinds; tobacco, with varieties of the leaf; medical and pharmaceutical plants and dye plants.

There will be an exhibit of the method by which soils are studied, showing how the experts nowadays are able to take a sample of any soil and ascertain exactly what it will produce best and what it needs, if anything. No longer is there such a thing as soil that cannot be made fertile by the addition of cheap and easily obtained ingredients.

Special exhibits will be devoted to plant diseases and to the methods by which commerce has spread injurious insects all over the world. Ditto as to injurious weeds. In connection with the corn kitchen particular attention will be given to a show of the different varieties of corn and of corn products, such as corn oil, corn whisky and cellulose.

The horticultural show will be in the palace of horticulture on the north bank of the Seine. Occupying only 2,500 square feet, it will not afford

room for a display of living plants, but its chief feature will be fresh fruits representing various sections of the United States. These fruits will be sent over from the United States from time to time, as their decay depletes the stock on hand. Apples and citrus fruits will lead the exhibit, and special attention will be paid to nuts, the pecan foremost. The nuts, of course, will be cultivated nuts. Nut culture has been making great strides recently, and cultivated pecans, chestnuts, hickory nuts, etc., of size far superior to the wild ones are beginning to appear in the market.

On the roof of a building near the Eiffel tower the weather bureau will have a working meteorological observatory, the instruments being connected with an exhibit on the main floor below. Each day a card bearing a forecast of the weather for 24 hours ahead, based on information cabled from Washington, will be issued free to all comers. Probably the most interesting feature of the weather bureau's show will be its kites, of the peculiar new pattern employed for studying atmospheric conditions at high levels. These kites, looking like huge boxes of cloth with a framework of sticks, will be sent up daily, carrying automatic observing and recording instruments and controlled by "strings" of piano wire unwound from reels. These kites can be sent up to a height of two miles and will doubtless surprise the Parisians.

It may be mentioned in this connection that the total agricultural exports of the United States last year were about \$900,000,000 worth. They constituted 70 per cent of the total exports of the United States. Of breadstuffs alone \$35,000,000 worth was exported. Thus it would appear that if the Yankees are a nation of shopkeepers, as foreigners allege, the farmers are furnishing the bulk of the goods disposed of over the counter.—Cor. St. Louis Globe-Democrat

NEW RUSSIAN CEREALS.

Seeds and Plants Secured by Professor Mark A. Carleton.

During the last year the United States department of agriculture has had four agricultural explorers at work in different parts of the world, having in view the introduction into the United States of such seeds and plants as may prove to be of economic value. Professor Mark A. Carleton has just returned from Russia. He is confident that some of the seeds he secured will prove of benefit. He mentions a winter rye which is grown at Uetsisolsk, which is in about 60 degrees north latitude. The climatic conditions are similar to those of Labrador. It is believed that this rye will do well in Alaska.

The cereal that promises best results is the Kubanka wheat from the Kuban territory, in the Volga region. While this is a spring wheat in Russia, it is believed it can be changed to a winter wheat here. It is harder than any of our wheats and is the great bread wheat of the Volga region. This wheat needs a warm climate and is expected to give good results in Texas, No Man's Land, western Kansas and eastern Colorado. It does best in Russia, where the annual rainfall is only 15 inches. In western Kansas the annual rainfall is 18 inches.

A variety called Polish wheat, which was obtained, has the largest grain of all wheat in the world, the average length of the kernels being about five-sixteenths of an inch. Like the Kubanka, it is exceedingly hard, but is not a bread wheat. Its use is in pastry and as a macaroni wheat. The Polish wheat needs a warm climate.

Several varieties of broom millet are to come. These are for cold, dry climates. They are grown in Russia for the seeds principally and are used for food in the way of soups and gruels. It is possible that we may thus add something desirable to our dietary. Two varieties of oats, the Swedish and Tobolsk, are expected to be the thing needful in the dry, cold regions of the west. The government importation is from this selected seed. The other variety is from Tobolsk, in the northern part of Siberia, where it is dry and cold.

The total imports amount to about 30 varieties of cereals and forage plants, beside vegetable seeds and melons.—Chicago Tribune.

CRAZE FOR COLORED DIAMONDS.

The craze for colored diamonds in English circles that can afford such expensive ornaments is rather on the increase than decrease. A fashionable jewelry establishment in London is now exhibiting an enormous jeweled crown made of almost every kind of colored diamonds. In the center is an enormous rose colored diamond several thousand pounds in value, and the whole crown can be purchased for the moderate sum of about £23,000. The same jewelers have a fine orange colored diamond weighing 2½ carats and worth about £9,000.—New York Herald.

NEW NEEDLE DEVICE.

Deputy Sheriff S. S. Roszell of Lexington, Ky., is to confer in New York with a syndicate of English needle manufacturers to take steps toward the manufacture of his patent needle device. The proficiency lies in the needle eye and permits the use of single instead of a double thread.—Cincinnati Enquirer.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning April 16—Comment by Rev. S. H. Doyle.

Topic.—The eternal morning and modern missions. Isa. 1:12.

This chapter is a song of triumph upon glorified Zion. It is a magnificent picture of the church in its glory and beauty after the light of God has shone upon it, and may be looked upon as a picture of the ideal Zion after the return from captivity or a picture of the New Jerusalem or heaven. Three characteristics of this eternal morning are prominent—darkness, moral and spiritual, in the church is to disappear; many of the nations of the world are to be gathered into heaven; the nations that will not serve God are to be destroyed.

The bearing of this passage upon the subject of modern missions is clearly evident.

1. In the light of the eternal morning modern missions are seen to pay. Modern missions have two specific purposes, (1) to dispel the spiritual darkness of the world and replace it with the light of God, and (2) to lead the gentile nations to God through Christ and to eternal salvation. The picture of the prophet in its application to eternity proves that both these results are to be accomplished. The darkness of the church is to be dispelled and the light of God is to shine upon it. The nations of the world are to flock to the church of God and are to bring their wealth and consecrate it to God. These facts prove to us that mission work is successful; that it does pay. The cry that missions are a failure should be forever silenced by this picture of eternity as given to the prophet by God Himself. It gives us a view of the result of missionary efforts, and it is one that should encourage and inspire all who are interested in this great cause of God to increased zeal and earnestness in the cause.

2. In the light of the eternal morning we see the necessity of modern missions. "Darkness shall cover the earth" except where the church exists. How important therefore that the church of Christ should extend over the whole world, that this glorious light of God may be worldwide. Again it is said that at that time the nation and kingdom that will not serve God shall perish; those nations shall be utterly wasted. But how can the heathen nations serve God unless they first know God? And how can they ever know God except the church of Christ sends them the knowledge of God? The responsibility for the salvation of the world is upon us. How will we meet it? Depending upon God for strength and encouraged by the assurance of success, let us rise to the full measure of our responsibility.

Bible Readings.—Isa. xliv, 20-23; iii, 1-7; Nah. i, 15; Matt. xxviii, 19, 20; Luke xv, 1-10; Acts i, 1-8; xiii, 1-3, 44-49; xvi, 8-10; Rom. x, 14, 15; Rev. viii, 9, 10; xxi, 22-24.

THE PLEDGE IN ENGLAND.

The pledge that is generally used by Endeavorers throughout Great Britain is the original one, with the introductory sentence, "Relying on the Lord Jesus Christ for salvation, and trusting in God for strength, I promise Him." No one seems to know who composed this introduction. The theologians think that there is a confusion of persons in the Godhead in the phrase. They ask, "To whom does the 'Him' refer?" Some societies, especially the Irish Methodist, have adopted the American revised pledge. It was agreed by the British National council, at its recent session, to adopt, after the phrase, "I will pray to Him and read the Bible every day," the words, "that I will support my own church and its services in every way in my power." This is to be the form suggested for ordinary use.

Faith in God.

In view of the prevailing and abiding love of Him in whose hands all power in heaven and on earth is lodged what a folly seems our unbelief and what a sin and shame our worry! We have but the duty of the present. The provision for the morrow is our Father's care, and because He cares and wills that we should have the help that never fails His trusting children in their hour of need we can put our whole strength into the moment's work, assured that the morrow's task will never be allowed to pass beyond the morrow's strength.

PURITY IS POWER.

The rose, among the sweetest and most beautiful of God's creations, is armed with thorns, nature's sharp bayonets for warding off attack. Purity is the defence of beauty; modesty is the safeguard of innocence. The severe chastity which repels familiarity is as absolutely essential for the safety of the soul as genial attractiveness is for its beauty.—A. J. Gordon.

TRADED FOR BADGE 13 AND WAS KILLED.

Sergeant W. P. Steele of the Lawrence company relates a singular circumstance in connection with the death of Lieutenant Alford in Manila. Identification badges with numbers on them were given out to the Kansas troops. The man who got No. 13 made such strong objection to the unlucky number that Lieutenant Alford exchanged with him, and the lieutenant had it on his person when he was killed.—Kansas City Journal.

OUR FARMERS IN PARIS.

How Our Agriculture Will Be Shown at the Exposition.

THERE WILL BE FIVE SECTIONS.

An Exhibit of Agricultural Machines Will Be Kept in Motion by Electricity—Corn Kitchen Will Be in a Special Annex—Exhibit of Plant Diseases.

The American farmer is going to be well represented at the exposition of 1900 in Paris. Much interest is being taken by the government in this matter, and an elaborate display is being prepared under the superintendence of Charles Richards Dodge of the department of agriculture. This will be in effect a comprehensive presentation of the agricultural industries of the United States and will serve to a certain extent the purpose of educating Europeans in Yankee methods.

For example, there is to be a superb exhibit of agricultural machines, which will be kept in motion all the time by means of electricity. Many kinds of incubators will be shown, by the aid of which ingenious man has enabled the industrious hen to reproduce her own species at a dozen times the normal rate, and fresh meats and dairy products will be displayed in an immense revolving refrigerator of plate glass, divided suitably into compartments. Condensed military foods will furnish a little show by themselves, more than usually interesting in these piping times of powder and shot, and free grid-decades and samples of various maize products will be distributed to all comers at the corn kitchen.

This corn kitchen will be located in a special annex. It is considered of the greatest importance to teach the effete peoples of Europe to like corn, which hitherto they have regarded as a more proper food for horses than for men. If a foreign demand could be created large enough to absorb all of our surplus corn, that cereal would bring at least 40 cents a bushel in the market. What this would signify can hardly be realized without figuring on it a bit. Even 1 cent a bushel added to the price of an average corn crop in the United States means \$20,000,000 added to the annual income of American corn growers.

On the basis of recent production, it would signify \$1,300,000 added to the income of the farmers of Indiana, \$2,000,000 added to the income of the farmers of Illinois, \$2,750,000 added to the income of the farmers of Iowa, \$1,500,000 added to the income of the farmers of Missouri, \$1,750,000 added to the income of the farmers of Kansas and \$1,600,000 added to the income of the farmers of Nebraska. This trifle of 1 cent means \$10,900,000 added to the yearly income of the farmers of six states.

The palace of agriculture at the exposition of 1900 will be the same building as that used as the palace of machinery at the exposition of 1889, but its interior is being entirely remodeled. In this building the United States will have the use of 17,000 square feet, and the display will be divided up into sections.

Section 1 will comprise an exhibit of fresh meats, lard, smoked meats, canned meats and soups, meat delicacies and extracts, animal fats and oils. Section 2 will comprise fish products—salt fish in packages, dried fish, canned fish and preserved shellfish. Section 3 will comprise dairy products of every imaginable description. Section 4 will comprise insect products—honey, cochineal, lac and silk. Cochineal and lac are both produced in a small way in this country for the former for dyes and the latter for varnish. There will be a special exhibit of silkworm culture and silk production, which are rapidly gaining ground in the United States.

Section 5 will comprise all sorts of cereals and bakery products; also, vegetables and every sort of flour. There will be bean flour, potato flour, pea flour and banana flour. This last seems destined to come into common use, being very nutritious. The bananas are cut into slices, which are dried and then ground to powder. The display will comprise also liquors and beverages, including artificial mineral waters; commercial fibers of many kinds; tobacco, with varieties of the leaf; medicinal and pharmaceutical plants and dye plants.

There will be an exhibit of the method by which soils are studied, showing how the experts nowadays are able to take a sample of any soil and ascertain exactly what it will produce best and what it needs, if anything. No longer is there such a thing as a soil that cannot be made fertile by the addition of cheap and easily obtained ingredients.

Special exhibits will be devoted to plant diseases and to the methods by which commerce has spread injurious insects all over the world. Ditto as to injurious weeds. In connection with the corn kitchen particular attention will be given to a show of the different varieties of corn and of corn products, such as corn oil, corn whisky and cellulose.

The horticultural show will be in the palace of horticulture on the north bank of the Seine. Occupying only 2,500 square feet, it will not afford

room for a display of living plants, but its chief feature will be fresh fruits representing various sections of the United States. These fruits will be sent over from the United States from time to time, as their decay depletes the stock on hand. Apples and citrus fruits will lead the exhibit, and special attention will be paid to nuts, the pecan foremost. The nuts, of course, will be cultivated nuts. Nut culture has been making great strides recently, and cultivated pecans, chestnuts, hickory nuts, etc., of size far superior to the wild ones are beginning to appear in the market.

On the roof of a building near the Eiffel tower the weather bureau will have a working meteorological observatory, the instruments being connected with an exhibit on the main floor below. Each day a card bearing a forecast of the weather for 24 hours ahead, based on information cabled from Washington, will be issued free to all comers. Probably the most interesting feature of the weather bureau's show will be its kites, of the peculiar new pattern employed for studying atmospheric conditions at high levels. These kites, looking like huge boxes of cloth with a framework of sticks, will be sent up daily, carrying automatic observing and recording instruments and controlled by "strings" of piano wire unwound from reels. These kites can be sent up to a height of two miles and will doubtless surprise the Parisians.

It may be mentioned in this connection that the total agricultural exports of the United States last year were about \$900,000,000 worth. They constituted 70 per cent of the total exports of the United States. Of breadstuffs alone \$35,000,000 worth was exported. Thus it would appear that if the Yankees are a nation of shopkeepers, as foreigners allege, the farmers are furnishing the bulk of the goods disposed of over the counter.—Cor. St. Louis Globe-Democrat

NEW RUSSIAN CEREALS.

Seeds and Plants Secured by Professor Mark A. Carleton.

During the last year the United States department of agriculture has had four agricultural explorers at work in different parts of the world, having in view the introduction into the United States of such seeds and plants as may prove to be of economic value. Professor Mark A. Carleton has just returned from Russia. He is confident that some of the seeds he secured will prove of benefit. He mentions a winter rye which is grown at Utsisolsk, which is in about 60 degrees north latitude. The climatic conditions are similar to those of Labrador. It is believed that this rye will do well in Alaska.

The cereal that promises best results is the Kubanka wheat from the Kuban territory, in the Volga region. While this is a spring wheat in Russia, it is believed it can be changed to a winter wheat here. It is harder than any of our wheats and is the great bread wheat of the Volga region. This wheat needs a warm climate and is expected to give good results in Texas, No Man's Land, western Kansas and eastern Colorado. It does best in Russia, where the annual rainfall is only 15 inches. In western Kansas the annual rainfall is 18 inches.

A variety called Polish wheat, which was obtained, has the largest grain of all wheat in the world, the average length of the kernels being about five-sixteenths of an inch. Like the Kubanka, it is exceedingly hard, but is not a bread wheat. Its use is in pastry and as a macaroni wheat. The Polish wheat needs a warm climate.

Several varieties of broom millet are to come. These are for cold, dry climates. They are grown in Russia for the seeds principally and are used for food in the way of soups and gruels. It is possible that we may thus add something desirable to our dietary. Two varieties of oats, the Swedish and Tobolsk, are expected to be the thing needful in the dry, cold regions of the west. The government importation is from this selected seed. The other variety is from Tobolsk, in the northern part of Siberia, where it is dry and cold.

The total importations amount to about 30 varieties of cereals and forage plants, beside vegetable seeds and melons.—Chicago Tribune.

Crave For Colored Diamonds.

The craze for colored diamonds in English circles that can afford such expensive ornaments is rather on the increase than decrease. A fashionable jewelry establishment in London is now exhibiting an enormous jeweled crown made of almost every kind of colored diamonds. In the center is an enormous rose colored diamond several thousand pounds in value, and the whole crown can be purchased for the moderate sum of about £28,000. The same jewelers have a fine orange colored diamond weighing 2½ carats and worth about £9,000.—New York Herald.

New Needle Device.

Deputy Sheriff S. S. Roszell of Lexington, Ky., is to confer in New York with a syndicate of English needle manufacturers to take steps toward the manufacture of his patent needle device. The proficiency lies in the needle eye and permits the use of single instead of a double thread.—Cincinnati Enquirer.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning April 16—Comment by Rev. S. H. Doyle.

Topic.—The eternal morning and modern missions.—Isa. viii 1-12.

This chapter is a song of triumph upon glorified Zion. It is a magnificent picture of the church in its glory and beauty after the light of God has shone upon it, and may be looked upon as a picture of the ideal Zion after the return from captivity or a picture of the New Jerusalem or heaven. Three characteristics of this eternal morning are prominent—darkness, moral and spiritual, in the church is to disappear; many of the nations of the world are to be gathered into heaven; the nations that will not serve God are to be destroyed.

The bearing of this passage upon the subject of modern missions is clearly evident.

1. In the light of the eternal morning modern missions are seen to pay. Modern missions have two specific purposes, (1) to dispel the spiritual darkness of the world and replace it with the light of God, and (2) to lead the gentile nations to God through Christ and to eternal salvation. The picture of the prophet in its application to eternity proves that both these results are to be accomplished. The darkness of the church is to be dispelled and the light of God is to shine upon it. The nations of the world are to flock to the church of God and are to bring their wealth and consecrate it to God. These facts prove to us that mission work is successful; that it does pay. The cry that missions are a failure should be forever silenced by this picture of eternity as given to the prophet by God Himself. It gives us a view of the result of missionary efforts, and it is one that should encourage and inspire all who are interested in this great cause of God to increased zeal and earnestness in the cause.

2. In the light of the eternal morning we see the necessity of modern missions. "Darkness shall cover the earth" except where the church exists. How important therefore that the church of Christ should extend over the whole world, that this glorious light of God may be worldwide. Again it is said that at that time the nation and kingdom that will not serve God shall perish; those nations shall be utterly wasted. But how can the heathen nations serve God unless they first know God? And how can they ever know God except the church of Christ sends them the knowledge of God? The responsibility for the salvation of the world is upon us. How will we meet it? Depending upon God for strength and encouraged by the assurance of success, let us rise to the full measure of our responsibility.

Bible Readings.—Isa. xlix, 20-23; iii, 1-7; Nah. i, 15; Math. xxviii, 19, 20; Luke xv, 1-10; Acts i, 1-8; xiii, 1-3, 44-49; xvi, 8-10; Rom. x, 14, 15; Rev. vii, 9, 10; xxi, 22-24.

The Pledge In England.

The pledge that is generally used by Endeavorers throughout Great Britain is the original one, with the introductory sentence, "Relying on the Lord Jesus Christ for salvation, and trusting in God for strength, I promise Him."

No one seems to know who composed this introduction. The theologians think that there is a confusion of persons in the Godhead in the phrase. They ask, "To whom does the 'Him' refer?" Some societies, especially the Irish Methodist, have adopted the American revised pledge. It was agreed by the British National council, at its recent session, to adopt, after the phrase, "I will pray to Him and read the Bible every day," the words, "that I will support my own church and its services in every way in my power." This is to be the form suggested for ordinary use.

Faith In God.

In view of the prevailing and abiding love of Him in whose hands all power in heaven and on earth is lodged what a folly seems our unbelief and what a sin and shame our worry! We have but the duty of the present. The provision for the morrow is our Father's care, and because He cares and wills that we should have the help that never fails His trusting children in their hour of need we can put our whole strength into the moment's work, assured that the morrow's task will never be allowed to pass beyond the morrow's strength.—Congregationalist.

Purity Is Power.

The rose, among the sweetest and most beautiful of God's creations, is armed with thorns, nature's sharp bayonets for warding off attack. Purity is the defence of beauty; modesty is the safeguard of innocence. The severe chastity which repels familiarity is as absolutely essential for the safety of the soul as genial attractiveness is for its beauty.—A. J. Gordon.

Tragedy For Badge 13 and Was Killed

Sergeant W. P. Steele of the Lawrence company relates a singular circumstance in connection with the death of Lieutenant Alford in Manila. Identification badges with numbers on them were given out to the Kansas troops. The man who got No. 13 made such strong objection to the unlucky number that Lieutenant Alford exchanged with him, and the lieutenant had it on his person when he was killed.—Kansas City Journal.

OUR FARMERS IN PARIS.

How Our Agriculture Will Be Shown at the Exposition.

THERE WILL BE FIVE SECTIONS.

An Exhibit of Agricultural Machines Will Be Kept in Motion by Electricity—Corn Kitchen Will Be in a Special Annex—Exhibit of Plant Diseases.

The American farmer is going to be well represented at the exposition of 1900 in Paris. Much interest is being taken by the government in this matter, and an elaborate display is being prepared under the superintendence of Charles Richards Dodge of the department of agriculture. This will be in effect a comprehensive presentation of the agricultural industries of the United States and will serve to a certain extent the purpose of educating Europeans in Yankee methods.

For example, there is to be a superb exhibit of agricultural machines, which will be kept in motion all the time by means of electricity. Many kinds of incubators will be shown, by the aid of which ingenious man has enabled the industrious hen to reproduce her own species at a dozen times the normal rate, and fresh meats and dairy products will be displayed in an immense revolving refrigerator of plate glass, divided suitably into compartments. Condensed military foods will furnish a little show by themselves, more than usually interesting in these piping times of powder and shot, and free grid-diecakes and samples of various maize products will be distributed to all comers at the corn kitchen.

This corn kitchen will be located in a special annex. It is considered of the greatest importance to teach the effete peoples of Europe to like corn, which hitherto they have regarded as a more proper food for horses than for men. If a foreign demand could be created large enough to absorb all of our surplus corn, that cereal would bring at least 40 cents a bushel in the market. What this would signify can hardly be realized without figuring on it a bit. Even 1 cent a bushel added to the price of an average corn crop in the United States means \$20,000,000 added to the annual income of American corn growers. On the basis of recent production, it would signify \$1,300,000 added to the income of the farmers of Indiana, \$2,000,000 added to the income of the farmers of Illinois, \$2,750,000 added to the income of the farmers of Iowa, \$1,500,000 added to the income of the farmers of Missouri, \$1,750,000 added to the income of the farmers of Kansas and \$1,600,000 added to the income of the farmers of Nebraska. This trifle of 1 cent means \$10,900,000 added to the yearly income of the farmers of six states.

The palace of agriculture at the exposition of 1900 will be the same building as that used as the palace of machinery at the exposition of 1889, but its interior is being entirely remodeled. In this building the United States will have the use of 17,000 square feet, and the display will be divided up into sections.

Section 1 will comprise an exhibit of fresh meats, lard, smoked meats, canned meats and soups, meat delicacies and extracts, animal fats and oils. Section 2 will comprise fish products—salt fish in packages, dried fish, canned fish and preserved shellfish. Section 3 will comprise dairy products of every imaginable description. Section 4 will comprise insect products—honey, cochineal, lac and silk. Cochineal and lac are both produced in a small way in this country, the former for dyes and the latter for varnish. There will be a special exhibit of silkworm culture and silk production, which are rapidly gaining ground in the United States.

Section 5 will comprise all sorts of cereals and bakery products; also, vegetables and every sort of flour. There will be bean flour, potato flour, pea flour and banana flour. This last seems destined to come into common use, being very nutritious. The bananas are cut into slices, which are dried and then ground to powder. The display will comprise also liquors and beverages, including artificial mineral waters; commercial fibers of many kinds; tobacco, with varieties of the leaf; medical and pharmaceutical plants and dye plants.

There will be an exhibit of the method by which soils are studied, showing how the experts nowadays are able to take a sample of any soil and ascertain exactly what it will produce best and what it needs, if anything. No longer is there such a thing as a soil that cannot be made fertile by the addition of cheap and easily obtained ingredients.

Special exhibits will be devoted to plant diseases and to the methods by which commerce has spread injurious insects all over the world. Ditto as to injurious weeds. In connection with the corn kitchen particular attention will be given to a show of the different varieties of corn and of corn products, such as corn oil, corn whisky and cellulose.

The horticultural show will be in the palace of horticulture on the north bank of the Seine. Occupying only 2,500 square feet, it will not afford

room for a display of living plants, but its chief feature will be fresh fruits representing various sections of the United States. These fruits will be sent over from the United States from time to time, as their decay depletes the stock on hand. Apples and citrus fruits will lead the exhibit, and special attention will be paid to nuts, the pecan foremost. The nuts, of course, will be cultivated nuts. Nut culture has been making great strides recently, and cultivated pecans, chestnuts, hickory nuts, etc., of size far superior to the wild ones are beginning to appear in the market.

On the roof of a building near the Eiffel tower the weather bureau will have a working meteorological observatory, the instruments being connected with an exhibit on the main floor below. Each day a card bearing a forecast of the weather for 24 hours ahead, based on information cabled from Washington, will be issued free to all comers. Probably the most interesting feature of the weather bureau's show will be its kites, of the peculiar new pattern employed for studying atmospheric conditions at high levels. These kites, looking like huge boxes of cloth with a framework of sticks, will be sent up daily, carrying automatic observing and recording instruments and controlled by "strings" of piano wire unwound from reels. These kites can be sent up to a height of two miles and will doubtless surprise the Parisians.

It may be mentioned in this connection that the total agricultural exports of the United States last year were about \$900,000,000 worth. They constituted 70 per cent of the total exports of the United States. Of breadstuffs alone \$35,000,000 worth was exported. Thus it would appear that if the Yankees are a nation of shopkeepers, as foreigners allege, the farmers are furnishing the bulk of the goods disposed of over the counter.—Cor. St. Louis Globe-Democrat

NEW RUSSIAN CEREALS.

Seeds and Plants Secured by Professor Mark A. Carleton.

During the last year the United States department of agriculture has had four agricultural explorers at work in different parts of the world, having in view the introduction into the United States of such seeds and plants as may prove to be of economic value. Professor Mark A. Carleton has just returned from Russia. He is confident that some of the seeds he secured will prove of benefit. He mentions a winter rye which is grown at Ustsisolsk, which is in about 60 degrees north latitude. The climatic conditions are similar to those of Labrador. It is believed that this rye will do well in Alaska.

The cereal that promises best results is the Kubanka wheat from the Kuban territory, in the Volga region. While this is a spring wheat in Russia, it is believed it can be changed to a winter wheat here. It is harder than any of our wheats and is the great bread wheat of the Volga region. This wheat needs a warm climate and is expected to give good results in Texas, No Man's Land, western Kansas and eastern Colorado. It does best in Russia, where the annual rainfall is only 15 inches. In western Kansas the annual rainfall is 18 inches.

A variety called Polish wheat, which was obtained, has the largest grain of all wheat in the world, the average length of the kernels being about five-sixteenths of an inch. Like the Kubanka, it is exceedingly hard, but is not a bread wheat. Its use is in pastry and as a macaroni wheat. The Polish wheat needs a warm climate.

Several varieties of broom millet are to come. These are for cold, dry climates. They are grown in Russia for the seeds principally and are used for food in the way of soups and gruels. It is possible that we may thus add something desirable to our dietary. Two varieties of oats, the Swedish and Tobolsk, are expected to be the thing needful in the dry, cold regions of the west. The government importation is from this selected seed. The other variety is from Tobolsk, in the northern part of Siberia, where it is dry and cold.

The total importations amount to about 30 varieties of cereals and forage plants, beside vegetable seeds and melons.—Chicago Tribune.

Crave For Colored Diamonds.

The craze for colored diamonds in English circles that can afford such expensive ornaments is rather on the increase than decrease. A fashionable jewelry establishment in London is now exhibiting an enormous jeweled crown made of almost every kind of colored diamonds. In the center is an enormous rose colored diamond several thousand pounds in value, and the whole crown can be purchased for the moderate sum of about £23,000. The same jewelers have a fine orange colored diamond weighing 2½ carats and worth about £9,000.—New York Herald.

New Needle Device.

Deputy Sheriff S. S. Roszell of Lexington, Ky., is to confer in New York with a syndicate of English needle manufacturers to take steps toward the manufacture of his patent needle device. The proficiency lies in the needle eye and permits the use of single instead of a double thread.—Cincinnati Enquirer.

PINGREE'S GREAT FIGHT

His Plan to Municipalize Detroit's Street Railways.

WHAT THE GOVERNOR LOOKS FOR.

With No Watered Stock on Which to Pay Dividends, He Expects Detroit to Give 3 Cent Fares on All Railroads—History of the Fight—Provisions of the Law.

Governor Pingree in a recent interview on the fight for municipal ownership of street railways in Detroit said: "We will have 3 cent fares without a question. With no watered stock to be cared for and only legitimate expenses to pay there can be no possible doubt as to success in the end. It is great victory for the people, the greatest fight of my life."

Within the next six months, probably within the next three, Detroit will be operating her own street railways.

With the accomplishment of this there will have been won the first great battle in the fight for municipal control of quasi public institutions.

Through the efforts of Governor Pingree, beginning when he was first elected mayor of Detroit, this has been brought about, and now, with every step taken except the final consummation of the fact, Detroit finds itself situated as no other city has been situated. Not a single stone is in the way of closing up the deal. Both the city and three street car companies are ready and willing to come to terms.

Up to the time of the introduction of the McLeod bill in the legislature, the passage of which measure paved the way for the opening of negotiations, the situation was this: The several franchises of the street railways ran from 10 to nearly 30 years, averaging 17 years. Through the constant efforts of Governor Pingree the citizens had come to the conclusion that municipal control of the tracks, if not municipal operation of the cars, would be the proper thing.

Efforts of the street railway companies, all of which gradually came under the control of Tom L. Johnson and R. T. Wilson of New York, to secure a blanket franchise covering all roads proved futile unless the companies would agree to 3 cent fares, interchangeable transfers and a short term

GOVERNOR H. S. PINGREE.

franchise. These terms the railways would not accept, partly because of the baneful effect such conditions would have on private operation of roads in other cities; hence Messrs. Wilson and Johnson began to look about for some way of getting out of their predicament on the safe financial side.

Indeed Mr. Wilson felt in any but friendly terms with Mr. Johnson, because the latter had invested his money under the belief that a satisfactory franchise could be obtained whereby several millions of bonds locked up in Mr. Wilson's safe could be taken from their strong box and sold on the market. These bonds are still there. It was to Tom L. Johnson, then, that Mr. Wilson looked for relief. Mr. Johnson himself was rapidly changing some of his political beliefs, or at least he had begun to publicly express political beliefs that he had kept dormant in his mind. One of these beliefs was that the public might with a good deal of reason operate its own street cars, as well as its own electric light plants. He had gradually begun to dispose of his interests in corporations, and the thought came to him, why not experiment in Detroit? There the people were anxious to control the car tracks, and because of this Mr. Johnson was enabled to see a brilliant future for the money he had invested there. The time and the occasion were propitious.

From Mr. Wilson Mr. Johnson got full and ample powers to carry on the negotiations with Detroit, not through the mayor and the council, but with a man who by force of his personality and the absolute public faith in his honesty wielded more power than the mayor and the council combined. Governor Pingree. Mr. Johnson's authority from Mr. Wilson contained the double limitation that the money invested should be made safe, and that negotiations should be closed within a certain period, popularly supposed to be within six months.

In response to a long distance telephone message Governor Pingree has-

ened to Cleveland, where Mr. Johnson made known the general terms by which Detroit could get that for which Governor Pingree had so long fought, municipal ownership of its street railways. From Cleveland the two went to New York, where Mr. Wilson was seen by some Detroit attorneys, among them Elliott G. Stevenson, now one of the commissioners, who were hastily called to New York, where an enabling act was drawn up and which later was introduced under the name of the McLeod bill in the Michigan legislature.

Mr. Wilson absolutely refused to have a referendum clause attached to the bill and this point Governor Pingree was forced to concede. The bill underwent considerable modifications before it became a law. As finally signed, the McLeod law "authorizes the appointment by a majority of the common council, at any time within 20 years, of the Detroit street railway commission, of three commissioners, appointed for two, four and six years respectively, their successors to be appointed by the common council on nomination of the mayor for six year terms."

It makes aldermen ineligible to appointment.

It compels each commissioner to give a \$250,000 surety bond for the faithful performance of duty.

Makes the city treasurer custodian of all the commissioners' money.

Gives the commission power to acquire, in its discretion, on any terms it deems advisable, by purchase, lease or otherwise, any street railway, wholly or partly in Detroit, including all unused franchises, and make needed extensions or improvements.

Empowers the commission to operate roads so acquired for carrying both passengers and freight and manage them as it would a private business.

Prohibits the commission from incurring any debt on behalf of the city, except it be chargeable solely to the railway properties controlled.

Limits the maximum of fares to be charged to present fares of the Citizens' Street Railway company.

Authorizes the commission to contract with other railway lines for interchange of tickets, transfers, use of tracks and for operation of cars.

Gives the council power to examine the commissioners' books and accounts at any time, and compels the comptroller to do so once in three months.

Makes all liability for damage or other legal suits arising from the street car business lie against the commission and the property it controls solely.

Prohibits the commission from granting or extending any franchise.

Specifies that in case of the reversion of street railway property to those from whom it was purchased, "no franchise or franchise extension beyond the life of the existing franchise at the time of purchase shall be implied or granted under the provisions of this act."

The commission has been appointed, but only after a hot fight. Pingree's strong personality proved too much for the opposition. The only concession he made was that no definite bargain should be made until the common council had a chance to approve of the terms. In his speech to the council Governor Pingree said:

"I am satisfied that two-thirds of the people of the city want municipal ownership. The proportion is not any greater than in other cities in the United States. I thought I was doing the people a favor when I interested myself to bring this thing about. I will say to you that I never felt so good in my life as when I found out that the owners of the roads would sell and not ask the city to assume anything. I considered it a bigger thing than I would if the people of the state had offered to let me be governor all the rest of my life."

The governor declared for flat 3 cent fares and told of the danger of delay because the other parties to the deal might shift. He declared that the bill in all its main features had been before the legislature for 59 days. "And I'm willing to have everybody in the city of Detroit know that I'm the old cuss that helped to get it through," he shouted. "The more people that know it the better it will suit me."

The commission will get right to work. It is not believed that there will be any haggling as to price. Mr. Johnson and Governor Pingree have agreed that the price shall be such a figure as will cover the visible assets of the companies together with the probable earnings, based upon the natural increase of population and figured on the average life of the present franchises, 17 years. One member of the commission, who would not allow his name to be used, estimated that the price would be between \$7,000,000 and \$10,000,000.

When the price has been agreed upon, the commission will go to the aldermen for a franchise, not for the purpose of getting permission to operate the roads, as this is not needed, but in order to have some security for the present bondholders.

It will be as if a man bought a lot under mortgage—that mortgage would also stand against the house to be erected on the lot. Should the city fail of operation, then upon this franchise would the bondholders operate.

There will be no marked change in the method of operation as now in force. The present rates of fare will be continued for a time, and then will come a gradual reduction until 3 cent fares prevail. A civil service examination will be installed for employees so as to eliminate politics from the operation of the road.—New York Journal

ANTI-QUAYITES TO MEET.

Will Hold a Conference Tuesday Morning—They Voted For Wells on Joint Ballot.

HARRISBURG, April 15.—The anti-Quay Republicans voted for Calvin Wells, the Pittsburg ironmaster and owner of the Philadelphia Press at the ballot for United States senator.

Mr. Wells likely will also be voted for today and Monday by the anti-Quayites. There probably will be no material change in the senatorial deadlock until after the conference of the Quay Republicans on Monday evening to consider the proposition of the anti-Quay Republicans for the appointment of a committee of conference on the part of the Quayites to confer with a like committee on the part of the anti-Quayites with a view of adjusting factional differences and the election of a senator.

A meeting of the anti-Quayites will be held on Tuesday morning to take action on the decision of the Quay conference. The ballot Friday was the seventy-fifth of the joint convention. The vote was: Quay, 86; Jenks, 66; Wells, 50; total vote, 202; necessary to a choice, 103; paired or not voting, 51; no election.

A paper was being circulated among the Republican senators and members who are voting for Senator Quay for a general conference of Republican legislators in the hall of the house of representatives next Monday evening, to discuss the senatorial situation. This meeting will be held after the conference called by Senator John C. Grady, chairman of the joint Republican caucus which nominated Mr. Quay, to be held at 7 o'clock on Monday evening in the supreme court chamber.

STATEMENTS ON SAMOA.

Interpellations Officially Answered In the German Reichstag and English House of Commons.

BERLIN, April 15.—An interpellation in the reichstag, which was signed by a majority of the centre, reichspartei, conservatives and national liberals, asked the government for information regarding the events in Samoa and also requested information regarding the measures taken or to be taken by the government under the circumstances.

The foreign minister, in his reply, emphasized Germany's adherence to the Samoan act, the rearrangement of which, he declared, was desirable to the government.

Continuing, the minister said the government knew nothing of the conflicts said to have taken place between the American Admiral Kautz and the commander of the Falke.

Finally the minister announced that Great Britain had agreed to the German proposals to dispatch a commission to Samoa, adding that Germany would only accept a settlement which would leave German rights and interests unimpaired. He regarded the uncurtailed maintenance of her treaty rights as a matter of national honor.

LONDON, April 15.—The parliamentary secretary of foreign affairs, William St. John Broderick, replying in the house of commons said information had reached the foreign office that fighting had been proceeding between rival parties in Samoa and that the British and American authorities had found it necessary to interfere to restore order. Arrangements, he added, had been made by the three governments to send a commission with full powers to act for the restoration of order and to take steps for the future government of the islands.

Mr. Broderick also said the commission would leave for Samoa as early as possible.

Agreement on Samoa.

WASHINGTON, April 15.—After hearing from the British and German embassies the state department was enabled to announce positively and finally that the three parties to the Berlin treaty had agreed upon the instructions to be given their Samoan commissioners, and that it was certain that the commission would leave San Francisco on the 25th inst. for Samoa, on the Badger.

SOLDIERS TO COME HOME.

The Volunteers In the Philippines Soon Will Be Discharged.

WASHINGTON, April 15.—The war department will reply to the telegram of Governor Lee of South Dakota to President McKinley, asking for the immediate muster out and return of the South Dakota troops in the Philippines, that the troops will be brought home as soon as deemed expedient by the United States and as soon as possible with the transports at hand.

An official in the war department said that the matter was in the hands of General Otis, and it would be satisfactorily arranged by him and the volunteers in the islands. Already those who desired to leave because of pressing business needs, or because the support of their families depended upon their return were being discharged.

President to Make a Western Trip.

CHICAGO, April 15.—United States Senator Thomas H. Carter of Montana, ex-chairman of the national Republican central committee, was at the Auditorium Annex, while enroute to Butte, from Washington. He said President McKinley was going to make a tour of the western states during the month of July. Accompanied by Mrs. McKinley and a considerable number of intimate official associates, he will leave Washington about July 15.

PINGREE'S GREAT FIGHT

His Plan to Municipalize Detroit's Street Railways.

WHAT THE GOVERNOR LOOKS FOR.

With No Watered Stock on Which to Pay Dividends, He Expects Detroit to Give 3 Cent Fares on All Railroads—History of the Fight—Provisions of the Law.

Governor Pingree in a recent interview on the fight for municipal ownership of street railways in Detroit said: "We will have 3 cent fares without a question. With no watered stock to be cared for and only legitimate expenses to pay there can be no possible doubt as to success in the end. It is a great victory for the people, the greatest fight of my life."

Within the next six months, probably

within the next three, Detroit will be operating her own street railways. With the accomplishment of this there

will have been won the first great battle in the fight for municipal control of quasi public institutions. Through the efforts of Governor Pingree, beginning when he was first elected mayor of Detroit, this has been brought about, and now, with every step taken except the final consummation of the fact, Detroit finds itself situated as no other city has been situated. Not a single stone is in

the way of closing up the deal. Both the city and three street car companies are ready and willing to come to terms.

Up to the time of the introduction of the McLeod bill in the legislature, the passage of which paved the way for the opening of negotiations, the situation was this. The several franchises of the street railways ran from 10 to nearly 30 years, averaging 17 years. Through the constant efforts of Governor Pingree the citizens had come to the conclusion that municipal control of the tracks, if not municipal operation of the cars, would be the proper thing.

Efforts of the street railway companies, all of which gradually came under the control of Tom L. Johnson and R. T. Wilson of New York, to secure a blanket franchise covering all roads proved futile unless the companies would agree to 3 cent fares, interchangeable transfers and a short term

GOVERNOR H. S. PINGREE.

franchise. These terms the railways would not accept, partly because of the baneful effect such conditions would have on private operation of roads in other cities; hence Messrs. Wilson and Johnson began to look about for some way of getting out of their predicament on the safe financial side.

Indeed Mr. Wilson felt in any but friendly terms with Mr. Johnson, because the latter had invested his money under the belief that a satisfactory franchise could be obtained whereby several millions of bonds locked up in Mr. Wilson's safe could be taken from their strong box and sold on the market. These bonds are still there. It was to Tom L. Johnson, then, that Mr. Wilson looked for relief. Mr. Johnson himself was rapidly changing some of his political beliefs, or at least he had begun to publicly express political beliefs that he had kept dormant in his mind. One of these beliefs was that the public might with a good deal of reason operate its own street cars, as well as its own electric light plants. He had gradually begun to dispose of his interests in corporations, and the thought came to him, why not experiment in Detroit? There the people were anxious to control the car tracks, and because of this Mr. Johnson was enabled to see a brilliant future for the money he had invested there. The time and the occasion were propitious.

From Mr. Wilson Mr. Johnson got full and ample powers to carry on the negotiations with Detroit, not through the mayor and the council, but with a man who by force of his personality and the absolute public faith in his honesty wielded more power than the mayor and the council combined. Governor Pingree. Mr. Johnson's authority from Mr. Wilson contained the double limitation that the money invested should be made safe, and that negotiations should be closed within a certain period, popularly supposed to be within six months.

In response to a long distance telephone message Governor Pingree has

gone to Cleveland, where Mr. Johnson made known the general terms by which Detroit could get that for which Governor Pingree had so long fought, municipal ownership of its street railways. From Cleveland the two went to New York, where Mr. Wilson was seen. Then some Detroit attorneys, among them Elliott G. Stevenson, now one of the commissioners, were hastily called to New York, where an enabling act was drawn up and which later was introduced under the name of the McLeod bill in the Michigan legislature.

Mr. Wilson absolutely refused to have a referendum clause attached to the bill and this point Governor Pingree was forced to concede. The bill underwent considerable modifications before it became a law. As finally signed, the McLeod law "authorizes the appointment by a majority of the common council, at any time within 20 years, of the Detroit street railway commission, of three commissioners, appointed for two, four and six years respectively, their successors to be appointed by the common council on nomination of the mayor for six year terms."

It makes aldermen ineligible to appointment.

It compels each commissioner to give a \$250,000 surety bond for the faithful performance of duty.

Makes the city treasurer custodian of all the commissioners' money.

Gives the commission power to acquire, in its discretion, on any terms it deems advisable, by purchase, lease or otherwise, any street railway, wholly or partly in Detroit, including all unused franchises and make needed extensions or improvements.

Empowers the commission to operate roads so acquired for carrying both passengers and freight and manage them as it would a private business.

Prohibits the commission from incurring any debt on behalf of the city, except it be chargeable solely to the railway properties controlled.

Limits the maximum of fares to be charged to present fares of the Citizens' Street Railway company.

Authorized the commission to contract with other railway lines for interchange of tickets, transfers, use of tracks and for operation of cars.

Gives the council power to examine the commissioners' books and accounts at any time, and compels the comptroller to do so once in three months.

Makes all liability for damage or other legal suits arising from the street car business lie against the commission and the property it controls solely.

Prohibits the commission from granting or extending any franchise.

Specifies that in case of the reversion of street railway property to those from whom it was purchased, "no franchise or franchise extension beyond the life of the existing franchise at the time of purchase shall be implied or granted under the provisions of this act."

The commission has been appointed, but only after a hot fight. Pingree's strong personality proved too much for the opposition. The only concession he made was that no definite bargain should be made until the common council had a chance to approve of the terms. In his speech to the council Governor Pingree said:

"I am satisfied that two-thirds of the people of the city want municipal ownership. The proportion is not any greater than in other cities in the United States. I thought I was doing the people a favor when I interested myself to bring this thing about. I will say to you that I never felt so good in my life as when I found out that the owners of the roads would sell and not ask the city to assume anything. I considered it a bigger thing than I would if the people of the state had offered to let me be governor all the rest of my life."

The governor declared for flat 3 cent fares and told of the danger of delay, because the other parties to the deal might shift. He declared that the bill in all its main features had been before the legislature for 59 days. "And I'm willing to have everybody in the city of Detroit know that I'm the old cuss that helped to get it through," he shouted. "The more people that know it the better it will suit me."

The commission will get right to work. It is not believed that there will be any haggling as to price. Mr. Johnson and Governor Pingree have agreed that the price shall be such a figure as will cover the visible assets of the companies together with the probable earnings, based upon the natural increase of population and figured on the average life of the present franchises, 17 years. One member of the commission, who would not allow his name to be used, estimated that the price would be between \$7,000,000 and \$10,000,000.

When the price has been agreed upon, the commission will go to the aldermen for a franchise, not for the purpose of getting permission to operate the roads, as this is not needed, but in order to have some security for the present bondholders. It will be as if a man bought a lot under mortgage—that mortgage would also stand against the house to be erected on the lot. Should the city fail of operation, then upon this franchise would the bondholders operate.

There will be no marked change in the method of operation as now in force. The present rates of fare will be continued for a time, and then will come a gradual reduction until 3 cent fares prevail. A civil service examination will be installed for employees so as to eliminate politics from the operation of the road.—New York Journal.

ANTI-QUAYITES TO MEET.

Will Hold a Conference Tuesday Morning—They Voted For Wells on Joint Ballot.

HARRISBURG, April 15.—The anti-Quay Republicans voted for Calvin Wells, the Pittsburgh ironmaster and owner of the Philadelphia Press at the ballot for United States senator.

Mr. Wells likely will also be voted for today and Monday by the anti-Quayites. There probably will be no material change in the senatorial deadlock until after the conference of the Quay Republicans on Monday evening to consider the proposition of the anti-Quay Republicans for the appointment of a committee of conference on the part of the Quayites to confer with a like committee on the part of the anti-Quayites with a view of adjusting factional differences and the election of a senator.

A meeting of the anti-Quayites will be held on Tuesday morning to take action on the decision of the Quay conference. The ballot Friday was the seventy-fifth of the joint convention. The vote was: Quay, 86; Jenks, 66; Wells, 50; total vote, 202; necessary to a choice, 103; paired or not voting, 51; no election.

A paper was being circulated among the Republican senators and members who are voting for Senator Quay for a general conference of Republican legislators in the hall of the house of representatives next Monday evening, to discuss the senatorial situation. This meeting will be held after the conference called by Senator John C. Grady, chairman of the joint Republican caucus which nominated Mr. Quay, to be held at 7 o'clock on Monday evening in the supreme court chamber.

PINGREE'S GREAT FIGHT

His Plan to Municipalize Detroit's Street Railways.

WHAT THE GOVERNOR LOOKS FOR.

With No Watered Stock on Which to Pay Dividends, He Expects Detroit to Give 3 Cent Fares on All Railroads—History of the Fight—Provisions of the Law.

Governor Pingree in a recent interview on the fight for municipal ownership of street railways in Detroit said: "We will have 3 cent fares without a question. With no watered stock to be cared for and only legitimate expenses to pay there can be no possible doubt as to success in the end. It is a great victory for the people, the greatest fight of my life."

Within the next six months, probably within the next three, Detroit will be operating her own street railways. With the accomplishment of this there will have been won the first great battle in the fight for municipal control of quasi public institutions. Through the efforts of Governor Pingree, beginning when he was first elected mayor of Detroit, this has been brought about, and now, with every step taken except the final consummation of the fact, Detroit finds itself situated as no other city has been situated. Not a single stone is in the way of closing up the deal. Both the city and three street car companies are ready and willing to come to terms.

Up to the time of the introduction of the McLeod bill in the legislature, the passage of which measure paved the way for the opening of negotiations, the situation was this. The several franchises of the street railways ran from 10 to nearly 30 years, averaging 17 years. Through the constant efforts of Governor Pingree the citizens had come to the conclusion that municipal control of the tracks, if not municipal operation of the cars, would be the proper thing.

Efforts of the street railway companies, all of which gradually came under the control of Tom L. Johnson and R. T. Wilson of New York, to secure a blanket franchise covering all roads proved futile unless the companies would agree to 3 cent fares, interchangeable transfers and a short term

GOVERNOR H. S. PINGREE.

franchise. These terms the railways would not accept, partly because of the baneful effect such conditions would have on private operation of roads in other cities; hence Messrs. Wilson and Johnson began to look about for some way of getting out of their predicament on the safe financial side.

Indeed Mr. Wilson felt in any but friendly terms with Mr. Johnson, because the latter had invested his money under the belief that a satisfactory franchise could be obtained whereby several millions of bonds locked up in Mr. Wilson's safe could be taken from their strong box and sold on the market. These bonds are still there. It was to Tom L. Johnson, then, that Mr. Wilson looked for relief. Mr. Johnson himself was rapidly changing some of his political beliefs, or at least he had begun to publicly express political beliefs that he had kept dormant in his mind. One of these beliefs was that the public might with a good deal of reason operate its own street cars, as well as its own electric light plants. He had gradually begun to dispose of his interests in corporations, and the thought came to him, why not experiment in Detroit? There the people were anxious to control the car tracks, and because of this Mr. Johnson was enabled to see a brilliant future for the money he had invested there. The time and the occasion were propitious.

From Mr. Wilson Mr. Johnson got full and ample powers to carry on the negotiations with Detroit, not through the mayor and the council, but with a man who by force of his personality and the absolute public faith in his honesty wielded more power than the mayor and the council combined. Governor Pingree. Mr. Johnson's authority from Mr. Wilson contained the double limitation that the money invested should be made safe, and that negotiations should be closed within a certain period, popularly supposed to be within six months.

In response to a long distance telephone message Governor Pingree has

vened to Cleveland, where Mr. Johnson made known the general terms by which Detroit could get that for which Governor Pingree had so long fought, municipal ownership of its street railways. From Cleveland the two went to New York, where Mr. Wilson was seen. Then some Detroit attorneys, among them Elliott G. Stevenson, now one of the commissioners, were hastily called to New York, where an enabling act was drawn up and which later was introduced under the name of the McLeod bill in the Michigan legislature.

Mr. Wilson absolutely refused to have a referendum clause attached to the bill and this point Governor Pingree was forced to concede. The bill underwent considerable modifications before it became a law. As finally signed, the McLeod law authorizes the appointment by a majority of the common council, at any time within 20 years, of the Detroit street railway commission, of three commissioners, appointed for two, four and six years respectively, their successors to be appointed by the common council on nomination of the mayor for six year terms.

It makes aldermen ineligible to appointment.

It compels each commissioner to give a \$250,000 surety bond for the faithful performance of duty.

Makes the city treasurer custodian of all the commissioners' money.

Gives the commission power to acquire, in its discretion, on any terms it deems advisable, by purchase, lease or otherwise, any street railway, wholly or partly in Detroit, including all unused franchises, and make needed extensions or improvements.

Empowers the commission to operate roads so acquired for carrying both passengers and freight and manage them as it would a private business.

Prohibits the commission from incurring any debt on behalf of the city, except it be chargeable solely to the railway properties controlled.

Limits the maximum of fares to be charged to present fares of the Citizens' Street Railway company.

Authorizes the commission to contract with other railway lines for interchange of tickets, transfers, use of tracks and for operation of cars.

Gives the council power to examine the commissioners' books and accounts at any time, and compels the comptroller to do so once in three months.

Makes all liability for damage or other legal suits arising from the street car business lie against the commission and the property it controls solely.

Prohibits the commission from granting or extending any franchise.

Specifies that in case of the reversion of street railway property to those from whom it was purchased, "no franchise or franchise extension beyond the life of the existing franchise at the time of purchase shall be implied or granted under the provisions of this act."

The commission has been appointed, but only after a hot fight. Pingree's strong personality proved too much for the opposition. The only concession he made was that no definite bargain should be made until the common council had a chance to approve of the terms. In his speech to the council Governor Pingree said:

"I am satisfied that two-thirds of the people of the city want municipal ownership. The proportion is not any greater than in other cities in the United States. I thought I was doing the people a favor when I interested myself to bring this thing about. I will say to you that I never felt so good in my life as when I found out that the owners of the roads would sell and not ask the city to assume anything. I considered it a bigger thing than I would if the people of the state had offered to let me be governor all the rest of my life."

The governor declared for flat 3 cent fares and told of the danger of delay because the other parties to the deal might shift. He declared that the bill in all its main features had been before the legislature for 59 days. "And I'm willing to have everybody in the city of Detroit know that I'm the old cuss that helped to get it through," he shouted. "The more people that know it the better it will suit me."

The commission will get right to work. It is not believed that there will be any haggling as to price. Mr. Johnson and Governor Pingree have agreed that the price shall be such a figure as will cover the visible assets of the companies together with the probable earnings, based upon the natural increase of population and figured on the average life of the present franchises, 17 years. One member of the commission, who would not allow his name to be used, estimated that the price would be between \$7,000,000 and \$10,000,000.

When the price has been agreed upon, the commission will go to the aldermen for a franchise, not for the purpose of getting permission to operate the roads, as this is not needed, but in order to have some security for the present bondholders. It will be as if a man bought a lot under mortgage—that mortgage would also stand against the house to be erected on the lot. Should the city fail of operation, then upon this franchise would the bondholders operate.

There will be no marked change in the method of operation as now in force. The present rates of fare will be continued for a time, and then will come a gradual reduction until 3 cent fares prevail. A civil service examination will be installed for employees so as to eliminate politics from the operation of the road.—New York Journal.

ANTI-QUAYITES TO MEET.

Will Hold a Conference Tuesday Morning—They Voted For Wells on Joint Ballot.

HARRISBURG, April 15.—The anti-Quay Republicans voted for Calvin Wells, the Pittsburg ironmaster and owner of the Philadelphia Press at the ballot for United States senator.

Mr. Wells likely will also be voted for today and Monday by the anti-Quayites. There probably will be no material change in the senatorial deadlock until after the conference of the Quay Republicans on Monday evening to consider the proposition of the anti-Quay Republicans for the appointment of a committee of conference on the part of the Quayites to confer with a like committee on the part of the anti-Quayites with a view of adjusting factional differences and the election of a senator.

A meeting of the anti-Quayites will be held on Tuesday morning to take action on the decision of the Quay conference. The ballot Friday was the seven-tenths of the joint convention. The vote was: Quay, 86; Jenks, 66; Wells, 50; total vote, 202; necessary to a choice, 103; paired or not voting, 51; no election.

A paper was being circulated among the Republican senators and members who are voting for Senator Quay for a general conference of Republican legislators in the hall of the house of representatives next Monday evening, to discuss the senatorial situation. This meeting will be held after the conference called by Senator John C. Grady, chairman of the joint Republican caucus which nominated Mr. Quay, to be held at 7 o'clock on Monday evening in the supreme court chamber.

STATEMENTS ON SAMOA.

Interpellations Officially Answered In the German Reichstag and English House of Commons.

BERLIN, April 15.—An interpellation in the reichstag, which was signed by a majority of the centre, reichspartei, conservatives and national liberals, asked the government for information regarding the events in Samoa and also requested information regarding the measures taken or to be taken by the government under the circumstances.

The foreign minister, in his reply, emphasized Germany's adherence to the Samoan act, the rearrangement of which, he declared, was desirable to the government.

Continuing, the minister said the government knew nothing of the conflicts said to have taken place between the American Admiral Kautz and the commander of the Falke.

Finally the minister announced that Great Britain had agreed to the German proposals to dispatch a commission to Samoa, adding that Germany would only accept a settlement which would leave German rights and interests unimpaired. He regarded the uncurtailed maintenance of her treaty rights as a matter of national honor.

LONDON, April 15.—The parliamentary secretary of foreign affairs, William St. John Broderick, replying in the house of commons said information had reached the foreign office that fighting had been proceeding between rival parties in Samoa and that the British and American authorities had found it necessary to interfere to restore order. Arrangements, he added, had been made by the three governments to send a commission with full powers to act for the restoration of order and to take steps for the future government of the islands.

Mr. Broderick also said the commission would leave for Samoa as early as possible.

Agreement on Samoa.

WASHINGTON, April 15.—After hearing from the British and German embassies the state department was enabled to announce positively and finally that the three parties to the Berlin treaty had agreed upon the instructions to be given their Samoan commissioners, and that it was certain that the commission would leave San Francisco on the 25th inst. for Samoa, on the Badger.

SOLDIERS TO COME HOME.

The Volunteers In the Philippines Soon Will Be Discharged.

WASHINGTON, April 15.—The war department will reply to the telegram of Governor Lee of South Dakota to President McKinley, asking for the immediate muster out and return of the South Dakota troops in the Philippines, that the troops will be brought home as soon as deemed expedient by the United States and as soon as possible with the transports at hand.

An official in the war department said that the matter was in the hands of General Otis, and it would be satisfactorily arranged by him and the volunteers in the islands. Already those who desired to leave because of pressing business needs, or because the support of their families depended upon their return were being discharged.

President to Make a Western Trip.

CHICAGO, April 15.—United States Senator Thomas H. Carter of Montana, ex-chairman of the national Republican central committee, was at the Auditorium Annex, while enroute to Butte, from Washington. He said President McKinley was going to make a tour of the western states during the month of July. Accompanied by Mrs. McKinley and a considerable number of intimate official associates, he will leave Washington about July 15.

Ocean Too Deep For Wading.

Aguinaldo will not capture Manila as promised. He can't get around the world the other way in time.—Cleveland Leader.

BUSINESS MEN!

The circulation of the NEWS REVIEW is increasing daily. We leave no stone unturned to please our advertisers and subscribers. Our paper daily goes to the most remote parts of the city. We do not fear to advocate any cause which has the solid Rock of Truth and Right as its foundation stone.

HARRY PALMER,
Owner and Manager.

LOCAL BREVIETIES.

Doctor Rhodes, of Ravenswood, is in the city the guest of Doctor Shumaker.

Miss Sara Hodgson, of Norton street, is confined to her home by serious illness.

A Pullman sleeper, Fidellia, was attached to the early Cleveland train this morning.

Robert Starkey, a checkman at the freight depot, was off duty today on account of illness.

A number of the employees of the Thomas machine shops spent yesterday fishing at Beaver creek.

John Shrader was in Pittsburg today attending to some matters pertaining to the Virginia street car line.

Trustee Thomas Lloyd left this morning for New Cumberland where he spent the day on business.

This morning a lot of house moving material was taken to Wellsville by the street car line from this city.

Miss Cooley, of Salem, who has been spending several days in the city visiting friends, returned to her home at noon today.

The Women's Good Citizenship union will hold an important meeting Monday evening at 7:30 o'clock. A full attendance is desired.

William F. Steele will leave tomorrow night for a western trip in the interest of the G. F. Brunt porcelain works. He will be absent 10 days.

The board of trustees of the Methodist Protestant church will hold an important meeting in the lecture room of the church Monday evening.

The new record books recently received at the fire station are now being used. Not many entries have been made as yet in either of the books.

The funeral of John J. McGinnis will take place Monday morning at 9 o'clock from St. Aloysius church. Interment will be made at St. Aloysius cemetery.

The basketball game at the Young Men's Christian association last night between the All Star and Beaver teams, was won by the All Star team by a score of 22 to 8.

Samuel Bye, ex-county commissioner, was in the city yesterday afternoon attending to some personal business. He returned to his home in Lisbon this morning.

The Junior Mechanics will this evening hold their last dance of the season. Members and their friends are invited, and it is expected an enjoyable time will be spent.

Yesterday 18 pigeons were sent to Toronto. They were liberated by the agent of that place at 9:34, and the majority of the number returned to their lofts before noon.

Alex Johnson, of East End, who has been in Salineville during the week superintending the work at the plant of the Ohio Clay Brick company, returned to the city last evening.

Brakeman John Glessner, of the Belaire and Pittsburg accommodation train, was off duty today on account of illness. His place was filled by Extra Brakeman C. E. Williams, of Wellsville.

The sagarmakers at their next regular meeting, to be held April 26, will transact business of importance. They will also take a vote as to where the next Brotherhood convention shall be held.

Harvey B. and William J. Brady, of St. Louis, spent the week in the city attending to some matters connected with an estate that is being settled. The property is located on the Virginia side, back of Chester.

The United States pottery at Wellsville will commence to make ware just as soon as the water mains are extended to the plant. All preparations have been made, and it is expected the plant will be in operation within one week.

THE BOSTON STORE.

TAILOR MADE SUITS.

Forty new ones received the past two days. Judging from the rate of selling Saturday and Monday, these will not stay with us long. All silk lined Suits at \$15.00, \$20.00, \$25.00 and \$35.00. All silk lined Jackets and percale lined Skirts at from \$5.00 to \$15.00 a suit. You want to see these.

SEPARATE SKIRTS.

Never have we shown such a line of Separate Skirts as at the present time. We have been adding some strong numbers to the line lately. We want the privilege of showing you

Our Special Black Crepon Skirt

Ruffled in Ribbon, at \$5.00.

She is a daisy. The price range of Skirts is \$1.50 to \$15.00, with all between prices, and they come in cheviot, crepon, serge, mohair and covert cloths.

Silk Waist Patterns.

If you want a ready made Silk Waist, in black or colors, we can furnish you either at any price between \$2.50 and \$10.00, but what we want to call your attention to now is our immense assortment of Exclusive Silk Waist Patterns, 4 yards in each pattern and not any two alike. Over 100 different patterns to select from. Priced at from \$4.00 to \$6.50 a pattern.

Black Crepons.

The sale on this popular fabric has been surprisingly large this season, and no wonder, when you consider the values that are being shown here. The qualities are rich and the styles are striking. They are priced at \$1.00, \$1.50, \$2.00, \$2.25, \$2.50, \$3.50 and \$4.00 a yard.

.Lace Curtains and Draperies.

House cleaning time is here, and you will need from 1 to 6 pairs of Curtains to "fix up" with. To buy Curtains without seeing the line we are showing is an injustice to yourself. We have doubled our stock; doubled our Curtain room space, and can show you a line of Lace and Portier Curtains second to none. Prices range from 35c a pair to \$12.50 a pair. A choice assortment of Lace Curtain Ends at 50c, 75c and \$1.00 each.

AFTER DELINQUENTS.

Receiver Cameron Continues to Enter Suits.

LISBON, April 15.—[Special]—I. B. Cameron, as receiver for First National bank, filed three petitions this morning pertaining to the settlement of the bank's affairs.

In one petition the receiver asks for a judgement of \$3,400 against Mary Ann Benner. Mrs. Benner is a stockholder of the bank, holding 34 shares of stock at \$100 a share. She has not paid the assessment as directed by the comptroller of currency.

In a petition the receiver asks judgement of \$500 against Julia A. Burns. She owns five shares of stock and has not paid the assessment as directed.

In a third petition he brings action against Mary A. Patterson for \$2,000, she owning 20 shares of stock in the bank and not having paid the assessment as directed.

The receiver asks for interest in all of these sums from February 9, at 6 per cent.

A Kansas Girl In the Trenches.

Here is an extract from a letter written by W. S. Cooper, an Ottawa (Kan.) boy with the Twentieth Kansas at Manila, which testifies not only to the bravery of a Kansas girl, but also distantly to a romance.

"Our lady nurse was with us in the trenches that night. She sat right next to me, and every time I took a shot she had another cartridge ready for me. They shot closer than they ever did before, and the bullets were just nipping over our heads."

PERSONAL MENTION.

—Mrs. C. E. Kahler, of Columbus, is a guest at the home of Mr. and Mrs. John Sellers.

—Mrs. C. C. Thompson and family left today for Cambridge Springs, Pa., where they will spend a few weeks.

—Mrs. J. D. West, who has been spending the week in Steubenville with friends, returned to the city last evening.

—Rev. S. C. George left this morning for Mingo where he spent the day looking after some property in which he is interested.

Kapiolani Very Ill.

SAN FRANCISCO, April 15.—Honolulu advices of April 5 say: "The ex-Queen Dowager Kapiolani is seriously ill. She had another stroke of apoplexy about a week since. Prince Cupid Kalanianole returned from Kona in the steamer Mauna Loa on April 4, having been summoned to hasten to the bedside of his aunt. The physicians are hopeful, but the case is a desperate one."

Morphy Must Go Back.

KANSAS CITY, April 15.—United States Commissioner Nuckles decided that Santiago Morphy, charged with embezzling \$10,000 from the National bank of the City of Mexico, should be turned over to the Mexican officials who came after him.

Catholic Church at West Point.

WASHINGTON, April 15.—Acting Secretary Meiklejohn issued a license granting the Catholic church authority to build a church upon the West Point military reservation. The license, which will be delivered to Archbishop Corrigan, was authorized by legislation, the bill providing for it causing considerable contention in congress before it passed.

Schley's New Place.

WASHINGTON, April 15.—Rear Admiral W. S. Schley, who has been on waiting orders since relieved of the command of the flying squadron, was assigned to duty as a member of the naval examining board in this city.

More Deputies to Protect Cars.

WHEELING, April 15.—Attorney General Griggs at Washington authorized the appointment of additional special deputy marshals to assist the 12 deputies already here to enforce Judge Jackson's injunction enjoining any interference with the operation of the lines of the Wheeling Railway company.

First Degree Murder Verdict.

EARLON, Pa., April 15.—The jury in the case of Llewellyn Stout, whose trial for the murder of Harvey Wuster, the Philadelphia and Reading railroad telegraph operator at Bingen station, returned a verdict of murder in the first degree after being out three hours.

Charles Dudley Warner Better.

NEW ORLEANS, April 15.—Charles Dudley Warner, who is ill with pneumonia, continued to improve. His wife and Charles H. Clark of Hartford are with him. The physicians are hopeful of his recovery. Mr. Clark said that no danger was apprehended at this time.

PHOENIX MUTUAL

Life Insurance Company
of Hartford, Conn.

Would call your Special Attention to their

Endowment Plan

which has been modernized and thus made more attractive than ever. Policies on this plan call for the full payment of the amount insured at the end of 10, 15, 20, 25 or 30 years, as one may elect at the time of insuring and should death occur previous to the maturity of the policy, the full amount is payable to the beneficiary designated. This plan of the "OLD PHOENIX" has been before the public for upwards of forty years and fully repudiates the ancient idea that it is necessary "to die to win." It will be noted that this plan is especially designed to furnish reliable short term investments, with insurance added without cost. For further information call on

HARRY PALMER,
Owner and Manager.

LOCAL BREVIETIES.

Doctor Rhodes, of Ravenswood, is in the city the guest of Doctor Shumaker.

Miss Sara Hodgson, of Norton street, is confined to her home by serious illness.

A Pullman sleeper, Fidellia, was attached to the early Cleveland train this morning.

Robert Starkey, a checkman at the freight depot, was off duty today on account of illness.

A number of the employees of the Thomas machine shops spent yesterday fishing at Beaver creek.

John Shrader was in Pittsburg today attending to some matters pertaining to the Virginia street car line.

Trustee Thomas Lloyd left this morning for New Cumberland where he spent the day on business.

This morning a lot of house moving material was taken to Wellsville by the street car line from this city.

Miss Cooley, of Salem, who has been spending several days in the city visiting friends, returned to her home at noon today.

The Women's Good Citizenship union will hold an important meeting Monday evening at 7:30 o'clock. A full attendance is desired.

William F. Steele will leave tomorrow night for a western trip in the interest of the G. F. Brunt porcelain works. He will be absent 10 days.

The board of trustees of the Methodist Protestant church will hold an important meeting in the lecture room of the church Monday evening.

The new record books recently received at the fire station are now being used. Not many entries have been made as yet in either of the books.

The funeral of John J. McGinnis will take place Monday morning at 9 o'clock from St. Aloysius church. Interment will be made at St. Aloysius cemetery.

The basketball game at the Young Men's Christian association last night between the All Star and Beaver teams, was won by the All Star team by a score of 22 to 8.

Samuel Bye, ex-county commissioner, was in the city yesterday afternoon attending to some personal business. He returned to his home in Lisbon this morning.

The Junior Mechanics will this evening hold their last dance of the season. Members and their friends are invited, and it is expected an enjoyable time will be spent.

Yesterday 18 pigeons were sent to Toronto. They were liberated by the agent of that place at 9:34, and the majority of the number returned to their doves before noon.

Alex Johnson, of East End, who has been in Salineville during the week superintending the work at the plant of the Ohio Clay Brick company, returned to the city last evening.

Brakeman John Glessner, of the Belaire and Pittsburgh accommodation train, was off duty today on account of illness. His place was filled by Extra Brakeman C. E. Williams, of Wellsville.

The saggarmakers at their next regular meeting, to be held April 26, will transact business of importance. They will also take a vote as to where the next Brotherhood convention shall be held.

Harvey B. and William J. Brady, of St. Louis, spent the week in the city attending to some matters connected with an estate that is being settled. The property is located on the Virginia side, back of Chester.

The United States pottery at Wellsville will commence to make ware just as soon as the water mains are extended to the plant. All preparations have been made, and it is expected the plant will be in operation within one week.

THE BOSTON STORE.

TAILOR MADE SUITS.

Forty new ones received the past two days. Judging from the rate of selling Saturday and Monday, these will not stay with us long. All silk lined Suits at \$15.00, \$20.00, \$25.00 and \$35.00. All silk lined Jackets and perealine lined Skirts at from \$5.00 to \$15.00 a suit. You want to see these.

SEPARATE SKIRTS.

Never have we shown such a line of Separate Skirts as at the present time. We have been adding some strong numbers to the line lately. We want the privilege of showing you

Our Special Black Crepon Skirt

Ruffled in Ribbon, at \$5.00.

She is a daisy. The price range of Skirts is \$1.50 to \$15.00, with all between prices, and they come in cheviot, crepon, serge, mohair and covert cloths.

Silk Waist Patterns.

If you want a ready made Silk Waist, in black or colors, we can furnish you either at any price between \$2.50 and \$10.00, but what we want to call your attention to now is our immense assortment of Exclusive Silk Waist Patterns, 4 yards in each pattern and not any two alike. Over 100 different patterns to select from. Priced at from \$4.00 to \$6.50 a pattern.

Black Crepons.

The sale on this popular fabric has been surprisingly large this season, and no wonder, when you consider the values that are being shown here. The qualities are rich and the styles are striking. They are priced at \$1.00, \$1.50, \$2.00, \$2.25, \$2.50, \$3.50 and \$4.00 a yard.

Lace Curtains and Draperies.

House cleaning time is here, and you will need from 1 to 6 pairs of Curtains to "fix up" with. To buy Curtains without seeing the line we are showing is an injustice to yourself. We have doubled our stock; doubled our Curtain room space, and can show you a line of Lace and Portier Curtains second to none. Prices range from 35c a pair to \$12.50 a pair. A choice assortment of Lace Curtain Ends at 50c, 75c and \$1.00 each.

Ruffled Curtains. Your special attention is called to our line of Ruffled Curtains at 65c, 75c, \$1.50 and up to \$5.00 a pair.

Tapestries for Furniture Coverings. An elegant line of Denims, Jutes, Tapestries and Plushes with all between prices.

Sundries. Feather Pillows \$1.25 and \$1.50 a pair; Window Shades, 25c, 35c and 50c; Cottage Curtain Poles, two for 25c; Brass Rods, two for 25c; Furniture Gimp, 4c a yard; Furniture Cord, 10c a yard; Wall Paper Cleaner, 15c a box; Carpet Cleaner, 25c a box; Carpet Tacks, 5c a barrel. Our stock of Floor Oil Cloths, Linoleums, Shelf, Stair and Table Oil Cloths is now complete.

AFTER DELINQUENTS.

Receiver Cameron Continues to Enter Suits.

LISBON. April 15.—[Special]—I. B. Cameron, as receiver for First National bank, filed three petitions this morning pertaining to the settlement of the bank's affairs.

In one petition the receiver asks for a judgement of \$3,400 against Mary Ann Benner. Mrs. Benner is a stockholder of the bank, holding 34 shares of stock at \$100 a share. She has not paid the assessment as directed by the comptroller of currency.

In a petition the receiver asks judgement of \$500 against Julia A. Burns. She owns five shares of stock and has not paid the assessment as directed.

In a third petition he brings action against Mary A. Patterson for \$2,000, she owning 20 shares of stock in the bank and not having paid the assessment as directed.

The receiver asks for interest in all of these sums from February 9, at 6 per cent.

A Kansas Girl In the Trenches.

Here is an extract from a letter written by W. S. Cooper, an Ottawa (Kan.) boy with the Twentieth Kansas at Manila, which testifies not only to the bravery of a Kansas girl, but also distractingly to a romance. 14TH YEAR. NO. 262.

KEY TO BANK BOOKS.

Expert So Testified as to the Red Book.

QUAY'S ATTORNEYS FOUGHT HARD

Nevertheless District Attorney Rothermel Succeeded In Getting In the Testimony. Witness Said Accounts In Regular Books Were Incomplete.

PHILADELPHIA, April 15.—Persistent, keen and brilliant argument between District Attorney Rothermel on the one side, Messrs. Watson, Shapley and Shields on the other upon the admission of testimony which may go a long way to establish the alleged guilt of ex-United States Senator Quay was the feature of the trial of that distinguished defendant, and it culminated in a decided victory for the prosecution. The red book found in Cashier Hopkins' desk after his suicide, and upon the admission of which the commonwealth so largely rests its case, was the shaft the district attorney aimed at the defense. To pave the way for the final effort to introduce the book itself he succeeded, after frequent clashes with opposing counsel, sometimes bitter and personal, in presenting expert testimony to prove that the book was necessarily a book of the bank, as accounts in the books admitted under the court's ruling would be made intelligible by the red book.

Before starting his examination, Mr. Rothermel read to the court a statement of what he intended to serve. The expert, he said, had made a thorough examination of all the books in the case. He found that previous to April 30, 1891, the People's bank paid interest on the state deposits to the state treasurer, and that records of such payments were kept in a regular way on the books of the bank. After April 30, 1891, when Mr. Hopkins appeared on the scene, a new system was adopted. This entailed the addition of another book—now known as the red book—to the books theretofore kept by the bank.

Meyer Goldsmith, an expert accountant, was the witness upon which the commonwealth depended to accomplish its contention. During the whole course of the expert's examination, objection after objection was made by the defense and as frequently overruled by Judge Biddle, while the district attorney in logical sequence drew from the witness his conclusions as to the book, based upon a comparison of what was written on its pages with what appeared in the other books.

After it was all over, four hours of examination and cross-examination interspersed with argument, this much was sworn to by the witness. The accounts out of upwards of 1,000 in the regular books were incomplete and inaccurate unless explained by entries in the red book. One was an item for \$1,519 entered in the individual ledger to the credit of the person who received it. The witness was not permitted to designate the person by name. He found this item on the stub of the cashier's check book, but what it represented he could not say until he had examined the calculations in the red book.

Three privates and six children of privates died from pneumonia.

Dead Lieutenant From Cleveland.

CLEVELAND, April 15.—Lieutenant Ralph Meyer was the son of General E. S. Meyer, who served with distinction in the Civil war and is a prominent attorney of this city. Young Meyer was 21 years old. When the excitement over the war with Spain was at its height young Meyer enlisted with the company organized by the Cleveland Grays. Before he could join the command, however, he received his appointment as a lieutenant in the regular army. Lieutenant Meyer had a brother who was wounded at Santiago and for a time his life was despaired of.

ABOUT THE BEEF INQUIRY.

The Taking of Testimony Practically to Close This Week.

WASHINGTON, April 15.—The Wade court of inquiry decided to examine no more witnesses after the close of this week unless in exceptional cases where men expected were unavoidably delayed. General Miles will not be heard, it at all, until next week, but he will not be called except upon his own request. There are several witnesses still to be examined, but the court will expedite the close.

In accordance with this decision the court will not hear all the additional witnesses whose names have been suggested by General Miles. Some of them will, however, be called, and they will include Inspector General Breckinridge.

The witness Friday developed nothing specially new.

Barge Was Sunk.

LOUISVILLE, April 15.—The barge Videlia of Pittsburgh, while attempting to go over the falls, struck against a pier near the Indiana side of the Louisville bridge. The boat turned completely over, emptying her entire cargo, consisting of fine Russian iron, valued at about \$100,000, into 15 feet of water. The boat was valued at \$7,000. No one was injured.

Chinese Reformer Reached Vancouver

VANCOUVER, B. C., April 15.—Kang

man, has arrived here from Victoria, accompanied by a retinue of Chinese and Japanese sympathizers. From here Kang will proceed to London, which place he expects to make his home until at least a part of the reforms advocated by himself have been brought to pass in China.

ENEMY FLEE FROM LAWTON

sharpshooters Ran Into a Nest of Rebels. Five Americans Were Killed and Two Wounded.

MANILA, April 15.—(8:30 a. m.)—Starting in an eastern direction along the road to Pansanganan, a party of 60 sharpshooters, under Lieutenant Southern of the Washington regiment, came upon a trench across the road a mile out of Santa Cruz. Lieutenant Southern was wounded.

The Americans then advanced, with the mounted guns and the Fourteenth infantry battalions in the center, Jinek's battalion of the First Idaho infantry on the right and Fraine's battalion of the First North Dakota infantry on the left, both flanking. The trench was carried without loss to the Americans.

Pansanganan was found deserted.

MANILA, April 15.—General Lawton was marching north, along the road between the hills and the lake, with the gunboats Napitan and Laguna de Bay abreast of his troops. The enemy was retreating northward.

On Wednesday the troops crossed the Pansanganan and concentrated at Lamian, at the mouth of the river. After leaving two companies of the Fourteenth regiment to guard the entrance of the river the troops marched to Longas and found it deserted. Furniture which had been dropped in the night of the natives was scattered along the trails leading into the hills.

Major Weisenberger's sharpshooters were sent toward Pactos Ancontonia in the afternoon. They ran upon a nest of rebels in some thick bushes which afforded a splendid cover. Five men of the North Dakota regiment were killed and two were wounded, two of the former dying after having been brought to Longas church, where Father McKinnon administered the sacrament to them.

The main body of the American troops while at dinner in Longas heard the firing and advanced to the support of the sharpshooters. A scout, from a hill, saw the little fight and many white coats running into the hills. The Laguna de Bay, at the beginning of the fight shelled the hills, making them too hot for the enemy.

The Americans entered San Antonio at sunset without meeting with any resistance. Twenty unarmed prisoners, bearing copies of the proclamation of the United States Philippine commission, which they had somehow secured, were afterward released and sent outside our lines with bundles of proclamations to distribute.

The Fourth cavalry was guarding Santa Cruz.

The United States transport Sherman arrived here after a smooth passage.

On the night of April 11 Lieutenant Meyer disappeared from the ship. The weather was intensely hot and the lieutenant was sleeping on deck, and it is supposed that he fell overboard.

Three privates and six children of

privates died from pneumonia.

Memorial Exercises For Morrill.

COLUMBUS, April 15.—Memorial exercises in honor of the late Senator Justin S. Morrill of Vermont were held in the Ohio university chapel. Representative D. K. Watson of Columbus delivered the eulogy on the life, character and public services of the deceased senator. The Ohio State university is itself

EVIDENCE KEPT OUT.

Points Against the Prosecution In the Mrs. George Case.

SCRAPED CUTICLE NOT ADMITTED.

The Judge Decided It Was Not Legal to Take It Without Her Consent—Testimony as to a Threatening Letter Was Also Decided Against by the Court.

CANTON, April 15.—During the trial of Mrs. Anna George numerous threats by Mrs. George against the life of George D. Saxton were testified to by witnesses. Many of the statements were coupled with Mrs. George's story of the alleged wrongs to her at Saxton's hands, which she told the witnesses in connection with her threats.

An attempt of the prosecution to introduce a chemical analysis of the cuticle taken from Mrs. George's hand to show discoloration by powder smoke failed because the cuticle was scraped from her hands while she was under arrest, without her consent.

Another disappointment to the prosecution was the failure of a witness to satisfy the court that he was qualified to judge of Mrs. George's writing and thus identify a letter which it was sought to prove she had written.

Mrs. Mary Nauman related conversations of Mrs. George. In one the latter told of having kept Saxton from entering the Althouse home by pointing a pistol and making him come away with her. Mrs. George asked Saxton if he was ready to die then and said she could have killed him then, but wanted her husband, Mr. George, to get some of his money first. Witness also detailed other threats made by Mrs. George.

In cross-examining Mrs. Nauman the defense sought to have her relate Mrs. George's alleged grievances against Saxton. Witness insisted, however, that Mrs. George had never told her of the wrongs which she claimed Saxton inflicted upon her.

Mrs. Lettie McAllister detailed conversation with Mrs. George about a threat to kill Saxton, about the pistol incident at the Althouse home and the threatening letters. She related what Mrs. George said of her grievances against Saxton.

John L. Jackson, a colored janitor, testified that Mrs. George often came to him at the block where he worked and said to him she would kill Saxton if he did not settle with her and quit going with Mrs. Althouse.

Charles C. Lloyd and Perry Van Horn, reporters, testified to conversations with Mrs. George, in which she threatened the life of Saxton. They also had heard part of her grievance against Saxton.

Mrs. Mary Grable, with whom Mrs. George roomed, testified to two or three threats and the defense sought to prove by her own answers that she is addicted to the opium habit.

Miss Mattie Grimes testified to passing Mrs. George about an hour after the shooting, and finding her face flushed and her manner agitated.

Mrs. Althouse Again Located.

ELIZABETH, Pa., April 15.—Mrs. Eva Althouse, the Canton (O.) woman wanted in the George case, is reported at the home of Samuel Warren, in Fayette township, three miles from here. A reporter who called at the Warren home and asked if he could see Mrs. Althouse received the reply: "I don't know, but I will see. No; I mean she is not here."

MONNETT PREPARED INFORMATION

About Ready to File His Story of Attempted Standard Oil Bribery.

COLUMBUS, April 15.—Attorney General Monnett is preparing the information in reference to the attempted bribery by the Standard Oil representative, which he is to file in the supreme court. The information will probably be filed tomorrow, and will show all the details leading up to his having been offered \$400,000 to sidetrack the suits to oust the Standard company.

It will contain the name of the man who made the offer and such other information as the attorney general thinks necessary for the court to make a thorough investigation.

War Demonstration Proposed.

CINCINNATI, April 15.—The railways presented Mayor Tafel and the citizens of Cincinnati a proposition for a war demonstration. One of the big guns from the Oquendo has been secured from the government for Cincinnati, and one from Morro castle for Hillsboro, O., the native city of Senator Foraker. It is proposed to bring these guns by special train from Norfolk, with delegations on the train from Cincinnati and Hillsboro, and have exhibitions or demonstrations along the route.

Memorial Exercises For Morrill.

COLUMBUS, April 15.—Memorial exercises in honor of the late Senator Justin S. Morrill of Vermont were held in the Ohio university chapel. Representative D. K. Watson of Columbus delivered the eulogy on the life, character and public services of the deceased senator. The Ohio State university is itself

a tribute to his memory, having been made possible by Senator Morrill's land grant act in congress.

Prominent Men Accused.

TOLEDO, April 14.—A. K. Basore, Charles H. Hays and Edwin Mercer were charged by Inspector Holmes with using the mails for immoral purposes. They are all prominent in this city.

Antioch College Man Won.

COLUMBUS, April 15.—In the Ohio state oratorical contest held at Yellow Springs, S. L. Day of Antioch college was given first place.

BUSINESS IS GROWING.

Legitimate Trade Increasing, as Does the Productive Power of Great Industries, Said Dun's Review.

NEW YORK, April 15.—R. G. Dun & Co.'s weekly review of trade issued today said in part:

"There is still increase in all legitimate business, and the productive power of great industries increases, even though some of their stocks decline. The sharp reaction in speculation a week ago in no way affected the producing capacity of furnaces or mills, and has been in part recovered, while the disturbance of business caused by the formation of great combinations has in large measure ceased. The money market is in safer and more wholesome condition, and in spite of four heavy payments by large syndicates, amounting to about \$50,000,000, has grown easier. The only stringency has been in call loans.

"It is not owing to speculation alone that payments through the chief clearinghouses have been 80 per cent larger than in the same week of 1892 and 103.2 per cent larger than last year. New York transactions far exceed those of any previous week, \$1,468,502,709 in amount, but outside New York the clearings were 41.5 per cent larger than in 1898 and 44.6 per cent larger than in 1892. The truth is that no such expansion in the general business of the country has ever been seen before, and if such records only were considered there would be ground for fear that a wild passion of trading had again lifted the whole business community off its feet. But instead there is found surprising increase in the chief industries.

"The output of pig iron April 1 was 245,746 tons weekly, against 228,195 tons March 1, with 115,118 tons decrease in stocks unsold and 16,600 tons in warrant stocks, indicating a consumption in manufacture of 1,056,043 tons in March. The haste of 40 other furnaces to get into operation, with their possible output of 30,000 tons more weekly has helped to keep prices of pig quite steady, although strong, but the demand for finished products is far from satisfied. The Maryland Steel company has orders for 75,000 tons steel rails for the Chinese Eastern. Plates have sold at 2.10 for sheared at Pittsburgh, but the leading mills there and mills elsewhere are crowded for months and many will not quote at all.

"The Connellsburg coke product, 179,163 tons for the week, surpasses all records, and prices are steady as before quoted.

"Woolen mills have begun to buy wool more largely, though at prices much of their own making, but there is improving demand for goods, with light weight purchases continuing surprisingly for the season. Sales of wool at the three markets have been 16,792,000 pounds in two weeks, against 3,385,000 pounds last year.

"Wheat advanced about half a cent, accounts of injury discovered since April 1 supplanting the government report. Were the worst of the stories true, there is yet spring wheat seeding to make up for deficiencies, though the season is getting rather late. Exports have been reduced.

"Corn is a shade stronger, and in two weeks exports have been 6,184,693 bushels, against 8,146,681 bushels last year.

"Failures for the week have been 188 in the United States, against 254 last year, and 22 in Canada, against 18 last year.

ALGER NOT TO RESIGN.

The Secretary Again Denied He Would Quit the Cabinet.

WASHINGTON, April 15.—Secretary Alger put an effective quietus on the persistent reports that he contemplated retirement from the cabinet by a positive and unequivocal statement that the reports were absolutely without foundation, and that unless some unforeseen and unlooked for contingency arises he proposes to remain secretary of war throughout this administration.

Alger announced himself as well pleased at the wonderful development already in Cuba and Porto Rico. He praised the American troops in Cuba.

Escaped Prisoner Caught.

DUBOIS, Pa., April 15.—W. J. Nichols, who is wanted in Jefferson and Armstrong counties for burglary, was captured here. The prisoner was taken to a hotel to await the departure of a train. He jumped from a second story window and escaped, but was again captured at Sabula, on a train going east. He is charged with robbing stores.

Weather Forecast For Today.

Western Pennsylvania, Ohio and West Virginia—Fair today; fresh northwest winds, becoming variable; probably fair Sunday.

TWO CENTS

CROKER NOT ASHAMED

Defended His Right to Benefit From Bossism.

A JUDGE REFUSED DICTATION.

Daly Testified That For This Reason Croker Notified Him He Would Not Be Renominated—Sensational Insinuations at Croker's Chief Lieutenant.

NEW YORK, April 15.—The examination of Richard Croker before the Mazet legislative investigating committee was a remarkable one.

Mr. Croker gave events a somewhat dramatic turn when, after refusing to answer several questions concerning his private affairs, he held up his right hand and said impressively.

"If you can show me where I have taken a single dollar from this city you can cut that arm off."

When the Tammany chief went on the stand Mr. Moss conducted a line of questioning which Mr. Croker evidently believed was a loss of time, for he suddenly leaned forward and said:

"It is not necessary to bring up what everybody knows. There is no use playing to the gallery; there is no use making speeches. I am the leader of the party and I acknowledge it. All these people are my friends and I am going to stick to them all the time. Just give me straight talk. That is all."

Moss drew from Mr. Croker the fact that the Tammany chief believed that all the offices of administration of all departments should go to the victorious political party.

Continuing Mr. Croker said that when the Democrats placed men in office, the party expected to have those men do what the leaders of the party asked them to do. He himself had recommended the appointment of various officials and the distribution of patronage.

A matter that Mr. Moss gave attention to was Mr. Croker's connection with the auctioneering business conducted by Peter F. Meyer, by whom the majority of the judicial sales are conducted. Mr. Croker said he had been a member of the firm for some years, and as a true Democrat, he expected to be befriended in the way of profit from the sales.

Former Judge Joseph F. Daly said that he had been notified in the early part of last year he need not expect a renomination. This notification came directly from Mr. Croker and it was, he said, the result of his refusing to appoint a chief clerk of the court of common pleas recommended by Croker and because he had refused to make a judicial order for the removal of the legal sale to 111 Broadway, where Peter F. Meyer's firm is located.

Judge Daly said that he had paid \$7,000 in assessments for his two nominations by Tammany Hall.

Former Judge Rogers Pryor, who followed Judge Daly, testified that he, too, had contributed to Tammany on account of his nomination, he having sent a check for \$10,000, payable to the order of Richard Croker, chairman of the finance committee of Tammany Hall. This check was returned to him the following day and he was asked to make the check payable to the bearer. This he did.

THE EAST END.

THE OLD UPPER ROAD

Is Causing Some People No Little Uneasiness

BECAUSE THEY WANT IT FINISHED

Rev. Dr. Lee Occupied the Pulpit at the Second Presbyterian Church—To Begin Work on a Kiln Next Monday—Put Out a Small Fire—Instructing Delegates.

Many residents of East End are wondering when work will be resumed upon the improvement of Pennsylvania avenue or the upper road. The work was done last year by Mr. Welsh but when asked about the work he cannot give any information as to when it will be resumed. The road is now traveled rather extensively, especially by the teams employed in hauling stone from the quarries along the road. During the week a number of carriages have been seen going along the road, although it is not in the best of condition.

It is probable the road will soon be finished, but those who are in a position to talk will say nothing of the matter.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

Extinguished the Flames.

What might have proved a serious fire occurred at the residence of W. T. Hayes in High street opposite the school house Friday morning. One of the family struck a match, the head of which flew off and set fire to some lace curtains and some combustible articles on a dresser. The flames were extinguished with several buckets of water. The department was not called out.

Vote for Elijah W. Hill.

Instructed Delegates.

The motormen of the street car line will hold their regular meeting in their hall in Mulberry street next Saturday night. Aside from the routine business the delegate to the national convention of the Amalgamated Association of Street Railway Employees will be instructed. The convention will be held in Louisville next month.

He will make a good official. Vote for him. Who? J. E. McDonald, of course.

Those Who Are Ill.

There is no change in the condition of Mrs. William Irwin, and she continues very weak.

P. J. Raynolds, who has been suffering for a month with rheumatism, will be able to be out within a few days.

French F. Chaffin, who has been ill for several days with catarrhal fever, is improving rapidly.

Vote for Elijah W. Hill.

Doctor Lee Preached.

Dr. John Lloyd Lee, of the First Presbyterian church, addressed a large congregation in the Second Presbyterian church last evening. This was the last service of the week, and it was very interesting. There will be no more meetings of like character held in the church until next fall.

No man can truly say anything against J. E. McDonald. He is a good citizen and a bright business man.

Placing the Floor.

The work of placing a floor in the Pennsylvania avenue culvert will probably be completed Monday. The work was commenced Thursday, but as there was some grading to be done, the progress has necessarily been slow. The road over the culvert will be constructed at once.

Vote for Elijah W. Hill.

Will Begin Monday.

Monday work will be commenced constructing a new kiln at the East End pottery. Manager Owens stated yesterday afternoon the addition of a new kiln was needed badly, and it could not be finished any too soon as far as he was concerned.

Home pride says: "Vote for J. E. McDonald for Sheriff."

Come to Stay.

L. D. Mercer has moved his family and effects from Grant, W. Va., to the East End. During the week more families have moved to this part of the city than for a month.

Another House.

J. P. Rayl will next week commence the erection of a six room frame dwell-

ing in Pennsylvania avenue, Helena. The house is to be completed within two months.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

Work Resumed.

No work was done on the streets yesterday by the street force on account of the weather. This morning work was resumed as usual and much good was accomplished.

Vote for Elijah W. Hill.

Repaired Tracks.

Section Foreman Hickey yesterday afternoon repaired the tracks near the Mulberry street crossing. The improvement was badly needed.

East Liverpool should stand by her home candidate for Sheriff, J. E. McDonald, a friend of the masses, a worker for our city.

Children Ill.

Hazel and Gladys, children of Fireman Robert Finley, are ill at the home in St. George street.

Vote for Elijah W. Hill.

Real Estate Transfer.

Frank Hanley has sold his residence to a Mr. McGahey. Consideration \$1,800.

J. E. M'DONALD.

He has started big wheels of prosperity for the city of East Liverpool, and for this entire section, and he deserves the warm thanks of the workingmen of East Liverpool and vicinity, and the toilers ought to show their appreciation of this fact by casting their ballots for J. E. McDonald for Sheriff on Saturday, April 15.

BREAK UP THE GANG.

They Infest the Vicinity of Sixth and West Market.

Some enterprising policeman with a view to bringing himself into prominence, and at the same time doing his duty, should break up the gang that infests the vicinity of Sixth and West Market streets.

The gang is made up of half a dozen or more men who seldom if ever work. They spend the greater part of their time asking the people they know for enough money to buy a drink, and when they are refused their knowledge of profanity is very well displayed for they swear like pirates. Perhaps it would be a good plan to send the whole outfit to the works for a few weeks.

Vote for Elijah W. Hill.

NO ONE ANXIOUS

To Join the Pottery Trust All by Himself.

China, Glass and Lamps editorially refers to the dead pottery trust in this way:

"The regime of the individualist in the pottery business is to continue. Trade outlook has improved since last fall. There is money in staples, specialties and novelties. And, summing the whole thing up, nobody was particularly anxious to go into the trust anyhow, only no one wanted to play solo—all by himself, see?"

J. E. McDonald has been a resident of East Liverpool for 17 years. He has been working in the interest of East Liverpool and her citizens, and, backed by willing helpers, has brought great industries into our midst. Cast your ballot for him Saturday for Sheriff.

STATE OF OHIO, CITY OF TOLEDO, ss
LUCAS COUNTY.

Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, county and state aforesaid, and that said firm will pay the sum of one hundred dollars for each and every case of catarrh that cannot be cured by the use of Hall's Catarrh cure.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D., 1886.

A. W. GLEASON,

WARNER'S.

GEORGE K. NAS'IE.

REASONS BOILED DOWN

Why Judge Nash Should Be Nominated For Governor.

BACKED BY HIS OWN COUNTY

Franklin's Delegates Ask Ohio Republicans to Join Them.

HIS BRILLIANT PARTY RECORD.

Throughout His Public Career George K. Nash Has Been Faithful and Upright and His Eminent Ability For Chief Executive Conceded by All.

Columbus, O., April 11, 1899.

To the Republicans of Ohio:

At a meeting of the delegates and their alternates, from Franklin county to the Republican state convention, it was unanimously resolved to issue an address to the Republicans of Ohio.

The object of this address is to set forth why we, who are the friends and neighbors of Judge George K. Nash, are earnestly and unitedly in favor of his nomination for governor, and to ask the Republicans of the state to unite with us in bringing about that very desirable result.

While Judge Nash, by reason of his active work for the party, on the stump and in the committee rooms, for more than 25 years, is well and favorably known personally, or by reputation, to all the Republicans of Ohio, it is fitting that we, who have known him intimately during these years, should call attention at this time, not only to these services, but also to his qualifications for the office, of which, by reason of our acquaintance with him, we may have fuller knowledge than others who have not been so favorably situated.

George K. Nash has been a resident of Columbus since 1865, and has always since that time been a prominent leader in the Republican party in Franklin county. His election to the office of prosecuting attorney of Franklin county in 1870, and his re-election in 1872, both due to his ability and popularity, were the beginning of the downfall of the Democratic party in this county.

From January, 1880, to April, 1883, he filled with signal ability the office of attorney general, and resigned that office upon being appointed by Governor Foster a member of the supreme court commission. This office he filled with great credit to himself and the state, until the expiration of the commission, in 1885. He has always been active in political work in municipal, county, state and national affairs. He was chairman of the state executive committee in the presidential campaign of 1880, and again in 1881, 1882 and 1887. When not acting as chairman, he has always been in close touch with the committees, his experience and ability rendering his services invaluable. Such have been his political services: always ready, always able to serve the Republican party; prepared to conduct a campaign or to assist in its prosecution, with ability to command, and loyalty to serve.

In all these campaigns he has ever shown himself a vigorous antagonist and a brilliant fighter. The blows he gave were given fairly, squarely and with great effect, and his opponents have ever found it impossible to swerve him from what he believed to be right.

He has been honest, faithful and upright in all his dealings, commanding and receiving the affection of his friends and the respect of his enemies. His executive ability has been tested and proved.

His experience as the law officer of the state has made him familiar, not only with all its various departments, but with their needs and methods, and peculiarly fits him to administer them so that their purposes shall be faithfully carried out.

His acquaintance with public men in Ohio and elsewhere is very large, and his association with them has so familiarized him with public affairs as eminently to qualify him for the office of governor.

We know he will fill the office with honor and dignity, with credit to himself and to the state, and we present him to the Republican voters of Ohio, for their deliberate judgment and favorable consideration.

Respectfully submitted,

Delegates.

Jacob Sherman, F. McCafferty, Harry S. Jones, E. N. Huggins, Isaiah Smith, S. O. Giffen, John J. Pugh, Willis G. Bowland, Albert Rickenbacher, William Trautman, George Monnett, J. U. Barnhill, Henry A. Williams, George W. Sinks, F. F. D. Albery, Gilbert H. Stewart, James T. Augenbaugh, Karl T. Webber, Frank M. Squires, J. T. Lindsay, M. A. Bridgeman, W. T. Cope, Scott Rochelle, John McLish, W. L. Pinkerton, Joseph B. Davis, J. E. Sauer, Gilbert R. Kittle, C. M. Klineard, George S. Marshall, O. D. Harris, B. F. Starr, W. F. Griswold, Ritson Barber.

TWO MEN WERE KILLED.

A Fatal Accident Near Willock Station, on the Baltimore and Ohio.

PITTSBURG, April 15.—Two men were instantly killed and a third was injured in an accident near Willock station, on the Wheeling division of the Baltimore and Ohio railroad, caused by the parting of a freight train. Thirteen cars broke loose and ran over two miles down a steep grade. The killed and injured are:

Barney Eckert, 23 years old, a coal trimmer; killed.

William Cramer, 24 years old, a coal trimmer; killed.

George Murphy, supposed to have been stealing a ride; right arm broken; was taken to the Mercy hospital.

Joe Gans Whipped.

NEW YORK, April 15.—Joe Gans, the veteran Baltimore lightweight went down before George McFadden in the twenty-third round of their fight at the New Broadway Athletic club. Gans was not completely knocked out, but fell from exhaustion and was unable to gain his feet after he dropped.

Negro Surrounded In a Swamp.

PALMETTO, Ga., April 15.—Armed men patrolled the streets of this little town. The men, who early in the day closed their places of business and joined the posse pursuing the negro, Sam Hose, who brutally murdered Farmer Alfred Crawford and assaulted his wife, took this precautionary measure for the protection of their families. The negro is surrounded in a swamp and cannot escape.

NATIONAL LEAGUE GAMES.

At Philadelphia—Philadelphia 6 runs, 9 hits and 4 errors. Washington 5 runs, 8 hits and 1 error. Batteries—Piatt and Cross; Killen and McGuire. Umpires—Hunt and Connolly. Attendance, 10,700.

At Louisville—Louisville 1 run, 8 hits and 7 errors; Chicago 15 runs, 16 hits and 0 errors. Batteries—Cunningham and Kittredge; Griffith and Donahue. Umpires—Burns and Warner. Attendance, 9,000.

Games Scheduled For Today.

Pittsburgh at Cincinnati, Chicago at Louisville, Cleveland at St. Louis, New York at Baltimore, Boston at Brooklyn and Washington at Philadelphia.

Pleasant Dreams.

It does not lie in the painter's fancy to imagine a prettier picture than that of a young girl, with lips luscious with the promise of love, half parted in the smile of happy dreamland. The mind of happy maidenhood is a clear and polished mirror, which, when the wits go wandering into the ghostland of dreams, reflects the impressions of waking hours. If those impressions are pleasant and painless and happy, she will smile in her sleep. If the impressions are those of a suffering woman, tortured with the special ailments to which the feminine organism is liable, the picture is spoiled by the lines of suffering and despondency. Maladies of this nature unfit a woman for joyous maidenhood and for capable motherhood. They incapacitate her to bear the burdens of life in any sphere of action. Household, marital and social duties alike are a burden to the woman who is constantly suffering from headaches, backaches, dragging sensations and weakening drains. Dr. Pierce's Favorite Prescription positively, completely, unfailingly cures troubles of this nature. It imparts health, strength, vigor to the distinctly womanly organs. It fits for care-free, healthy maidenhood, happy wifehood and capable motherhood.

"I have a little step-daughter who had st. Vitus's Dance, which your medicine cured," writes Mrs. T. F. Boze, of Ford, Dinwiddie Co., Va. "I spent about twenty dollars for doctor's bills and medicine, and it did not do the child one cent's worth of good. We commenced giving Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' and used three bottles of each, which cost only six dollars. Now the child is running around every where and is just as healthy as ever."

YES OR NO.

East Liverpool People Are Respectfully Asked to Answer These Questions.

Is there anything in the evidence of one's senses?

Can the reader dispute and then disprove local evidence?

Can reliance be placed upon statements from people we know?

Are the opinions of residents of East Liverpool of any greater moment than opinions held by residents of Maine or Michigan?

FOUND A BAD KNIFE

It is Thought Ira Marlatt Made It.

ONE PART USED AS A SAW

By Which One Man Cut His Way to Freedom From the Ohio Penitentiary--What the Prison Demon Was Doing While Being Well Treated.

A murderous looking knife has been found well hidden away in the cellar at the penitentiary at Columbus, and it is thought to have been made and concealed by Ira Marlatt. But it is only a surmise. Ira was allowed the freedom of the cellar for quite a while, but he recently became threatening and was locked in his steel cage.

It seems the man who made the knife had raised a board of some framework surrounding some water pipes and placed it inside and out of view, but where it could be easily procured if any necessity for it should arise. The knife is a caseknife of the kind Marlatt used when at his meals before being locked in solitary. It has been sharpened to a razor keenness, and the end ground to a fine point. The blade for a part of the way was wrapped in cloth, so as to make a handle. The blade was broken, the handle being found in the cell occupied by Hurley, the part of the blade remaining being notched so as to make a saw, and it was with this saw that Hurley cut his way out of the cell in which he was in solitary. It is claimed that Marlatt broke the blade in two and gave part to Hurley for the purpose for which it was used.

J. E. McDonald is the true friend of the workingman and mechanic. Don't you believe anything to the contrary, no matter who makes the assertion. McDonald's record will stand the test of close investigation in this particular. Vote for him for Sheriff. He will do his duty, but will not persecute or needlessly oppress any man.

HOUSECLEANING

Will Begin at Central Fire Station Next Week.

Arrangements are being made at Central station for the annual house-cleaning.

It will begin next week, and will be vigorously pushed until the place is as clean as the force can make it. All the woodwork will be gone over, and it is probable the walls of the sleeping apartment will be papered. The outside needs a coat of paint, but may not get it this year.

Vote for Elijah W. Hill.

THE DATE

Has Been Fixed For Dedicating the Free Methodist Church.

The new chapel being erected on the Virginia side of the river by the Free Methodist church of this city, will probably be dedicated on Thursday, May 18. It is thought the building will be completed by that time. A special program is now being arranged for the occasion and a number of prominent church workers of that denomination have been asked to attend.

EPWORTH LEAGUE.

Topic For the Week Beginning April 16, "The Eternal Morning and Modern Missions"—Text, Isa. ix, 1-12.

"Arise, shine; for thy light is come and the glory of the Lord is risen upon thee!"

Other ages have seen marvelous religious revivals and reformations, but no age has seen such vast changes wrought by a single religious system in such widely separated parts of the world and over such multitudes as has been effected by Christianity during this present century. Not to speak of the Old Testament revivals, which were national, the most strikingly aggressive religions have been Buddhism and Mohammedanism. The first may be called the Protestantism of the orient, as it was a reformation of Brahmanism and the previous heathen systems of the east, which had grown corrupt. Mohammedanism was a reform movement of vast importance and a wondrous advance upon the old material religions which it supplanted. At one time it threatened to overrun all Europe and divide the world with Buddhism. But neither of these systems has lifted any nation into advanced civilization and neither fulfills the requirement of a universal religion for all men.

The advance of Christianity for the first 300 years was marvelous. From obscurity and contempt it came to the seat of power in the Roman empire. Its conquest of the barbarians who overthrew the empire is one of the marvels of history. Most fascinating is the story of the conversion of the northern nations of Europe and the subsequent development of the Greek, the Roman and the Protestant churches.

The deepest interest, however, centers around the work of the church during the present century. This is the era of missionary societies, Bible and tract societies. Since this century began more Bibles have been made and distributed than in all previous ages.

To see clearly the advance of the gospel one should take the map as it was in 1800 and compare it with the world now. All the Pacific islands, Japan, Korea, China, India, Africa, South America, Mexico and the Indians of America have been reached with the Bible and pure religion, and whole nations lifted from vilest barbarism and heathenism into peaceful, progressive civilization and religious purity.

Surely the light has come. Earth sees her Redeemer as never before.

Arousing Interest.

Some years since a pastor of a New England city church announced a missionary meeting for Sunday evening on a new plan. He selected two laymen to speak on some phase of missions. One of those selected for this work was a young man who had never made an address before so large a company. His timidity and objections were overcome, and he selected "The Evangelization of the Sandwich Islands" as his theme.

The public library furnished several volumes which were read and noted and a short speech prepared covering the prominent points in the story of its missions. It was a simple incident and probably passed from the mind of the pastor soon after. Its effect on the young man was permanent. His interest was aroused. He was led from business into the ministry, and the mission fields of the church became matter of special study. Personal acquaintance with leading missionaries in each mission field has led to the collection of photographs, which in the form of slides for the stereopticon are widely in use among the Leagues to illustrate the work of our church among the heathen. Set the young people at work searching and talking, and they will acquire an interest which will last life long.

Power of the Word.

Some fifteen hundred years since at Milan, Italy, there was a noted teacher of rhetoric who had never become a Christian, but held to the belief of the Manicheans. His mother, a devout Christian, had never ceased to pray for his conversion. Ambrose, the eloquent bishop, was interested in the young man. But all arguments had failed to convince him and all persuasion failed to move him. One day a copy of the epistle of Paul to the Romans came under his notice and the passage "Put ye on the Lord Jesus Christ and make not provision for the flesh to fulfill the lusts thereof" caught his eye and arrested his attention. He could not get away from it. It fastened conviction until he saw the truth and decided to become a follower of Jesus the Christ. He became known as Augustine and was made bishop of Hippo in Africa. Few men have been more influential in shaping the course of thought in the Christian church than he. Still the word proves itself powerful to convince and to convert, and demonstrates that it is the word of God.

The class meeting is not dead or dying. Spiritual culture will ever need expression and will seek companionship. The confessional is not adapted to an advanced condition of piety. Social communion and friendly interchange of thought are a necessity. In some form the class meeting must live wherever vital piety is not extinct. The devotional meetings of the League can do much to perpetuate this helpful means of grace. Personal testimony is a great help to a live Christian.

STARR BACK FROM MEXICO.

University Professor Brings Home Data of Strange Tribes.

Professor Frederick Starr, anthropologist of the University of Chicago, returned recently from a three months' sojourn in Mexico, where he has been studying the Indian tribes about which hitherto little had been known. Professor Starr spends each winter among the Indians of Mexico, living with them in their villages and making studies of them, their languages and mode of living.

His research this trip was confined to the state of Oaxaca, in the extreme south of the republic. Oaxaca is made up of nine tribes of Indians, each of which speaks a separate language and which differ in manners and customs. The tribes visited are the Mixteco, Triqui, Mixes Zapatecos, Chontales, Juaves, Tehuantepecanos, Cuicatecos and the Chinantecos. In each of the tribes Professor Starr took measurements of 125 women. Plaster busts were made of five members of each tribe, and a number of photographs were also taken. Professor Starr said the other day:

"Since leaving Chicago last December I have traveled about 1,000 miles on horseback among the Indian tribes of Oaxaca. They are an interesting people, and comparatively little has been known of them. All of the nine tribes are agriculturists, with the exception of the Juaves, who devote all their attention to fishing. The most interesting of the tribes I found to be the Triqui, Juaves and the Mixes. The latter have been cannibals for centuries back, until about 35 or 40 years ago. In the low altitudes the people live mostly in cane houses, but higher up, where it is colder, they build quite respectable log houses. The Indians have their towns, each of which is practically a separate republic. Each town pays taxes to the Mexican republic, but that is about as far as its obligation goes. The most highly civilized of the tribes is the Zapatecos and the least probably the Mixes."—Chicago Record.

TO SEA IN A COCKLESHELL.

Miss Shane to Cross the Atlantic in a Small Boat.

Miss Belle Shane, a young woman of about 22, a resident of Morristown, Pa., and now a visitor in Atlantic City, declared her intention of accompanying Captain Andrews on his next voyage across the Atlantic to the Paris exposition.

Miss Shane read in the papers a few days ago that Captain Andrews was to make his seventh and last voyage in a

FILIPINO SHARPSHOOTER AT WORK.

[From a photograph.]

17 foot aluminium, canvas covered cockleshell. She sought out the captain and proposed that if he would enlarge his boat to such a size as to give her suitable accommodations she would bear the expense of building the boat. Miss Shane declared recently that she had arranged with Captain Andrews to sail with him on June 17 from Atlantic City. She said it was her ambition to be the first woman to cross the Atlantic in a small boat.

Captain Andrews, who first contemplated the building of a boat 17 feet long, has resolved to lengthen it to 20 feet and give it more beam and depth of hold. The captain says he is willing Miss Shane shall be a passenger and that she has agreed to pay the expenses of the trip. Miss Shane came to Atlantic City about the 1st of March to spend the Lenten season. She will go to her home in Pennsylvania soon and will return about the middle of May.—New York Journal.

UNION PAPERS.

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns

See the election returns at the News Review tonight.

AND now comes one Congressman Norton to say that he knows nothing about Jim Campbell being nominated by the Democrats for governor, but then Norton has made mistakes before.

ENCOURAGING.

Doctor Schurmann, president of the commission now at Manila, has sent the cheering news to President McKinley that many natives are tiring of the iron rule of Aguinaldo and are anxious to come under the protection of the United States. This condition was to be expected. There are a great many people in the Philippines, more than seven millions, and less than 50,000 are enrolled in the insurgent army. The remainder may for a time sympathize with the cause of Aguinaldo, but when they see the steady advance of American soldiery and the changed conditions following American occupation they will do as other nations have done in similar circumstances. It is rather soon to expect a change of sentiment in the Philippines, but Doctor Schurmann is certainly in position to know the truth. His statement is important because it breaks down the repeated theories of anti-expansionists. Then he is in Manila while they are many thousands of miles away.

BE PROUD OF YOUR CITY.

You have a right to be proud of East Liverpool. She is pushing to the front. Her citizens are hustlers, hailing from Hustleville. "Push, progress and power" are our watchwords in this Ceramic City. We want the best goods in the box or on the counter. We want good, faithful, intelligent and reliable officials. What's more, we intend to secure them. The dead wood and knotty excrescences are to be removed. The handwriting is on the wall, and the rascals are trembling in their No 9's. "Turn them out," is the order. The fiat has gone forth. WE HAVE HOME CANDIDATES ON THE LIST FOR COUNTY POSITIONS. All things being equal, OUR HOME CANDIDATES should have the preference. No loyal citizen will dispute this. If our citizens desire to push the city to the front, let it be known that we are loyal and true to true men. Mark the men who work and vote against clean home candidates and in favor of strangers who are not the equal, from any standpoint, of our own local candidates. Be merciful to the stranger; but be loyal to your own household. Remember that the polls open at 2 and close at 8 o'clock, city time.

WARNER'S.

THE SEBRING PLAN

Six Kiln Pottery and a Town to Be Built.

NINE HUNDRED ACRES OF LAND

Have Been Purchased Forming a Beautiful Tract, Level as a Floor, and One Mile Wide by One and One-half Miles Long. It Will Be Transformed Into a Model City Where No Man Can Build a House Except Under Certain Conditions, and Where Factories Will Be Far Removed From Residences--A Magnificent Project.

Out along the Fort Wayne railway, five miles from Alliance, seven miles from Salem and near the little village of Beloit, just over the line in Mahoning county, there lies one of the most beautiful sections of farming land in Ohio. It is high above the level of the sea, and dips only enough to permit of excellent natural drainage, while the country is such that gently rolling meadows stretch as far as the eye can see. It is here the Sebring Pottery company, of this city, will erect a pottery and build a city that will in time become known the land over as a model place of residence. When the plans already formed are carried out it will be a busy town and beautiful.

When the NEWS REVIEW announced last Thursday that Liverpool parties were negotiating for an immense tract of land near Beloit it was generally understood that the Sebring company had a mammoth project on hand, but the details of the matter were not given out until this morning when F. A. Sebring, president of the company, talked to a representative of the NEWS REVIEW.

"This matter has been under consideration for some time," said Mr. Sebring, but it was not until last night that some things having a bearing upon the successful consummation of the project were closed. Now the preliminaries are complete, and it is only a question of time until the real work is accomplished.

"We have purchased 900 acres of land five miles from Alliance and seven from Salem. The tract is 1½ miles long by a mile wide, and through the center of it passes the Fort Wayne railroad. The land forms one of the highest points in Ohio, and is level, there being just sufficient slope to give it good drainage. Mt. Union college is in sight from any part of it, and the view on every side is practically unobstructed. Abstracts of the titles of the various farms are now being made, and as they are turned in the purchase price is paid. In a short time all this will be closed.

"We are not making this project a great land scheme or anything on that line, but we expect to have a splendid town there within a reasonable time. Our company will erect a six kiln pottery at once, and it will, in all probability, be in operation next September. White and decorated ware will be manufactured, but that is not all of the project. Our employees must have places to live, and since 120 houses will be required we will have them put up as soon as possible.

"The town will be a model one in every respect. On each side of the railroad, and gently sloping to it will be a park 80 feet wide the entire length of the town. One side will be reserved for factories, of which a number will be built soon, while the other side will be for residence purposes.

Each lot will be 50x150 feet, and the deed for each will specify that the purchasers must not erect on it a building to cost less than \$800; it must be no nearer the street than 20 feet, and only one house can be built on a lot. The streets will be wide, and no time will be lost in paving that is sure to be the business section. A complete water works system and electric light plant are among the plans for the immediate future.

We do not want to own the town, but we want to make it a model every way, and will dictate the provisions under which land can be purchased. The tract will not be platted into lots and sold with a great hurrah, but at present only such lots as will be needed for the dwellings for our employees will be laid out.

Officials of the Pennsylvania company are aware of our plans, and arrangements have been made for the erection of a handsome passenger station. It will be 27x70 feet, and contain all modern improvements. The company will also provide ample switches for factories.

The consummation of all the plans that have been prepared will not be delayed. It is our purpose to push the

THE OLD BOYCE ORCHARD

On the Boyce farm, just between East End and the river, is a beautiful old orchard that has become familiar to almost every resident of the town.

For years it has been regarded as the future residence portion of East Liverpool by reason of its excellent and convenient location.

It has now been platted, and on

TUESDAY, APRIL 18TH,

the lots will be for sale. The advantage of first choice is to the first buyers. A real estate man will be at your service to show you the lots and quote prices if you will telephone number 8.

THE PURITAN LAND COMPANY.

POTTERS DO NOT AGREE

They Have Different Ideas Regarding Prices.

COMMITTEE MAY NOT REPORT

No Meeting of the Exchange Has Been Called and None Is In Sight--No One Knows Whether That Local Combination Will Ever be Effectuated.

The plan to form a combination of western potteries for the purpose of maintaining prices seems to have struck a snag at the start, and even the most faithful friends of the project are now saying it may never amount to anything more than the discussions that have marked what little progress it has made to this time.

"The committee appointed at a meeting held several weeks ago has never reported," said a prominent manufacturer today. "At the next meeting the committee made the statement that some progress had been made, but that was all. It did not go farther into the matter, and may never make a report. There are a great many opinions on the matter of prices, and I doubt very much whether they can be cut down and built up so that all can be on the same level. These opinions will likely be the death of the proposition very soon, and nothing more will be heard of it, at least for the present. There may be some other plane upon which the western potters can meet, but if there is I don't know of it."

Vote for Elijah W. Hill.

THE NEW BOARD

Will Hold Its First Session Next Monday Evening.

The old board of education will pass out of existence next Monday evening, and Rev. Dr. Taggart, Walter B. Hill and J. H. Smith, the members chosen at the last election, will take their seats. The most important business of the old board will be the payment of bills amounting to about \$500.

There has been no caucus for the purpose of arranging the offices, and a leading member said today that he did not know one would be held. The opinion is expressed that President Vodrey will be chosen for another year and Clerk Norris will fill his position again as no opposition has developed against either.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

Vote for Elijah W. Hill.

HEAVY ICE

Caused a Big Crack in the Upper Reservoir.

During the extreme cold weather last winter the heavy ice in the upper reservoir caused a crack in the reservoir about three feet from the top, and since that time the reservoir has never been filled.

The work of repairing the reservoir has now been commenced, and when it is completed the reservoir will be filled once more.

Vote for Elijah W. Hill.

ANOTHER ACCIDENT.

Last evening as a young lady was riding a bicycle around the corner of the Diamond and Sixth street she collided with a buggy. The front wheel of the bicycle struck a rear wheel of the buggy, throwing the rider to the ground. The bicycle was damaged slightly, but the rider escaped injury.

Sweet, Orr & Co. tug of war trousers, price \$1.50, for sale at

JOSEPH BROS.'

LOST THEIR DOG.

Fanny, the small dog at the Central fire station, strayed from the place yesterday morning. It was returned to the station late in the evening by a young boy who found it in the lower part of the city.

Vote for Elijah W. Hill.

J. E. McDonald will not indulge in dirty flings against his opponent, nor will he allow his friends to do so. Jim McDonald is a manly man. He's the kind of a man who gets my vote, and he ought to get the vote of every Republican of East Liverpool on next Saturday. He'll make a good Sheriff.

Vote for Elijah W. Hill.

A Dead Hog.

Early this morning a dead hog was found lodged against the coal float owned by Frank Pilgrim at the Broadway wharf. It was an unusually large one, and looked as if it had not been in the water very long.

Boys' suits, 2 years to 16. Joseph Bros. are showing the correct thing for the boy's wearing apparel for the coming spring.

Your home candidate deserves your vote. Cast it for J. E. McDonald.

FOR RENT.

FOR RENT--Furnished room, without board; gentleman preferred. Inquire 290 Fourth street.

FOR SALE.

FOR SALE--A lot 30x130 and a five-roomed house, in Fifth street. Price \$2,300. Apply to T. P. Hanton, 315 Lincoln avenue.

FOR SALE--A \$45 baby carriage, almost as good as new; plate glass mirrors in sides. Apply to Charles Craft at T. B. Murphy & Sons, Fifth street.

UNITED PRESBYTERIAN MUTUAL BENEFIT ASSOCIATION

Has had only 10 deaths and nine assessments in 23 months past. Membership now near 2,000.

Important to United Presbyterians Only!

In order to increase our membership in Local Branch No. 29 to one hundred by June 6, the date of our regular semi-annual meeting, I will make the following liberal proposition to new members who insure with us before that date, viz.: For the sum of \$10, I will pay total cost of securing membership, covering membership fee, medical examination, per capita tax to July 1 and all assessments for deaths for sixty days from date of application. This covers cost of one or two thousand dollars insurance for two months. The cost for \$1,000 insurance for 1898 was \$9.50, for \$2,000 \$15.50, including \$3 per year per capita expense tax. The balance was for mortality assessments, all of which we return to the beneficiary at death, added to the face of the policy. Males and females from 18 to 51st birthday are eligible. Those from 46th to 51st birthday can only take \$1,000 insurance. Members who lose a limb or eyes can draw from one-fourth to one-half their insurance in cash for their own use. When a member reaches 70 they can draw their insurance to live on if they so elect. We want 40 new members on this offer. It is to the interest of every member to try to get others. Let us all work for the 100 mark. Drop me a card, and I will call and explain more fully and answer to your satisfaction any questions regarding our association, which is rapidly forging to the front. Yours,

J. C. MCCLAIN, Organizer,
126 Greasley street, East Liverpool, Ohio.

CAN BUILD A RESERVOIR

If the City Will Take Care of Interest on Bonds
FOR A PERIOD OF TWO YEARS

The Finances of the Water Department Are in Such Condition as to Enable the Officials to Improve the Service if Council Will Lend a Little Aid.

The water works department will use every available means in their power this year to secure additional water facilities for the city.

In the last report a statement was made that if the city council would pay the interest on the water works bonds the trustees would build and pay for a new reservoir out of the funds at their command. The interest amounts to about \$7,000, and would give them sufficient money to make the needed improvements.

Should the plan meet with the favor of council the trustees will build a six million gallon reservoir, giving them a capacity of eight and a half million gallons a day on the low pressure service. This would permit of a reserve reservoir, and the water would be permitted to settle before going into the mains, and the citizens could have clear water for use at all times. It would do away with the necessity of working the pumps day and night, and during the high water or when the wickets at the dams were opened the pumps could be shut down for two days if necessary.

The trustees are very anxious that council assist them in the way asked, and the effort for a better water-supply has the hearty endorsement of all citizens.

HIGH JUMP.

A dog dropped from the third story of the First National.

This morning a handsome coach dog followed somebody to the third floor of the First National Bank building. The animal looked out of a window and began to howl. Not finding any means of escape it took a flying leap out of the window. It struck the alley on all fours, and people who witnessed the leap were surprised to see it get up and go around the corner on three legs.

Special leader with Joseph Bros—men's high grade suit at \$10.

April water assessments now due. Save the 10 per cent by prompt payment. Office down stairs, 144 Fourth street.

WELLSVILLE.

PARDON FOR McGREGOR

His Friends Are Encouraged at the Outlook.

ATTORNEY ELLIOTT FILED CLAIM

With the Board at Columbus—Little Girl Badly Injured by a Fall—Aged Resident of the Scotch Settlement Is Dead—Arrested for Fighting—All the News.

An application for the pardon of Jess McGregor was presented Thursday to the board of pardons at Columbus. It is thought they will take favorable action upon it, but the result will not be known for several weeks. Attorney John M. Elliott, of Lisbon, who presented the petition, returned home today.

JOHN MCPHERSON DEAD.

John McPherson died last night at his home in the Scotch Settlement. Deceased was over 90 years of age and was well and favorably known here. The funeral will take place Monday afternoon at 1 o'clock, Reverend Calhoun, officiating. Interment at Brick church.

ARRESTED FOR FIGHTING.

Harry Lyons last evening was arrested by Officer Madden for fighting. He was given a hearing this morning and was fined \$5.60. He did not have the ready money and is still in jail.

CUT HER HEAD.

Sylvia, the 6-year-old daughter of Mr. and Mrs. Charles Mardis, fell from a swing yesterday afternoon and severely bruised and cut her head. When picked up she was unconscious.

NEWS OF WELLSVILLE.

The five-year-old son of Daniel Fitzgerald who was so severely scalded a few days ago is again able to be out.

John Wagner is convalescent after several weeks illness with typhoid fever.

Homer Dever's little three-year-old daughter was severely scalded yesterday afternoon.

Mrs. Hugh Andrews is suffering with grip fever at her home in Main street.

Miss Nan Stevenson is a Pittsburgh visitor today.

Mrs. Jackman, of Tunnel Mill, is the guest of Mrs. Paull, Main street.

Mrs. Leel, who has been the guest of her daughter, Mrs. Harvey Whitacker, returned to her home in Erie, Pa., today.

Misses Hannah and Lizzie Auginbaugh are Pittsburgh visitors today.

Ed Whitacre returned home today after a short business trip in Pennsylvania.

Miss Louie Hill very pleasantly entertained the Peanut club at her home on Broadway last evening.

The pie social given at the home of Mrs. Ben Cuppy, in Broadway, last evening was largely attended.

Mr. James Uselton will open up a grocery store Monday at the corner of Eleventh and Commerce streets.

Vote for Elijah W. Hill.

ON THE RIVER.

The river has again reached a barge stage, but very little coal will be sent south, as the last rise caused an immense amount to be shipped. The river will hardly reach the 12-foot mark, although this morning the marks registered 10.5 feet and rising.

The Queen City and Lorena will be down tonight for Cincinnati and Zanesville. The Greenwood went south last night with a large cargo.

The Sunday boats, Kanawha, Keystone State and Ben Hur, will be up tomorrow as usual.

PATRIARCHS TO DRILL

At the Centennial Celebration In July.

WILL GREET THE HIGH OFFICER

At a Meeting of the Order Last Night Officers Were Elected and Arrangements Made For Two Important Events—Candidates Were Also Initiated.

A regular meeting of Canton Rhodes, No. 73, Patriarchs Militant was held last evening, and Patriarchs J. C. B. Beatty, John Cock and Charles Howe were mustered into the service. The following officers were elected: Commandant, H. A. Weeks; lieutenant, Capt. M. F. Albright; ensign, Charles Howe; clerk, J. C. B. Beatty; accountant, Capt. T. B. Murphy; guard, Capt. J. A. Calhoun; standard bearer, John Cock; sentinel, Lieutenant W. J. McKinney; picket, Capt. G. W. Croxall.

There are about 15 or 20 prospective candidates awaiting admission, and will be mustered in prior to July 1, in order to participate in the centennial celebration, at which time the canton expects to demonstrate that it is the crack semi-military organization of the city. Arrangements were made to attend services at the Christian church the morning of April 23 as an escort to the subordinate, this being the regular anniversary service of the Odd Fellows.

Ralph P. Miller, grand master of Ohio, will be here April 26 to help the local order celebrate the seventy-ninth anniversary of the institution of Odd Fellows in America. The canton will turn out in full uniform and escort the grand master from the train to the hotel, and also the hall, where the anniversary services are to be held.

After the canton closed the members were taken to an uptown restaurant, where they were treated to ice cream and cake at the expense of Chevalier Beatty.

UNION MEN!

Read What Secretary P. J. McKeone Says of J. E. McDonald.

The statement having been made that the Brotherhood of Operative potters had endorsed a candidate, P. J. McKeone, secretary of the Brotherhood, was interviewed today. He said:

"The Brotherhood has not endorsed any candidate and there is no truth in the statement. Mr. J. E. McDonald has always been recognized as a friend by the workingmen and he should get their support. It is the aim of unions to stay out of politics and no union has endorsed a candidate. Mr. McDonald is known by us to be a friend of union men and they will stand by their home candidate. I think a song I heard once very aptly applies in this case. It is 'Charity Begins at Home,' and the workingmen will remain at home tomorrow."

OUR FARMERS IN PARIS.

How Our Agriculture Will Be Shown at the Exposition.

THERE WILL BE FIVE SECTIONS.

An Exhibit of Agricultural Machines Will Be Kept in Motion by Electricity—Corn Kitchen Will Be in a Special Annex—Exhibit of Plant Diseases.

The American farmer is going to be well represented at the exposition of 1900 in Paris. Much interest is being taken by the government in this matter, and an elaborate display is being prepared under the superintendence of Charles Richards Dodge of the department of agriculture. This will be in effect a comprehensive presentation of the agricultural industries of the United States and will serve to a certain extent the purpose of educating Europeans in Yankee methods.

For example, there is to be a superb exhibit of agricultural machines, which will be kept in motion all the time by means of electricity. Many kinds of incubators will be shown, by the aid of which ingenious man has enabled the industrious hen to reproduce her own species at a dozen times the normal rate, and fresh meats and dairy products will be displayed in an immense revolving refrigerator of plate glass, divided suitably into compartments. Condensed military foods will furnish a little show by themselves, more than usually interesting in these piping times of powder and shot, and free grid-diecastles and samples of various maize products will be distributed to all comers at the corn kitchen.

This corn kitchen will be located in a special annex. It is considered of the greatest importance to teach the effects of Europe to like corn, which hitherto they have regarded as a more proper food for horses than for men. If a foreign demand could be created large enough to absorb all of our surplus corn, that cereal would bring at least 40 cents a bushel in the market. What this would signify can hardly be realized without figuring on it a bit. Even 1 cent a bushel added to the price of an average corn crop in the United States means \$20,000,000 added to the annual income of American corn growers. On the basis of recent production, it would signify \$1,300,000 added to the income of the farmers of Indiana, \$2,000,000 added to the income of the farmers of Illinois, \$2,750,000 added to the income of the farmers of Iowa, \$1,500,000 added to the income of the farmers of Missouri, \$1,750,000 added to the income of the farmers of Kansas and \$1,600,000 added to the income of the farmers of Nebraska. This trifle of 1 cent means \$10,900,000 added to the yearly income of the farmers of six states.

The palace of agriculture at the exposition of 1900 will be the same building as that used as the palace of machinery at the exposition of 1889, but its interior is being entirely remodeled. In this building the United States will have the use of 17,000 square feet, and the display will be divided up into sections.

Section 1 will comprise an exhibit of fresh meats, lard, smoked meats, canned meats and soups, meat delicacies and extracts, animal fats and oils. Section 2 will comprise fish products—salt fish in packages, dried fish, canned fish and preserved shellfish. Section 3 will comprise dairy products of every imaginable description. Section 4 will comprise insect products—honey, cochineal, lac and silk. Cochineal and lac are both produced in a small way in this country the former for dyes and the latter for varnish. There will be a special exhibit of silkworm culture and silk production, which are rapidly gaining ground in the United States.

Section 5 will comprise all sorts of cereals and bakery products; also, vegetables and every sort of flour. There will be bean flour, potato flour, pea flour and banana flour. This last seems destined to come into common use, being very nutritious. The bananas are cut into slices, which are dried and then ground to powder. The display will comprise also liquors and beverages, including artificial mineral waters; commercial fibers of many kinds; tobacco, with varieties of the leaf; medical and pharmaceutical plants and dye plants.

There will be an exhibit of the method by which soils are studied, showing how the experts nowadays are able to take a sample of any soil and ascertain exactly what it will produce best and what it needs, if anything. No longer is there such a thing as a soil that cannot be made fertile by the addition of cheap and easily obtained ingredients.

Special exhibits will be devoted to plant diseases and to the methods by which commerce has spread injurious insects all over the world. Ditto as to injurious weeds. In connection with the corn kitchen particular attention will be given to a show of the different varieties of corn and of corn products, such as corn oil, corn whisky and cellulose.

The horticultural show will be in the palace of horticulture on the north bank of the Seine. Occupying only 2,500 square feet, it will not afford

room for a display of living plants, but its chief feature will be fresh fruits representing various sections of the United States. These fruits will be sent over from the United States from time to time, as their decay depletes the stock on hand. Apples and citrus fruits will lead the exhibit, and special attention will be paid to nuts, the pecan foremost. The nuts, of course, will be cultivated nuts. Nut culture has been making great strides recently, and cultivated pecans, chestnuts, hickory nuts, etc., of size far superior to the wild ones are beginning to appear in the market.

On the roof of a building near the Eiffel tower the weather bureau will have a working meteorological observatory, the instruments being connected with an exhibit on the main floor below. Each day a card bearing a forecast of the weather for 24 hours ahead, based on information cabled from Washington, will be issued free to all comers. Probably the most interesting feature of the weather bureau's show will be its kites, of the peculiar new pattern employed for studying atmospheric conditions at high levels. These kites, looking like huge boxes of cloth with a framework of sticks, will be sent up daily, carrying automatic observing and recording instruments and controlled by "strings" of piano wire unwound from reels. These kites can be sent up to a height of two miles and will doubtless surprise the Parisians.

It may be mentioned in this connection that the total agricultural exports of the United States last year were about \$900,000,000 worth. They constituted 70 per cent of the total exports of the United States. Of breadstuffs alone \$35,000,000 worth was exported. Thus it would appear that if the Yankees are a nation of shopkeepers, as foreigners allege, the farmers are furnishing the bulk of the goods disposed of over the counter.—Cor. St. Louis Globe-Democrat

NEW RUSSIAN CEREALS.

Seeds and Plants Secured by Professor Mark A. Carleton.

During the last year the United States department of agriculture has had four agricultural explorers at work in different parts of the world, having in view the introduction into the United States of such seeds and plants as may prove to be of economic value. Professor Mark A. Carleton has just returned from Russia. He is confident that some of the seeds he secured will prove of benefit. He mentions a winter rye which is grown at Ustsisolsk, which is in about 60 degrees north latitude. The climatic conditions are similar to those of Labrador. It is believed that this rye will do well in Alaska.

The cereal that promises best results is the Kubanka wheat from the Kuban territory, in the Volga region. While this is a spring wheat in Russia, it is believed it can be changed to a winter wheat here. It is harder than any of our wheats and is the great bread wheat of the Volga region. This wheat needs a warm climate and is expected to give good results in Texas, No Man's Land, western Kansas and eastern Colorado. It does best in Russia, where the annual rainfall is only 15 inches. In western Kansas the annual rainfall is 18 inches.

A variety called Polish wheat, which was obtained, has the largest grain of all wheat in the world, the average length of the kernels being about five-sixteenths of an inch. Like the Kubanka, it is exceedingly hard, but is not a bread wheat. Its use is in pastry and as a macaroni wheat. The Polish wheat needs a warm climate.

Several varieties of broom millet are to come. These are for cold, dry climates. They are grown in Russia for the seeds principally and are used for food in the way of soups and gruels. It is possible that we may thus add something desirable to our dietary.

Two varieties of oats, the Swedish and Tobolsk, are expected to be the thing needful in the dry, cold regions of the west.

The government importation is from this selected seed. The other variety is from Tobolsk, in the northern part of Siberia, where it is dry and cold.

The total importations amount to about 30 varieties of cereals and forage plants, beside vegetable seeds and melons.—Chicago Tribune.

Cræze For Colored Diamonds.

The craze for colored diamonds in English circles that can afford such expensive ornaments is rather on the increase than decrease.

A fashionable jewelry establishment in London is now exhibiting an enormous jeweled crown made of almost every kind of colored diamonds. In the center is an enormous rose colored diamond several thousand pounds in value, and the whole crown can be purchased for the moderate sum of about £28,000. The same jewelers have a fine orange colored diamond weighing 2½ carats and worth about £9,000.—New York Herald.

New Needle Device.

Deputy Sheriff S. S. Roszell of Lexington, Ky., is to confer in New York with a syndicate of English needle manufacturers to take steps toward the manufacture of his patent needle device. The proficiency lies in the needle eye and permits the use of single instead of a double thread.—Cincinnati Enquirer.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning April 16—Comment by Rev. S. H. Doyle.

Topic.—The eternal morning and modern missions.

—Isa. ix. 1-12.

This chapter is a song of triumph upon glorified Zion. It is a magnificent picture of the church in its glory and beauty after the light of God has shone upon it, and may be looked upon as a picture of the ideal Zion after the return from captivity or a picture of the New Jerusalem or heaven. Three characteristics of this eternal morning are prominent—darkness, moral and spiritual, in the church is to disappear; many of the nations of the world are to be gathered into heaven; the nations that will not serve God are to be destroyed.

The bearing of this passage upon the subject of modern missions is clearly evident.

1. In the light of the eternal morning modern missions are seen to pay. Modern missions have two specific purposes, (1) to dispel the spiritual darkness of the world and replace it with the light of God, and (2) to lead the gentile nations to God through Christ and to eternal salvation. The picture of the prophet in its application to eternity proves that both these results are to be accomplished. The darkness of the church is to be dispelled and the light of God is to shine upon it. The nations of the world are to flock to the church of God and are to bring their wealth and consecrate it to God. These facts prove to us that mission work is successful; that it does pay. The cry that missions are a failure should be forever silenced by this picture of eternity as given to the prophet by God Himself. It gives us a view of the result of missionary efforts, and it is one that should encourage and inspire all who are interested in this great cause of God to increased zeal and earnestness in the cause.

2. In the light of the eternal morning we see the necessity of modern missions. "Darkness shall cover the earth" except where the church exists. How important therefore that the church of Christ should extend over the whole world, that this glorious light of God may be worldwide. Again it is said that at that time the nation and kingdom that will not serve God shall perish; those nations shall be utterly wasted. But how can the heathen nations serve God unless they first know God? And how can they ever know God except the church of Christ sends them the knowledge of God? The responsibility for the salvation of the world is upon us. How will we meet it? Depending upon God for strength and encouraged by the assurance of success, let us rise to the full measure of our responsibility.

Bible Readings.—Isa. xliv. 20-23; iii. 1-7; Nah. i. 15; Math. xxviii. 19, 20; Luke xv. 1-10; Acts i. 1-8; xiii. 1-3, 41-49; xvi. 8-10; Rom. x. 14, 15; Rev. vii. 9, 10; xxi. 22-24.

The Pledge in England.

The pledge that is generally used by Endeavorers throughout Great Britain is the original one, with the introductory sentence, "Relying on the Lord Jesus Christ for salvation, and trusting in God for strength, I promise Him." No one seems to know who composed this introduction. The theologians think that there is a confusion of persons in the Godhead in the phrase. They ask, "To whom does the 'Him' refer?" Some societies, especially the Irish Methodist, have adopted the American revised pledge. It was agreed by the British National council, at its recent session, to adopt, after the phrase, "I will pray to Him and read the Bible every day," the words, "that I will support my own church and its services in every way in my power." This is to be the form suggested for ordinary use.

Faith in God.

In view of the prevailing and abiding love of Him in whose hands all power in heaven and on earth is lodged what a folly seems our unbelief and what a sin and shame our worry! We have but the duty of the present. The provision for the morrow is our Father's care, and because He cares and wills that we should have the help that never fails His trusting children in their hour of need we can put our whole strength into the moment's work, assured that the morrow's task will never be allowed to pass beyond the morrow's strength.—Congregationalist.

Purity Is Power.

The rose, among the sweetest and most beautiful of God's creations, is armed with thorns, nature's sharp bayonets for warding off attack. Purity is the defence of beauty; modesty is the safeguard of innocence. The severe chastity which repels familiarity is as absolutely essential for the safety of the soul as genial attractiveness is for its beauty.—A. J. Gordon.

Cræze For Badge 13 and Was Killed

Sergeant W. P. Steele of the Lawrence company relates a singular circumstance in connection with the death of Lieutenant Alford in Manila. Identification badges with numbers on them were given out to the Kansas troops. The man who got No. 13 made such strong objection to the unlucky number that Lieutenant Alford exchanged with him, and the lieutenant had it on his person when he was killed.—Kansas City Journal.

PINGREE'S GREAT FIGHT

His Plan to Municipalize Detroit's Street Railways.

WHAT THE GOVERNOR LOOKS FOR.

With No Watered Stock on Which to Pay Dividends, He Expects Detroit to Give 3 Cent Fares on All Railroads—History of the Fight—Provisions of the Law.

Governor Pingree in a recent interview on the fight for municipal ownership of street railways in Detroit said "We will have 3 cent fares without a question. With no watered stock to be cared for and only legitimate expenses to pay there can be no possible doubt as to success in the end. It is a great victory for the people, the greatest fight of my life."

Within the next six months, probably within the next three, Detroit will be operating her own street railways.

With the accomplishment of this there will have been won the first great battle in the fight for municipal control of quasi public institutions. Through the efforts of Governor Pingree, beginning when he was first elected mayor of Detroit, this has been brought about, and now, with every step taken except the final consummation of the fact, Detroit finds itself situated as no other city has been situated. Not a single stone is in the way of closing up the deal. Both the city and three street car companies are ready and willing to come to terms.

Up to the time of the introduction of the McLeod bill in the legislature, the passage of which measure paved the way for the opening of negotiations, the situation was this. The several franchises of the street railways ran from 10 to nearly 30 years, averaging 17 years. Through the constant efforts of Governor Pingree the citizens had come to the conclusion that municipal control of the tracks, if not municipal operation of the cars, would be the proper thing.

Efforts of the street railway companies, all of which gradually came under the control of Tom L. Johnson and R. T. Wilson of New York, to secure a blanket franchise covering all roads proved futile unless the companies would agree to 3 cent fares, interchangeable transfers and a short term

GOVERNOR H. S. PINGREE.

franchise. These terms the railroads would not accept, partly because of the beneficial effect such conditions would have on private operation of roads in other cities; hence Messrs. Wilson and Johnson began to look about for some way of getting out of their predicament on the safe financial side.

Indeed Mr. Wilson felt in any but friendly terms with Mr. Johnson, because the latter had invested his money under the belief that a satisfactory franchise could be obtained whereby several millions of bonds locked up in Mr. Wilson's safe could be taken from their strong box and sold on the market. These bonds are still there. It was to Tom L. Johnson, then, that Mr. Wilson looked for relief. Mr. Johnson himself was rapidly changing some of his political beliefs, or at least he had begun to publicly express political beliefs that he had kept dormant in his mind. One of these beliefs was that the public might with a good deal of reason operate its own street cars, as well as its own electric light plants. He had gradually begun to dispose of his interests in corporations, and the thought came to him, why not experiment in Detroit? There the people were anxious to control the car tracks, and because of this Mr. Johnson was enabled to see a brilliant future for the money he had invested there. The time and the occasion were propitious.

From Mr. Wilson Mr. Johnson got full and ample powers to carry on the negotiations with Detroit, not through the mayor and the council, but with a man who by force of his personality and the absolute public faith in his honesty wielded more power than the mayor and the council combined. Governor Pingree. Mr. Johnson's authority from Mr. Wilson contained the double limitation that the money invested should be made safe, and that negotiations should be closed within a certain period, popularly supposed to be within six months.

In response to a long distance telephone message Governor Pingree has

been to Cleveland, where Mr. Johnson made known the general terms by which Detroit could get that for which Governor Pingree had so long fought, municipal ownership of its street railways. From Cleveland the two went to New York, where Mr. Wilson was seen when some Detroit attorneys, among them Elliott G. Stevenson, now one of the commissioners, were hastily called to New York, where an enabling act was drawn up and which later was introduced under the name of the McLeod bill in the Michigan legislature.

Mr. Wilson absolutely refused to have a referendum clause attached to the bill and this point Governor Pingree was forced to concede. The bill underwent considerable modifications before it became a law. As finally signed, the McLeod law "authorizes the appointment by a majority of the common council, at any time within 20 years, of the Detroit street railway commission, of three commissioners appointed for two, four and six years respectively, their successors to be appointed by the common council on nomination of the mayor for six year terms."

It makes aldermen ineligible to appointment.

It compels each commissioner to give a \$250,000 surety bond for the faithful performance of duty.

Makes the city treasurer custodian of all the commissioners' money.

Gives the commission power to acquire, in its discretion, on any terms it deems advisable, by purchase, lease or otherwise, any street railway, wholly or partly in Detroit, including all unused franchises, and make needed extensions or improvements.

Empowers the commission to operate roads so acquired for carrying both passengers and freight and manage them as it would a private business.

Prohibits the commission from incurring any debt on behalf of the city, except it be chargeable solely to the railway properties controlled.

Limits the maximum of fares to be charged to present fares of the Citizens' Street Railway company.

Authorizes the commission to contract with other railway lines for interchange of tickets, transfers, use of tracks and for operation of cars.

Gives the council power to examine the commissioners' books and accounts at any time, and compels the comptroller to do so once in three months.

Makes all liability for damage or other legal suits arising from the street car business lie against the commission and the property it controls solely.

Prohibits the commission from granting or extending any franchise.

Specifies that in case of the reversion of street railway property to those from whom it was purchased, "no franchise or franchise extension beyond the life of the existing franchise at the time of purchase shall be implied or granted under the provisions of this act."

The commission has been appointed, but only after a hot fight. Pingree's strong personality proved too much for the opposition. The only concession he made was that no definite bargain should be made until the common council had a chance to approve of the terms. In his speech to the council Governor Pingree said:

"I am satisfied that two-thirds of the people of the city want municipal ownership. The proportion is not any greater than in other cities in the United States. I thought I was doing the people a favor when I interested myself to bring this thing about. I will say to you that I never felt so good in my life as when I found out that the owners of the roads would sell and not ask the city to assume anything. I considered it a bigger thing than I would if the people of the state had offered to let me be governor all the rest of my life."

The governor declared for flat 3 cent fares and told of the danger of delay because the other parties to the deal might shift. He declared that the bill in all its main features had been before the legislature for 59 days. "And I'm willing to have everybody in the city of Detroit know that I'm the old curse that helped to get it through," he shouted. "The more people that know it the better it will suit me."

The commission will get right to work. It is not believed that there will be any haggling as to price. Mr. Johnson and Governor Pingree have agreed that the price shall be such a figure as will cover the visible assets of the companies together with the probable earnings, based upon the natural increase of population and figured on the average life of the present franchises, 17 years. One member of the commission, who would not allow his name to be used, estimated that the price would be between \$7,000,000 and \$10,000,000.

When the price has been agreed upon, the commission will go to the aldermen for a franchise, not for the purpose of getting permission to operate the roads, as this is not needed, but in order to have some security for the present bondholders. It will be as if a man bought a lot under mortgage—that mortgage would also stand against the house to be erected on the lot. Should the city fail of operation, then upon this franchise would the bondholders operate.

There will be no marked change in the method of operation as now in force. The present rates of fare will be continued for a time, and then will come a gradual reduction until 3 cent fares prevail. A civil service examination will be installed for employees so as to eliminate politics from the operation of the road.—New York Journal.

ANTI-QUAYITES TO MEET.

Will Hold a Conference Tuesday Morning—They Voted For Wells on Joint Ballot.

HARRISBURG, April 15.—The anti-Quay Republicans voted for Calvin Wells, the Pittsburg ironmaster and owner of the Philadelphia Press at the ballot for United States senator.

Mr. Wells likely will also be voted for today and Monday by the anti-Quayites. There probably will be no material change in the senatorial deadlock until after the conference of the Quay Republicans on Monday evening to consider the proposition of the anti-Quay Republicans for the appointment of a committee of conference on the part of the Quayites to confer with a like committee on the part of the anti-Quayites with a view of adjusting factional differences and the election of a senator.

A meeting of the anti-Quayites will be held on Tuesday morning to take action on the decision of the Quay conference. The ballot Friday was the seven-tenths of the joint convention. The vote was: Quay, 86; Jenks, 66; Wells, 50; total vote, 202; necessary to a choice, 103; paired or not voting, 51; no election.

A paper was being circulated among the Republican senators and members who are voting for Senator Quay for a general conference of Republican legislators in the hall of the house of representatives next Monday evening, to discuss the senatorial situation. This meeting will be held after the conference called by Senator John C. Grady, chairman of the joint Republican caucus which nominated Mr. Quay, to be held at 7 o'clock on Monday evening in the supreme court chamber.

STATEMENTS ON SAMOA.

Interpolations Officially Answered in the German Reichstag and English House of Commons.

BERLIN, April 15.—An interpolation in the reichstag, which was signed by a majority of the centre, reichspartei, conservatives and national liberals, asked the government for information regarding the events in Samoa and also requested information regarding the measures taken or to be taken by the government under the circumstances.

The foreign minister, in his reply, emphasized Germany's adherence to the Samoan act, the rearrangement of which, he declared, was desirable to the government.

Continuing, the minister said the government knew nothing of the conflicts said to have taken place between the American Admiral Kautz and the commander of the Falke.

Finally the minister announced that Great Britain had agreed to the German proposals to dispatch a commission to Samoa, adding that Germany would only accept a settlement which would leave German rights and interests unimpaired. He regarded the uncurtailed maintenance of her treaty rights as a matter of national honor.

LONDON, April 15.—The parliamentary secretary of foreign affairs, William St. John Broderick, replying in the house of commons said information had reached the foreign office that fighting had been proceeding between rival parties in Samoa and that the British and American authorities had found it necessary to interfere to restore order. Arrangements, he added, had been made by the three governments to send a commission with full powers to act for the restoration of order and to take steps for the future government of the islands.

Mr. Broderick also said the commission would leave for Samoa as early as possible.

Agreement on Samoa.

WASHINGTON, April 15.—After hearing from the British and German embassies the state department was enabled to announce positively and finally that the three parties to the Berlin treaty had agreed upon the instructions to be given their Samoan commissioners, and that it was certain that the commission would leave San Francisco on the 25th inst. for Samoa, on the Badger.

SOLDIERS TO COME HOME.

The Volunteers in the Philippines Soon Will Be Discharged.

WASHINGTON, April 15.—The war department will reply to the telegram of Governor Lee of South Dakota to President McKinley, asking for the immediate muster out and return of the South Dakota troops in the Philippines, that the troops will be brought home as soon as deemed expedient by the United States and as soon as possible with the transports at hand.

An official in the war department said that the matter was in the hands of General Otis, and it would be satisfactorily arranged by him and the volunteers in the islands. Already those who desired to leave because of pressing business needs, or because the support of their families depended upon their return were being discharged.

President to Make a Western Trip.

CHICAGO, April 15.—United States Senator Thomas H. Carter of Montana, ex-chairman of the national Republican central committee, was at the Auditorium Annex, while enroute to Butte, from Washington. He said President McKinley was going to make a tour of the western states during the month of July. Accompanied by Mrs. McKinley and a considerable number of intimate official associates, he will leave Washington about July 15.

Ocean Too Deep For Wading.

Agninaldo will not capture Manila as promised. He can't get around the world the other way in time.—Cleveland Leader.

SEVEN SUTHERLAND SISTERS

Hair Grower and Scalp Cleaner

For Over 14 Years

these highly meritorious preparations have stood at the head of all hair restoratives. More than 3,000,000 bottles have been used by the American people, and thousands of testimonies bear witness to their excellence, while there were never any complaints when directions were followed.

LOCAL BREVITIES.

Doctor Rhodes, of Ravenswood, is in the city the guest of Doctor Shumaker.

Miss Sara Hodgson, of Norton street, is confined to her home by serious illness.

A Pullman sleeper, Fidellia, was attached to the early Cleveland train this morning.

Robert Starkey, a checkman at the freight depot, was off duty today on account of illness.

A number of the employees of the Thomas machine shops spent yesterday fishing at Beaver creek.

John Shrader was in Pittsburgh today attending to some matters pertaining to the Virginia street car line.

Trustee Thomas Lloyd left this morning for New Cumberland where he spent the day on business.

This morning a lot of house moving material was taken to Wellsville by the street car line from this city.

Miss Cooley, of Salem, who has been spending several days in the city visiting friends, returned to her home at noon today.

The Women's Good Citizenship union will hold an important meeting Monday evening at 7:30 o'clock. A full attendance is desired.

William F. Steele will leave tomorrow night for a western trip in the interest of the G. F. Brunt porcelain works. He will be absent 10 days.

The board of trustees of the Methodist Protestant church will hold an important meeting in the lecture room of the church Monday evening.

The new record books recently received at the fire station are now being used. Not many entries have been made as yet in either of the books.

The funeral of John J. McGinnis will take place Monday morning at 9 o'clock from St. Aloysius church. Interment will be made at St. Aloysius cemetery.

The basketball game at the Young Men's Christian association last night between the All Star and Beaver teams, was won by the All Star team by a score of 22 to 8.

Samuel Bye, ex county commissioner, was in the city yesterday afternoon attending to some personal business. He returned to his home in Lisbon this morning.

The Junior Mechanics will this evening hold their last dance of the season. Members and their friends are invited, and it is expected an enjoyable time will be spent.

Yesterday 18 pigeons were sent to Toronto. They were liberated by the agent of that place at 9:34, and the majority of the number returned to their lofts before noon.

Alex Johnson, of East End, who has been in Salineville during the week superintending the work at the plant of the Ohio Clay Brick company, returned to the city last evening.

Brakeman John Glessner, of the Belaire and Pittsburg accommodation train, was off duty today on account of illness. His place was filled by Extra Brakeman C. E. Williams, of Wellsville.

The saggamakers at their next regular meeting, to be held April 26, will transact business of importance. They will also take a vote as to where the next Brotherhood convention shall be held.

Harvey B. and William J. Brady, of St. Louis, spent the week in the city attending to some matters connected with an estate that is being settled. The property is located on the Virginia side, back of Chester.

The United States pottery at Wellsville will commence to make ware just as soon as the water mains are extended to the plant. All preparations have been made, and it is expected the plant will be in operation within one week.

THE BOSTON STORE.

TAILOR MADE SUITS.

Forty new ones received the past two days. Judging from the rate of selling Saturday and Monday, these will not stay with us long. All silk lined Suits at \$15.00, \$20.00, \$25.00 and \$35.00. All silk lined Jackets and percale lined Skirts at from \$5.00 to \$15.00 a suit. You want to see these.

SEPARATE SKIRTS.

Never have we shown such a line of Separate Skirts as at the present time. We have been adding some strong numbers to the line lately. We want the privilege of showing you

Our Special Black Crepon Skirt

Ruffled in Ribbon, at \$5.00.

She is a daisy. The price range of Skirts is \$1.50 to \$15.00, with all between prices, and they come in cheviot, crepon, serge, mohair and covert cloths.

Silk Waist Patterns.

If you want a ready made Silk Waist, in black or colors, we can furnish you either at any price between \$2.50 and \$10.00, but what we want to call your attention to now is our immense assortment of Exclusive Silk Waist Patterns, 4 yards in each pattern and not any two alike. Over 100 different patterns to select from. Priced at from \$4.00 to \$6.50 a pattern.

Black Crepons.

The sale on this popular fabric has been surprisingly large this season, and no wonder, when you consider the values that are being shown here. The qualities are rich and the styles are striking. They are priced at \$1.00, \$1.50, \$2.00, \$2.25, \$2.50, \$3.50 and \$4.00 a yard.

Lace Curtains and Draperies.

House cleaning time is here, and you will need from 1 to 6 pairs of Curtains to "fix up" with. To buy Curtains without seeing the line we are showing is an injustice to yourself. We have doubled our stock; doubled our Curtain room space, and can show you a line of Lace and Portier Curtains second to none. Prices range from 35c a pair to \$12.50 a pair. A choice assortment of Lace Curtain Ends at 50c, 75c and \$1.00 each.

Ruffled Curtains. Your special attention is called to our line of Ruffled Curtains at 65c, 75c, \$1.50 and up to \$5.00 a pair.

Tapestries for Furniture Coverings. An elegant line of Denims, Jutes, Tapestries and Plushes for furniture coverings, priced at from 25c to \$3 a yard, with all between prices.

Sundries. Feather Pillows \$1.25 and \$1.50 a pair; Window Shades, 25c, 35c and 50c; Cottage Curtain Poles, two for 25c; Brass Rods, two for 25c; Furniture Gimp, 4c a yard; Furniture Cord, 10c a yard; Wall Paper Cleaner, 15c a box; Carpet Cleaner, 25c a box; Carpet Tacks, 5c a barrel. Our stock of Floor Oil Cloths, Linoleums, Shelf, Stair and Table Oil Cloths is now complete.

AFTER DELINQUENTS.

Receiver Cameron Continues to Enter Suits.

LISBON, April 15.—[Special]—I. B. Cameron, as receiver for First National bank, filed three petitions this morning pertaining to the settlement of the bank's affairs.

In one petition the receiver asks for a judgement of \$3,400 against Mary Ann Benner. Mrs. Benner is a stockholder of the bank, holding 34 shares of stock at \$100 a share. She has not paid the assessment as directed by the comptroller of currency.

In a petition the receiver asks judgement of \$500 against Julia A. Burns. She owns five shares of stock and has not paid the assessment as directed.

In a third petition he brings action against Mary A. Patterson for \$2,000, she owning 20 shares of stock in the bank and not having paid the assessment as directed.

The receiver asks for interest in all of these sums from February 9, at 6 per cent.

A Kansas Girl in the Trenches.

Here is an extract from a letter written by W. S. Cooper, an Ottawa (Kan.) boy with the Twentieth Kansas at Manila, which testifies not only to the bravery of a Kansas girl, but also distantly to romance. "Our lady nurse was with us in the trenches that night. She sat right next to me, and every time I took a shot she had another cartridge ready for me. They shot closer than they ever did before, and the bullets were just nipping over our heads."

PERSONAL MENTION.

—Mrs. C. E. Kahler, of Columbus, is a guest at the home of Mr. and Mrs. John Sellers.

—Mrs. C. C. Thompson and family left today for Cambridge Springs, Pa., where they will spend a few weeks.

—Mrs. J. D. West, who has been spending the week in Steubenville with friends, returned to the city last evening.

—Rev. S. C. George left this morning for Mingo where he spent the day looking after some property in which he is interested.

Kapiolani Very Ill.

SAN FRANCISCO, April 15.—Honolulu advises of April 5 say: "The ex-Queen Dowager Kapiolani is seriously ill. She had another stroke of apoplexy about a week since. Prince Cupid Kalanianole returned from Kona in the steamer Mauna Loa on April 4, having been summoned to hasten to the bedside of his aunt. The physicians are hopeful, but the case is a desperate one."

Morphy Must Go Back.

KANSAS CITY, April 15.—United States Commissioner Nuckles decided that Santiago Morphy, charged with embezzling \$10,000 from the National bank of the City of Mexico, should be turned over to the Mexican officials who came after him.

Catholic Church at West Point.

WASHINGTON, April 15.—Acting Secretary Meiklejohn issued a license granting the Catholic church authority to build a church upon the West Point military reservation. The license, which will be delivered to Archbishop Corrigan, was authorized by legislation, the bill providing for it causing considerable contention in congress before it passed.

Schley's New Place.

WASHINGTON, April 15.—Rear Admiral W. S. Schley, who has been on waiting orders since relieved of the command of the flying squadron, was assigned to duty as a member of the naval examining board in this city.

More Deputies to Protect Cars.

WHEELING, April 15.—Attorney General Griggs at Washington authorized the appointment of additional special deputy marshals to assist the 12 deputies already here to enforce Judge Jackson's injunction enjoining any interference with the operation of the lines of the Wheeling Railway company.

First Degree Murder Verdict.

EASTON, Pa., April 15.—The jury in the case of Llewellyn Stout, whose trial for the murder of Harvey Wuster, the Philadelphia and Reading railroad telegraph operator at Bingen station, returned a verdict of murder in the first degree after being out three hours.

Charles Dudley Warner Better.

NEW ORLEANS, April 15.—Charles Dudley Warner, who is ill with pneumonia, continued to improve. His wife and Charles H. Clark of Hartford are with him. The physicians are hopeful of his recovery. Mr. Clark said that no danger was apprehended at this time.

PHOENIX MUTUAL

Life Insurance Company

of Hartford, Conn.

Would call your Special Attention to their Endowment Plan

which has been modernized and thus made more attractive than ever. Policies on this plan call for the full payment of the amount insured at the end of 10, 15, 20, 25 or 30 years, as one may elect at the time of insuring, and should death occur previous to the maturity of the policy, the full amount is payable to the beneficiary designated. This plan of the "OLD PHOENIX" has been before the public for upwards of forty years and fully repudiates the ancient idea that it is necessary "to die to win." It will be noted that this plan is especially designed to furnish reliable short term investments, with insurance added without cost. For further information call on
